

# THRUWAY AUTHORITY

In addition to operating a 641-mile toll-highway system, the Thruway Authority has jurisdiction over the New York State Canal System. Through its subsidiary, the New York State Canal Corporation, the Thruway maintains, operates, develops and makes capital improvements to the 524-mile navigable waterway which includes 57 locks, numerous dams, reservoirs and water control structures.

Revenues from canal tolls and other user fees are deposited into the Canal System Development Fund and, in accordance with the State Constitution, are used exclusively for the canals. The Executive Budget recommends a new appropriation of \$2 million and reappropriations of \$2.45 million from the Canal System Development Fund for a portion of the maintenance, construction, reconstruction, development and promotion of the canals. All other Canal System and Thruway Authority programs are supported by Authority funds and are not reflected in the Executive Budget.
