***CONSULTING SERVICE CONTRACTS***

## **CONSULTING SERVICE CONTRACTS**

Chapter 10 of the Laws of 2006 amended the Civil Service Law and the State Finance Law to require the collection and reporting of information related to contract employees working under State agency consulting contracts. This new law required the Department of Civil Service (CS), the Division of the Budget (DOB), and the Office of the State Comptroller (OSC) to gather specific data related to procurement and consulting service contracts. The legislative intent was to provide for a comprehensive overview of the use of consultants in State agencies.

Four annual reports are mandated by Chapter 10 to meet these reporting requirements: the OSC Consulting Report (May 1), the OSC Procurement Stewardship Act (PSA) Report (July 1), the CS Report (September 30), and the Executive Budget report, which beginning with the initial report last year has been presented within this volume. The specific information which the law prescribes for these separate reports varies widely in terms of scope, time period measured, dollar thresholds and actual vs. projected activity. As a result, the different reports cannot easily be reconciled or evaluated.

The following tables present the information required for the Executive Budget report, as supplied by State agencies. As stipulated by the law and applied by the other reporting agencies, these tables show contract employee counts that represent estimates of the number of individuals employed (or projected to be employed) for any amount of time during any portion of the year. This concept is a major departure from the full-time-equivalent (FTE) concept used exclusively elsewhere in the Executive Budget documents. That standard measure translates part-time and part-year workers into the equivalent number of full-time positions over the course of a year. In contrast with FTEs, the straightforward count of employees (regardless of the percentage of time worked) that is reported in accordance with Chapter 10 arguably overstates the number of full-time-equivalent positions associated with consulting contracts.

It should be noted that spending figures, reported in accordance with Chapter 10, include labor-related contract costs such as overhead, travel and fringe benefits, and in some cases other nonpersonal service expenses. Accordingly, contract costs cannot be interpreted as representing only the compensation paid to contract employees.

The Executive is continuing to monitor and evaluate the use of such contracts on an ongoing basis. Where appropriate, as described elsewhere in the Executive Budget, steps are being taken to shift certain types of work from contracts to the State workforce.
