

TEMPORARY STATE COMMISSION ON LOBBYING

MISSION

The Temporary State Commission on Lobbying is responsible for monitoring, maintaining and making public the identities, activities, and expenditures of lobbyists, clients and public corporations attempting to influence the legislative, regulatory and rule- and rate-making actions of elected State officials and agency decision makers. The Commission is also authorized to hold hearings and impose civil penalties. A final responsibility of the Commission is to collect, maintain, and make public the records of appearances before regulatory State agencies.

ORGANIZATION AND STAFFING

The Lobbying Act sets forth the administrative and enforcement responsibilities of the Commission. Under the guidance of a six-member bipartisan board appointed by the Governor, with advice from the legislative leaders, these responsibilities are carried out by a workforce of nine.

FISCAL BACKGROUND AND BUDGET HIGHLIGHTS

The Commission receives 94 percent of its support from State tax dollars from the General Fund. The remaining 6 percent of its operations are funded by civil penalty fines assessed on lobbyists for violations of the Lobbying Law.

The Executive Budget recommends \$635,000 in General Fund support for the Commission. This recommended funding will allow the Commission to continue its present level of oversight activity.

PROGRAM HIGHLIGHTS

In 1998, the Commission's oversight responsibilities included 2,100 registered lobbyists, 1,291 clients of lobbyists, and 55 public corporations which reported lobbying expenses. The Commission's monitoring responsibilities encompassed both registered and unregistered special interest groups. These groups were active on over 18,250 bills before the Legislature and 2,150 rules, regulations and rate applications involving State agencies.

In 1996, the Commission established a web site on the Internet to further increase the public's access to lobbying information. The web site has been accessed more than one million times through the end of October 1999. A scanning and imaging system allows for almost same day processing of incoming registrations and reports.
