# Update to Annual Information Statement (AIS) State of New York

October 28, 2008

This quarterly update (the "AIS Update") is the second quarterly update to the Annual Information Statement of the State of New York, dated May 12, 2008 (the "AIS") and contains information only through October 28, 2008. This AIS Update should be read in its entirety, together with the AIS and the first quarterly update to the AIS dated August 6, 2008 (the "First Quarterly Update").

In this AIS Update, readers will find:

- 1. Extracts from the Mid-Year Update to the 2008-09 Financial Plan (the "Updated Financial Plan"), which the Division of the Budget ("DOB") issued on October 28, 2008. The Updated Financial Plan includes:
  - (a) a summary of recent events and changes to the Financial Plan made since the First Quarterly Update;
  - (b) revised Financial Plan projections for fiscal years 2008-09 through 2011-12;
  - (c) operating results for the first half of fiscal year 2008-09;
  - (d) an updated economic forecast,
  - (e) the Generally Accepted Accounting Principles (GAAP)-basis Financial Plan projections for 2008-09; and
  - (f) a summary on debt and capital management.

The Update Financial Plan is available on the DOB website, www.budget.state.ny.us.

- 2. A discussion of special considerations related to the State Financial Plan for fiscal year 2008-09.
- 3. A summary of GAAP-basis results for the 2007-08 fiscal year (the full statements are available on the State Comptroller's website, <a href="www.osc.state.ny.us">www.osc.state.ny.us</a>). This information is reprinted from the First Quarterly Update as a convenience to the reader and includes no new information since that time.
- 4. Updated information regarding the State Retirement Systems.
- 5. The status of significant litigation that has the potential to adversely affect the State's finances.

DOB is responsible for preparing the State's Financial Plan and presenting the information that appears in this AIS Update on behalf of the State. In preparing this AIS Update, DOB has utilized significant portions of the Updated Financial Plan, but has also relied on information drawn from other sources, such as the Office of the State Comptroller ("OSC"), that it believes to be reliable. Information relating to matters described in the section entitled "Litigation" is furnished by the State Office of the Attorney General.

During the current fiscal year, the Governor, the State Comptroller, State legislators, and others may issue statements or reports that contain predictions, projections or other information relating to the State's financial condition, including potential operating results for the current fiscal year and projected baseline gaps for future fiscal years that may vary materially from the information provided in the AIS. Investors and other market participants should, however, refer to the AIS, as revised, updated, or supplemented, for the most current official information regarding the financial condition of the State.

The State may issue AIS supplements or other disclosure notices to this AIS Update as events warrant. The State intends to announce publicly whenever an update or a supplement is issued. The State may choose to incorporate by reference all or a portion of this AIS Update in Official Statements or related disclosure documents for State or State-supported debt issuance. The State has filed this AIS Update directly with Nationally Recognized Municipal Securities Information Repositories (NRMSIRs) and with the Central Post Office, Disclosure USA. The Municipal Advisory Council of Texas (Texas MAC) established this internet-based disclosure filing system, approved by the Securities and Exchange Commission, to facilitate the transmission of disclosure-related information to the NRMSIRs. An official copy of this AIS Update may be obtained by contacting the New York State Division of the Budget, State Capitol, Albany, NY 12224, Tel: (518) 474-8282 or from any NRMSIR.

# **Usage Notice**

This AIS Update has been supplied by the State pursuant to its contractual obligations under various continuing disclosure agreements (each, a "CDA") entered into by the State in connection with financings of certain issuers, including public authorities of the State, that may depend in whole or in part on State appropriations as sources of payment of their respective bonds, notes or other obligations.

An <u>informational copy</u> of this AIS Update is available on the DOB website (<u>www.budget.state.ny.us</u>). The availability of this AIS Update in electronic form at DOB's website is being provided to you solely as a matter of convenience to readers and does not create any implication that there have been no changes in the financial condition of the State at any time subsequent to its release date. Maintenance of this AIS Update on this website is <u>not</u> intended as a republication of the information therein on any date subsequent to its release date.

Neither this AIS Update nor any portion thereof may be (i) included in a Preliminary Official Statement, Official Statement, or other offering document, or incorporated by reference therein, unless DOB has expressly consented thereto following a written request to the State of New York, Division of the Budget, State Capitol, Albany, NY 12224 or (ii) considered to be continuing disclosure in connection with any offering unless a CDA relating to the series of bonds or notes has been executed by DOB. Any such use, or incorporation by reference, of this AIS Update or any portion thereof in a Preliminary Official Statement, Official Statement, or other offering document or continuing disclosure filing or incorporated by reference therein without such consent and agreement by DOB is unauthorized and the State expressly disclaims any responsibility with respect to the inclusion, intended use, and updating of this AIS Update if so misused.

# Update to the 2008-09 Financial Plan \_\_\_\_\_

**Note:** DOB issued the Updated Financial Plan on October 28, 2008, extracts of which are set forth below. The Updated Financial Plan includes updated estimates for 2008-09 and projections for 2009-10 through 2011-12. As such, it contains estimates and projections of future results that should not be construed as statements of fact. These estimates and projections are based upon various assumptions that may be affected by numerous factors, including future economic conditions in the State and nation and potential litigation. There can be no assurance that actual results will not differ materially and adversely from the estimates and projections contained in the Updated Financial Plan.

The State accounts for all of its spending and revenues by the fund in which the activity takes place (such as the General Fund), and the broad category or purpose of that activity (such as State Operations). The Financial Plan tables sort all State projections and results by fund and category. The State Constitution requires the Governor to submit an Executive Budget that is balanced on a cash basis in the General Fund—the Fund that receives the majority of State taxes, and all income not earmarked for a particular program or activity. Since this is the fund that is required to be balanced, the focus of the State's budget discussion is weighted toward the General Fund.

The State also reports disbursements and receipts activity by two other broad measures: State Operating Funds, which includes the General Fund and funds specified for dedicated purposes, but excludes Federal Funds and Capital Projects Funds; and All Governmental Funds ("All Funds"), which includes both State and Federal Funds and provides the most comprehensive view of the financial operations of the State.

Fund types of the State include: the General Fund; State special revenue funds ("SRFs"), which receive certain dedicated taxes, fees and other revenues that are used for a specified purpose; Federal SRFs, which receive Federal grants; State and Federal Capital Projects Funds, which account for costs incurred in the construction and reconstruction of roads, bridges, prisons, and other infrastructure projects; and Debt Service Funds, which pay principal, interest and related expenses on long-term bonds issued by the State and its public authorities.

Please see the Glossary of Acronyms on Pages 65-68 of this AIS Update for the definitions of acronyms, defined terms and abbreviations that are used in this AIS Update.

# 2008-09 Updated Financial Plan Extracts

In the First Quarterly Update, DOB stated that the economic downturn would have an adverse impact on State finances, and warned the outlook could worsen, noting "the nation's economic troubles are severe and widespread [and] important financial institutions face a crisis of confidence among investors and the general public." In September and October 2008, a series of financial sector shocks turned the national economic downturn into a global financial crisis that is expected to have a severe and negative impact on State finances.

DOB now projects a General Fund budget gap of \$1.5 billion in the current year, which it expects will be addressed through legislative or administrative measures, or both. General Fund tax receipts have been revised downward by \$1.7 billion from the estimate in the First Quarterly Update. In addition, adverse market conditions have disrupted plans to convert GHI/HIP to a for-profit company and to sell certain surplus State properties, reducing expected resources by another \$384 million in the current year. These costs are expected to be offset in part by \$427 million in cost-saving measures to improve the State's operating margins that were approved by the Governor and Legislature in August 2008, \$120 million in additional revenue expected from the sale of development rights at Aqueduct Racetrack, and \$26 million in other savings based on a review of updated information.

The projected budget gaps<sup>1</sup> for 2009-10 and future years have also increased substantially, primarily reflecting the expected impact of recent economic events on the forecast of State tax receipts. DOB now projects a General Fund budget gap of \$12.5 billion in 2009-10, an increase of \$6.2 billion from the First Quarterly Update. The budget gap for 2009-10 is the largest ever faced by the State as measured in absolute dollars, and is roughly equivalent to the magnitude of the gap that needed to be closed in fiscal year 2003-04. The estimate for General Fund receipts has been reduced by \$5.8 billion, reflecting the expected impact of the global financial crisis on the State's tax base. The increase in the budget gap also reflects the inclusion of a reserve for potential labor settlements (\$400 million) with State employee unions that have not agreed to new contracts in the current round of bargaining.<sup>2</sup>

At the Governor's request, the Legislature is to convene a special session on November 18, 2008 to consider options to close the current-year shortfall and help reduce the budget gaps in future years. DOB is developing savings options in advance of the November 2008 session. Proposals are expected to include a wide array of local assistance and State operations reductions, as well as targeted revenue enhancements. In addition, the Governor plans to submit a balanced Executive Budget for 2009-10 to the Legislature on December 16, 2008, 36 days in advance of the constitutional deadline (January 20, 2009). The early submission is intended to stimulate prompt action in achieving a balanced enacted budget for 2009-10 in advance of April 1, 2009, the start of the new fiscal year, and provide an opportunity to address any remaining shortfall in the current year, as necessary. The updated Financial Plan does not count on any increases in Federal assistance, but the Governor continues to lobby for a Federal stimulus package that would provide direct fiscal relief to the states. DOB expects the State to end the current fiscal year with \$1.2 billion in rainy day reserves, which it does not plan to use to address the current fiscal year shortfall.

<sup>1</sup> The difference between the General Fund disbursements expected to be needed to maintain current service levels and specific commitments and the expected level of resources available to pay for them.

<sup>2</sup> The reserve is calculated on the assumption that future settlements will follow the pattern established by unions that have approved their contracts.

#### **SUMMARY**

## **Before September 2008**

Prior to the extraordinary economic events of September 2008, the State had taken a series of steps during the current fiscal year to respond to a weakening economy and deteriorating outlook for the State's financial services industry. In the First Quarterly Update, DOB significantly lowered its projections for tax receipts in each of the four years of the Financial Plan (in comparison to the Enacted Budget Financial Plan) to reflect the worsening economic outlook and the anticipated impact on State tax collections. It also lowered the amount of resources expected from health insurance conversions, thereby creating a potential imbalance in HCRA starting in 2009-10.<sup>3</sup> At the time, DOB warned that "the nation's economic troubles are severe and widespread [and] important financial institutions face a crisis of confidence among investors and the general public."

To help keep the General Fund balanced in the current year, the DOB began implementation of administrative savings measures (the "Fiscal Management Plan" or "FMP"). The FMP was projected to save \$630 million in 2008-09 and \$500 million annually thereafter. After accounting for the impact of the FMP savings, DOB projected that the General Fund would end the current fiscal year in balance on a cash basis without the use of existing reserves. The combined General Fund and HCRA budget gaps were estimated to \$6.4 billion in 2009-10. \$9.3 billion 2010-11, and \$10.5 total in billion 2011-12.

In August 2008, the Governor and Legislature approved a package of cost-saving measures, including health care cost-containment and across-the-board reductions in certain categories of local assistance spending, that were intended to improve the current-year operating margin in the General Fund and reduce the projected gaps in future years. DOB estimated that the measures would provide General Fund savings of \$427 million in the current year and \$651 million in 2009-10 (including \$170 million in cost-avoidance measures).

#### **Global Financial Crisis**

A wave of unprecedented financial sector shocks occurred in September and October 2008, transforming an economic downturn that began last year into a global financial crisis. Trust among institutions and investors evaporated. The credit markets seized up, with banks refusing to lend to one another. Wall Street's large independent investment banks disappeared altogether, with Bank of America agreeing to purchase Merrill Lynch, Lehman Brothers filing for bankruptcy protection, and Goldman Sachs and Morgan Stanley applying to become bank holding companies (Bear Stearns had been taken over by JP-Morgan Chase earlier in the year). Market indexes plummeted, an acceleration of a downward trend that began last year. Investors fled to safe assets. The Federal government intervened in the financial system on a scale not seen since the Great Depression, nationalizing the twin mortgage giants, Fannie Mae and Freddie Mac, taking over AIG, the world's largest insurance company, authorizing a \$700 billion financial rescue program, the Troubled Asset Relief Program, to purchase mortgage-related securities from financial institutions, and guaranteeing trillions of dollars of deposits in money market funds. Abroad, governments were compelled to take dramatic steps of their own to try to contain the crisis, including intervening to stabilize their own banking systems. A long period marked by growing financial leverage, increased risktaking, falling credit standards, and excessive deregulation appears to have come to an end.

<sup>3</sup> On account of the close financing relationship between the General Fund and HCRA, DOB considers the General Fund and HCRA budget gaps on a combined basis for planning purposes.

## **Economic Impact is Expected to Be Severe**

In DOB's view, the economic damage from the global financial crisis, even if it has been successfully contained, which is by no means certain, will be severe and long-lasting. At the national level, the U.S. economy is expected to contract by 0.1 percent in 2009, following growth of 1.4 percent in 2008. Gross Domestic Product is expected to decline for three consecutive quarters, starting in the third quarter of 2008, a performance not seen since the recession of the mid-1970s. Relatively weak growth in both real household consumption and private sector investment is expected through the end of 2009, and is substantially weaker than the performance projected in the First Quarterly Update. The pace of job losses is likely to accelerate, with the U.S. unemployment rate estimated to average 6.7 percent in 2009, following 5.7 percent in 2008.

In New York, the impact of the crisis is expected to have grave consequences for the State's financial services sector, one of the principal sources of State tax revenues. Layoffs in this sector alone are now expected to total approximately 45,000 positions as strained financial institutions seek to cut costs and newly merged banks seek to reduce duplication of services. This compares to a loss of approximately 30,000 jobs in the months following the September 11, 2001 terrorist attacks. DOB now estimates that finance and insurance sector bonuses will fall 43 percent for the 2008-09 bonus season and another 21 percent for 2009-10, representing larger declines than were seen in the aftermath of September 11<sup>th</sup>. Declining employment and bonuses will have negative implications for overall income growth as well. New York State wages are now projected to fall 1.8 percent in fiscal year 2008-09, which translates into a \$9.2 billion reduction in the wage base. Growth in total New York personal income for 2009 has been revised down to a decline of 1.0 percent, following growth of 2.7 percent for 2008.

But the damage is not limited to Wall Street. Statewide, DOB is forecasting private sector job losses surpassing 160,000, with declines anticipated for all major industrial sectors except health care and education. Statewide employment is now expected to fall 1.5 percent for 2009, with private sector jobs projected to decline 1.7 percent, following growth of 0.2 percent for both total and private employment for 2008 (see "Economic Forecast" herein).

## **Financial Plan Impact**

The State's financial position is expected to be severely affected by the global financial crisis. In the current year, DOB now projects a General Fund budget gap of \$1.5 billion, which it expects to be addressed through legislative or administrative measures, or both. General Fund tax receipts have been revised downward by \$1.7 billion from the estimate in the First Quarterly Update. In addition, adverse market conditions have disrupted plans to convert GHI/HIP to a for-profit company and to sell certain surplus State properties, reducing expected resources by another \$384 million in the current year. These costs are expected to be offset in part by \$427 million in savings measures to improve the State's operating margins that were approved by the Governor and Legislature in August 2008, \$120 million in additional revenue expected from the sale of development rights at Aqueduct Racetrack, and \$26 million in other savings based on a review of updated information.

The projected budget gaps for 2009-10 and future years have also increased substantially, primarily reflecting the expected impact of recent economic events on State tax receipts. DOB now projects a General Fund budget gap of \$12.5 billion in 2009-10, an increase of \$6.2 billion from the First Quarterly Update. The estimate for General Fund tax receipts has been reduced by \$5.8 billion, as the impact of the financial services sector contraction and broader downturn is felt in the State's tax base. The increase in the 2009-10 budget gap also reflects the inclusion of a reserve for potential labor settlements (\$400 million) with State employee unions that have not agreed to new contracts in the current round of bargaining. The following table summarizes the major revisions to the General Fund forecast.

| Summary of Major General Fund Revisions, 2008-09 Mid-Year Financial Plan<br>General Fund (\$000) |         |          |          |          |  |  |  |  |  |  |
|--|---------|----------|----------|----------|--|--|--|--|--|--|
|  | 2008-09 | 2009-10  | 2010-11  | 2011-12  |  |  |  |  |  |  |
| Gap Estimate (First Quarterly Update)  | 0       | (6,355)  | (9,295)  | (10,545) |  |  |  |  |  |  |
| Receipts Revisions   | (1,664) | (5,819)  | (5,794)  | (5,893)  |  |  |  |  |  |  |
| HCRA Health Insurance Conversions  | (284)   | (56)     | (25)     | 0        |  |  |  |  |  |  |
| Asset Sales  | (100)   | 30       | 0        | 0        |  |  |  |  |  |  |
| August 2008 Session Savings  | 427     | 651      | 639      | 650      |  |  |  |  |  |  |
| Reserve for Labor Settlements  | 0       | (400)    | (275)    | (275)    |  |  |  |  |  |  |
| Aqueduct Franchise Fee   | 120     | 0        | 0        | 0        |  |  |  |  |  |  |
| Spending Revisions   | 26      | (569)    | (1,002)  | (1,171)  |  |  |  |  |  |  |
| Mid-Year Gap Estimate  | (1,475) | (12,518) | (15,752) | (17,234) |  |  |  |  |  |  |
| Required Legislative/Admin Actions*  | 1,475   | TBD      | TBD      | TBD      |  |  |  |  |  |  |
| Remaining Gap**  | 0       | TBD      | TBD      | TBD      |  |  |  |  |  |  |

<sup>\*</sup> The legislative/administrative actions to be taken to close the projected budget gap for fiscal year 2008-09 could exceed or fall short of \$1.475 million, which would have the effect of either decreasing or increasing the projected budget gaps and the corresponding required legislative/administrative actions for the current year and upcoming years.

From 2008-09 to 2009-10, General Fund receipts are now projected to decline by nearly \$3.1 billion, a decrease of 5.8 percent. General Fund disbursements are expected to grow by nearly \$6.7 billion, an increase of 11.9 percent (see section on "General Fund Outyear Budget Projections" later in this Update). In addition, the level of planned reserves available to finance operations declined by \$1 billion.

At the Governor's request, the Legislature is to convene a special session on November 18, 2008 to consider options to close the current-year shortfall and help reduce the gaps in future years. DOB is developing savings options in advance of the November 2008 session. Proposals are expected to include a wide array of local assistance and State operations reductions, as well as targeted revenue enhancements. In addition, the Governor plans to submit a balanced Executive Budget for 2009-10 to the Legislature on December 16, 2008, 36 days in advance of the constitutional deadline (January 20, 2009). The early submission is intended to stimulate prompt action in achieving a balanced enacted budget for 2009-10 in advance of April 1, 2009, the start of the new fiscal year, and provide an opportunity to address any remaining shortfall in the current year, as necessary. The Updated Financial Plan does not count on any increases in Federal assistance, but the Governor continues to lobby for a Federal stimulus package that would provide direct fiscal relief to the states. DOB expects the State to end the current fiscal year with \$1.2 billion in rainy day reserves, which it does not plan to use to address the current shortfall.

<sup>\*\*</sup> Assumes successful implementation of legislative/administrative actions.

## **Receipts Discussion**

For the period April 1, 2008 through September 30, 2008, General Fund receipts, including transfers from other funds, were \$132 million higher than projected in the First Quarterly Update. In the coming months, DOB expects that the economic downturn will have a substantial negative impact on tax collections, when the impact of lower bonus payments, lower capital gains realizations, declining profitability, and reduced consumer spending will be felt. Receipts to date have benefited from continuing strength in PIT collections (up by \$201 million compared to the First Quarterly Update cash-flow), but this reflects unusually large payments from relatively few taxpayers in the first half of the fiscal year. By comparison, business taxes, which are more responsive to current economic trends, especially the continuing weakness in the banking sector, are down by \$198 million through the first six months of the fiscal year versus the cash flow forecast (see "Year-to-Date Operating Results" herein).

Accordingly, DOB has lowered its annual forecast of General Fund receipts by \$1.7 billion for the current year and \$5.8 billion in 2009-10, with significant reductions made in the estimates for PIT, business taxes, and sales taxes. General Fund PIT receipts have been reduced by \$1.2 billion in 2008-09 and \$4.2 billion in 2009-10. In 2008-09, the expected annual decline in financial sector bonuses is now estimated at \$20 billion, or 43 percent, compared to a \$10 billion drop projected in the First Quarterly Update. The annual decline in current tax year 2008 estimated payments, which includes tax receipts from capital gains, is projected at \$565 million, or 6.6 percent. This compares to an estimated decline of \$165 million, or 1.9 percent, in the First Quarterly Update. In 2009-10, both bonuses and capital gains are expected to decline further from the reduced levels projected in 2008-09.

The estimates for General Fund business tax receipts have been reduced by \$404 million in 2008-09 and \$913 million in 2009-10 in comparison to the First Quarterly Update. This reflects the expected continuation of trends in business taxes, which now suggest substantially lower growth in corporate franchise tax receipts and declines in insurance tax receipts, offset partially by higher-than-estimated receipts from the corporation and utilities taxes.

The estimates for General Fund user taxes and fees have been lowered by \$101 million in the current year and \$267 million in 2009-10. This is based on slower expected growth in the sales tax base, as well as delays in the implementation of provisions governing the taxation of various products sold by Native Americans and other technical adjustments (see "All Funds Receipts Projections" herein).

#### **Spending Discussion**

Through September 2008, General Fund disbursements including transfers to other funds, were \$203 million lower than projected in the First Quarterly estimate. The spending results reflect, in large part, the timing of payments for public schools, which are planned to be paid by the end of the fiscal year, and federally-mandated changes to Medicaid systems that temporarily slowed payment processing. DOB expects that these timing-related variances will, for the most part, disappear over the remainder of the year. DOB does not expect that the positive operating results to date will translate into significant annual savings (see "Year-to-Date Operating Results" herein). DOB also believes pressure on entitlement spending is likely to build and may add additional costs in the current year.

In 2008-09, General Fund disbursements have been revised downward by \$37 million compared to the First Quarterly Update. DOB has made two substantive downward revisions to the spending forecast. First, it expects additional resources will be available to offset Medicaid spending, primarily from manufacturer drug rebates and audit recoveries accumulated during the year. In addition, the State has reached agreement on

<sup>4</sup> Office of the State Comptroller, Monthly Report on State Funds Cash-Basis of Accounting, September 2008.

awarding the VLT franchise at Aqueduct Racetrack to Delaware North, which is expected to result in a \$370 million up-front payment in the current fiscal year, which is \$120 million higher than budgeted in the Financial Plan. These reductions are offset by higher expected costs in State operations for agencies that received full or partial exemptions for health and safety reasons from the initial reductions assumed under the FMP.<sup>5</sup>

In 2009-10 and after, DOB projects higher costs in several areas, increased Medicaid costs due to nursing home rebasing, higher school aid projections based on additional information reported by school districts for the September 2008 update and declining revenues attributable to lottery and VLT sales, additional General Fund support for the DHBT Fund, and higher-than-projected costs for NYS-OPTS program. The inflationary adjustment for hospitals, nursing homes, and home care, which was expected to add costs of \$170 million annually beginning in 2009-10, has been eliminated by legislation approved in the August 2008 session that capped the automatic rate increases at 2.3 percent (see "Revisions to the General Fund Financial Plan — Disbursement Reestimates" and "All Funds Disbursements Projections" herein).

## **Closing Balance**

The Updated Financial Plan projects that the General Fund will end the 2008-09 fiscal year with a balance of \$1.6 billion, \$145 million below the First Quarterly Update and \$1.1 billion lower than the closing balance from 2007-08. The estimate for 2008-09 assumes the successful enactment of special session savings or administrative actions, or both. The annual decline reflects the planned use of \$920 million to finance the costs of labor settlements, \$168 million for member items in the Community Projects Fund, and \$58 million for debt management purposes. Market conditions will determine whether additional resources earmarked by DOB for debt management are needed in the current year. Balances in the other reserves are expected to remain unchanged.

#### Workforce

The State workforce, which reflects FTEs of the Executive Branch, excluding the Legislature, Judiciary and contractual labor, is currently projected to total 199,400 in 2008-09, a decrease of 851 positions from the First Quarterly Update levels. The projected workforce levels reflect the impact of the FMP actions that were taken to eliminate the current year imbalance. Agencies reporting the most significant declines include DEC, Correctional Services, Health and OGS, consistent with the 7 percent State Operations reductions included in the First Quarterly Update.

#### **Bond Market Impact**

One aspect of the credit crisis is that government issuers have either been unable to issue bonds or, if market access exists, do so at much higher interest rates than existed before September 2008. If the State cannot sell bonds at the levels (or on the timetable) expected in the capital plan, it could experience significantly increased costs in the General Fund and a weakened overall cash position in the current year. This is because the State finances much of its capital spending in the first instance through loans from the General Fund or STIP, which it then repays with proceeds from the sale of bonds.

Interest rates on State-supported VRDBs increased sharply in September 2008, reaching an average of 6.5 percent for a period of time. Rates have since moderated but could rise again. Accordingly, DOB has revised its interest-rate forecast upward, which is offset in part by projected debt service savings related to the timing of bond sales.

<sup>5</sup> A detailed summary by agency of approved FMP savings is expected tobe published by DOB no later than October 31, 2008 and will be available at www.budget.state.ny.us.

For planning purposes, DOB is assuming the State will have limited access to the bond market for the remainder of the fiscal year. Therefore, the State is executing a multi-step strategy to stage entries into the bond market in a way that addresses the most immediate and consequential fiscal issues first. At the same time, DOB is imposing stringent capital controls to marginally reduce the need to issue bonds in the coming months (see "Debt/Capital Update" herein).

#### **Risks**

The Updated Financial Plan forecast is subject to many complex economic, social, and political risks and uncertainties, many of which are outside the ability of the State to control. These include, but are not limited to, the performance of the global national and State economies; the impact of continuing write-downs and other costs affecting the profitability of the financial services sector, and the concomitant effect on bonus income and capital gains realizations; access to the capital markets in light of the disruption in the municipal bond market; litigation against the State, including potential challenges to the constitutionality of certain tax actions authorized in the Enacted Budget; and actions taken by the Federal government, including audits, disallowances, and changes in aid levels.

In addition, the forecast contains specific transaction risks and other uncertainties, including, but not limited to, the final sale of development rights for a VLT facility at the Aqueduct Racetrack by the close of the current fiscal year; the enforcement of certain tax regulations on Native American reservations; the timing and value of proceeds from the sale of Well Point stock that is expected to finance health care costs; and the achievement of cost-saving measures, including, but not limited to, FMP savings, at the levels currently projected. Such risks and uncertainties, if they were to materialize, could have an adverse impact on the Financial Plan in the current year (see section on "Special Considerations" herein).

Current projections estimate that debt outstanding and debt service costs will continue to remain below the limits imposed by the Debt Reform Act of 2000 throughout the next several years. However, the State has entered into a period of significantly declining debt capacity. Based on the most recent personal income and debt outstanding forecasts, the State is now expected to exceed the debt outstanding cap in 2012-13 by over \$800 million. The State expects to propose actions in the 2009-10 Executive Budget in order to stay within the statutory limitations.

There can be no assurance that (a) legislative or administrative actions will be sufficient to eliminate the current-year shortfall without the use of existing reserves, (b) receipts will not fall below current projections, requiring additional budget-balancing actions in the current year, and (c) the gaps projected for future years will not increase materially from the projections set forth herein.

# **GENERAL FUND REVISIONS TO THE FIRST QUARTERLY UPDATE**

DOB has made a number of substantive revisions to the receipts and disbursements forecasts contained in the First Quarterly Update. The following table summarizes the General Fund impact of the revisions to the First Quarterly Update. It is followed by an explanation of the major revisions.

| Summary of Changes to General Fund Forecast for 2008-09 through 2011-12*<br>Savings/(Costs)<br>(millions of dollars) |         |          |          |        |  |  |  |  |

<sup>\*</sup> Mid-year receipts and disbursements estimates do not include the \$1.48 billion in savings that are expected to be achieved through legislation or administrative actions, or both, to address the current year shortfall, as options are currently under development.

<sup>\*\*</sup> Includes transfers from other funds of tax receipts in excess of debt service costs.

<sup>\*\*\*</sup> Excludes additional receipts authorized in the August 2008 special session via transfers from other funds (\$95 million in 2008-09, \$50 million in 2009-10, \$31 million in 2010-11 and \$32 million in 2011-12), which are reflected in the "August Special Session Actions" total.

## **Receipts Revisions:**

**Tax Revenues:** The downward revisions primarily reflect the impact of DOB's revised economic forecast on anticipated tax collections. Please see "Economic Forecast" and "All Funds Receipts Projections" herein for a complete explanation of changes.

**Miscellaneous Receipts/Other:** The downward revisions primarily reflect the loss of anticipated receipts from New York City that have been subject to ongoing negotiations.

#### **Disbursement Revisions:**

**Medicaid** (**including administrative costs**): Revised inflation projections were expected to drive increased payments through Medicaid rates that are tied to inflation. However, legislation enacted in August 2008 capped automatic inflationary increases to 2.3 percent. The Nursing Home rebasing initiative, which updates the base year for which rates are calculated, is expected to increase Medicaid spending beginning in 2009-10. In the current year, additional resources are expected to be available to offset Medicaid spending.

**School Aid:** The September 2008 school aid database update resulted in higher projected costs of \$135 million in 2009-10, based on additional claims filed since the May 2008 update and updated wealth and demographic information reported by school districts. These additional costs are primarily driven by growth in building aid and excess cost aid. Based on statute, additional school year obligations from 2008-09 and earlier years will be paid in State fiscal year 2009-10. As in prior years, the updated school district data and additional claims have resulted in a significant cost increase to the State's multi-year Financial Plan, subsequent to the Enacted Budget agreements.

**Lottery:** Reflects a projected decrease in revenues available for education generated by lottery sales and VLTs. New games offered in 2008-09 have not performed as well as expected. General Fund support for school aid is increased to compensate for the lower revenues.

Aqueduct Development Rights: The Financial Plan included \$250 million in expected receipts from the sale of VLT facility development rights at the Aqueduct Racetrack in Queens. The State received three bids for development rights. The bidders included Capital Play, Inc. for \$100 million, SL Green Realty Corporation for \$250 million, and Delaware North Companies for \$370 million. After several months of discussion and evaluation, the State has agreed to award the Buffalo-based Delaware North with the licensure to operate the facility. The amount of the bid is \$120 million above the level included within the Financial Plan. It is expected that full payment will be received by the close of the current fiscal year.

**Child Welfare:** Under the open-ended child welfare services program, the State reimburses local governments for 63.7 percent of the cost of providing certain services, including community-based preventive services and child protective services. Increased General Fund support reflects projected growth in local child welfare claims.

**Human Services COLA:** The COLA requirement reflects an increase in the projected provider payments that are intended to fund the COLA. The 2009-10 COLA is based on the actual 12-month consumer price increases ending July 2008. DOB expects the final 2009-10 COLA to be 5.6 percent instead of the 3.5 percent projected in the First Quarterly Update.

**GSCs:** Pensions reflect anticipated changes in the employer contribution rate based on expected market conditions. Projected health insurance costs for State employees and retirees have been reduced by roughly \$100 million in 2009-10, \$54 million in 2010-11 and \$63 million in 2011-12 due to changes in assumptions related to 2009 rates.

**SUNY/CUNY Community Colleges:** The projected increase reflects growth in enrollment projections at both SUNY and CUNY community colleges based on actual fall 2008 enrollment. The State currently provides community college base aid of \$2,675 per full-time student.

**SUNY/CUNY Operating Costs:** Increased operating costs at SUNY and CUNY primarily reflect inflation and increased operating costs at CUNY for energy, utilities, and building rental expenses.

**Transportation:** General Fund support of the DHBTF is expected to increase primarily to offset the impact of spending growth for DOT demand maintenance changes to bondable construction driven by the shorter life span of construction/maintenance programs, reestimates of expected DOT and DMV savings, and a reduction in expected DHBTF receipts. DOT also received a partial exemption from the FMP.

**Correctional Services:** The agency received a partial exemption from implementing the FMP after demonstrating that funding reductions could compromise the safety of the public, correctional employees, and inmates. These costs were partially offset by revised estimates of certain non-personal service costs, including providing outside hospital care to inmates.

**State Police:** The agency received a partial exemption from the FMP to allow for the continuation of law enforcement and highway safety activities at the level necessary to ensure public safety. In addition, overtime costs are projected to increase.

**Mental Hygiene:** The mental hygiene revisions result from a variety of reestimates based primarily on year-to-date results. This includes higher than expected spending for New York State OPTS in OMRDD, which is offset by lower spending elsewhere for a variety of smaller programs. The outyear revisions are primarily due to a review of trends based on current year results, including higher baseline costs for the OPTS program.

**Other:** Other revisions include decreased spending on various public health programs; slower than projected payout of Shared Municipal Services Incentive and Local Government Efficiency grant program moneys; and increased costs associated with Scholarship awards through the World Trade Center Scholarship, Veteran's Tuition Award Scholarship, and Math and Science Teaching Scholarship programs.

In addition, since the First Quarterly Update, the Governor has approved several bills with a fiscal impact that were passed by the Legislature during the regular 2008 legislative session. These bills, which are expected to add \$1.7 million in costs in the current year and \$3.2 million in the future, include: the Sexually Exploited Youth Act requiring local districts to provide crisis intervention services and community based programming for exploited youth; the creation of a statewide cancer incidence map which requires enhanced collection of geographic cancer case information; creation of three residential health care off site demonstrations projects to allow nursing homes to provide physical, occupational and speech therapies at an offsite facility; establishing the New York Certified Aide Registry and Employment Search database for home health and personal care aides; and requiring Parole, DPCA and OTDA to promulgate guidelines for housing of sex offenders in order to prevent "over-concentrations" of such offenders in communities.

## **Collective Bargaining:**

The State has reached a labor settlement with the union representing New York State Troopers. The union has ratified the contract and DOB expects the Legislature to authorize a pay bill later in the fiscal year. In 2008-09, the General Fund costs of the agreement will be financed in their entirety with existing reserves earmarked for this purpose. In addition, DOB has recalculated the expected impact of the existing labor settlement with UUP based on updated information.

DOB has established a reserve for future labor settlements. Agreements have not yet been reached with the unions representing uniformed officers (e.g., New York State Correction Officers) and graduate students (Graduate Student Employees Union). DOB estimates that if all remaining unsettled unions were to agree to the same terms that have been ratified by settled unions, it would result in added costs of approximately \$400 million in 2009-10, and \$275 million in both 2010-11 and 2011-12. Based on the status of current labor negotiations, DOB does not expect any additional labor settlement payments in 2008-09.

## **August Special Session Actions:**

Cost-saving measures that were approved by the Governor and Legislature in the August 2008 special session included Medicaid and health care cost containment, as well as across-the-board reductions to various local assistance programs, Executive, and Legislative initiatives authorized in the 2008-09 Enacted Budget (see "August 2008 Session" herein for a detailed summary).

## **HCRA Operating Shortfall:**

The delay in converting GHI/HIP to a for-profit company, which was counted on to finance \$284 million in health care spending in the current year, is partially offset by downward spending revisions in various HCRA programs. These revisions result in a potential \$88 million deficit in HCRA in 2008-09 and a modest increase to the 2009-10 estimated shortfall. On account of the close financing relationship between the General Fund and HCRA, the HCRA gap is combined with the General Fund gap for planning purposes (see "HCRA Financial Plan" herein).

# **Annual Spending growth**

General Fund spending, including transfers to other funds, is projected to total \$56.1 billion in 2008-09, an increase of \$2.7 billion over 2007-08 actual results. The General Fund must, by law, end the year in balance on a cash basis. State Operating Funds spending, which includes the General Fund, State-financed special revenue funds, and debt service, is projected to increase by \$3.3 billion and total \$80.3 billion in 2008-09. All Governmental Funds spending, the broadest measure of spending that includes State operating funds, capital spending, and Federal grants, is projected to total \$120.8 billion in 2008-09, an increase of \$4.7 billion.

# 2008-09 Projected Closing Balances

#### **General Fund**

DOB projects the State will end the 2008-09 fiscal year with a General Fund balance of \$1.6 billion (2.9 percent of spending). The balance consists of \$1.2 billion in undesignated reserves and \$381 million in reserves designated to finance existing or potential future commitments. The projected closing balance is \$145 million lower than projected at the time of the First Quarterly Update due to the expected use of \$44 million to finance the costs of recent labor settlements and \$36 million for debt management purposes. It also reflects a reduction in community projects funds of \$65 million due to \$50 million in savings actions authorized in the August 2008 session and an increase in projected spending for the remainder of the year. The projected balance assumes that the current-year shortfall will be eliminated through legislation or administrative actions, or both, without the use of existing reserves.

| Designated Reserves   | 526                                | 381                            | (145)  |  |  |  |  |  |  |
| Reserved for Labor Settlements                                  | 189                                | 145                            | (44)   |  |  |  |  |  |  |
| Reserved for Debt Reduction                                     | 100                                | 64                             | (36)   |  |  |  |  |  |  |
| Community Projects Fund   | 237                                | 172                            | (65)   |  |  |  |  |  |  |

The undesignated reserves include \$1.0 billion in the State's Tax Stabilization Reserve, \$175 million in the Rainy Day Reserve that may be used to respond to an economic downturn or catastrophic event, and \$21 million in the Contingency Reserve for litigation risks.

The designated reserves include \$172 million in the Community Projects Fund to finance existing "member item" initiatives, \$145 million that is available to finance the cost of potential labor settlements which is expected to be available for labor costs anticipated in 2009-10, and \$64 million available for debt management purposes, some or all of which may be used in the current year depending on market conditions.

## **State Operating Funds**

DOB projects the State will end the 2008-09 fiscal year with a State Operating Funds balance of \$4.3 billion assuming successful implementation of savings achieved through legislative or administrative actions to address the current year shortfall. The balance consists of \$1.6 billion in the General Fund, \$2.4 billion in balances in numerous State Special Revenue Funds and \$344 million in Debt Service Funds. The projected closing balance has decreased by \$251 million from the First Quarter Update Financial Plan estimate. This largely reflects the use of reserves to finance new labor settlements and a reduction in expected health care conversions proceeds, which eliminated the projected year-end balance in the Health Care Resources Fund.

\*Mid-year closing balance estimates do not include \$1.8 billion in General Fund/HCRA savings that are expected to be implemented pursuant to legislation or administrative actions, or both, to address the current year shortfall, as options are currently under development.

The balances held in State special revenue funds include moneys designated to finance existing or potential future commitments, or funds that are restricted or dedicated for specified statutory purposes. The largest balances in the State special revenue funds include moneys on hand to finance future costs for State University programs, operating assistance for transportation programs, various health care programs financed from the Health Care Resources Fund, and lottery revenues used for school aid. The remaining fund balances are held in numerous funds, primarily the Miscellaneous Special Revenue Fund, and accounts that support a variety of programs including industry regulation, public health, general government, and public safety.

# **General Fund Outyear Budget Projections**

The forecast for 2009-10 is based on assumptions of economic performance, revenue collections, spending patterns, and projections for the current services costs of program activities. DOB believes the estimates of annual change in revenues and spending that create the 2009-10 current services gap forecast are based on reasonable assumptions and methodologies. Changes to these or other assumptions have the potential to materially alter the size of the budget gaps for 2009-10 and beyond. The following table

summarizes the current Financial Plan projections for 2008-09 through 2011-12, as well as the budget gaps and changes in reserves.

| General Fund Mid-Year F<br>(millions of do                 | -                      |                      |                      |                      |

<sup>\*</sup> Mid-year receipts and disbursements estimates do not include the \$1.48 billion in savings that are expected to be achieved through legislation or administrative actions, or both, to address the current year shortfall, as options are currently under development.

In evaluating the State's multi-year operating forecast, it should be noted that the reliability of the estimates as a predictor of the State's future fiscal position diminishes as one moves further from the current year. Accordingly, the 2009-10 forecast is the most relevant from a planning perspective, since any gap in that year must be closed with actions which would typically have a positive impact on subsequent year gaps, and the variability of the estimates is likely to be less than in later years.

The following chart provides a look at the causes of the 2009-10 General Fund budget gap, followed by a brief summary of the assumptions behind the projections. A detailed explanation of the assumptions underlying both the outyear receipts and disbursement projections appears later in this section.

| 2009-10 General Fund Anr   | nual Change |         |                     |             |

| PROJECTED 2009-10 BUDGET GAP                                       |             |         | (12,518)            |             |

The forecast for 2009-10 is based on assumptions of economic performance, revenue collections, spending patterns, and projections for the current-services costs of program activities. DOB believes the estimates of annual changes in receipts and spending that create the 2009-10 current services gap forecast are based on reasonable assumptions and methodologies. Significant assumptions that affect the forecast include:

• The performance of the economy in general, and the financial services sector in particular, and the concomitant impact on State tax receipts.

- DOB's current economic outlook for 2008 calls for the State to continue in a recession, accompanied by job losses and a substantial slowdown in wage growth.
- The forecast for State tax receipts is based on the current forecast.
- The Federal government will not make substantive funding changes to major aid programs or make substantive regulatory changes that adversely affect, or benefit, the State.
- Changes to these or other assumptions have the potential to materially alter the size of the budget gaps for 2009-10 and beyond.

The economic forecast calls for a recession entailing several quarters of employment losses through early next year. This lowers the economic base on which the outyear revenue forecast is built. Overall, receipts growth in the three fiscal years following 2009-10 is expected to grow consistent with projected growth in the U.S. and New York economies.

General Fund tax receipts are projected to reach \$39.1 billion in 2010-11 and \$41.3 billion in 2011-12. All Funds tax receipts in 2010-11 are projected to reach nearly \$63.6 billion, an increase of \$3.4 billion, or 5.1 percent from 2009-10 estimates. All Funds tax receipts in 2011-12 are expected to increase by nearly \$3.3 billion (5.2 percent) over the prior year (see "All Funds Receipts Projections" herein for a detailed explanation of All Funds receipts projections by source).

#### **Disbursements**

DOB projects General Fund spending, including transfers, to increase \$6.7 billion (11.9 percent) over projected 2008-09 levels, followed by increases of \$5.7 billion (9.1 percent) in 2010-11 and \$4.4 billion (6.4 percent) in 2011-12. The growth levels are based on current services projections, as modified by the legislative and administrative measures adopted since the First Quarterly Update. The main sources of annual spending growth are itemized in the table below followed by additional information on the major drivers of spending.

# **Grants to Local Governments**

Annual growth in local assistance is driven primarily by Medicaid and school aid. The following table summarizes some of the factors that affect the local assistance projections over the Financial Plan period.

#### Medicaid

General Fund spending for Medicaid is expected to grow by \$1.8 billion in 2009-10, \$1.4 billion in 2010-11, and another \$1.1 billion in 2011-12.

| Major Sources of Annual Change in Medicaid (millions of dollars) |              |              |                     |              |                     |  |  |  |  |  |

| Local Government Relief (incl. above)                            | 564          | 724          | 160                 | 958          | 234                 |  |  |  |  |  |

<sup>\*</sup> Non Institutional/other reflects additional projected audit target savings in 2008-09, which are not included in 2007-08 but rather occurred in non-institutional category specific categories of service.

Medicaid growth results, in part, from the combination of projected increases in recipients, service utilization, and medical care cost inflation that impact nearly all categories of service (e.g., hospitals, nursing homes). The State cap on local Medicaid costs and takeover of local FHP costs, which are included in base categories of service, are projected to increase spending by \$234 million in 2009-10, \$357 million in 2010-11, and \$396 million in 2011-12. In 2009-10, an extra weekly payment to providers adds an estimated \$300 million in base spending across all fee-for-service categories of spending. The remaining growth is primarily attributable to the available resources in other State Funds which are used to lower General Fund costs, including lower levels of HCRA financing beginning in 2009-10.

The average number of Medicaid recipients is expected to grow to over 3.8 million in 2009-10, an increase of 4.8 percent from the estimated 2008-09 caseload. FHP enrollment is estimated to grow to approximately 558,000 individuals in 2009-10, an increase of 5.7 percent over the projected 2008-09 enrollment of almost 528,000 individuals.

| Expense-Based Aids (Building, Transportation,                              |         |         |                     |         |                     |         |                     |         |                     |
| High Cost and Private Excess Cost, BOCES)                                  | 4,816   | 5,216   | 400                 | 5,630   | 414                 | 6,120   | 490                 | 6,650   | 530                 |
| Other Aid Categories/Initiatives   | 651     | 660     | 9                   | 711     | 51                  | 809     | 98                  | 879     | 70                  |
| Total School Aid   | 19,736  | 21,543  | 1,807               | 23,340  | 1,797               | 25,900  | 2,560               | 27,475  | 1,575               |

Projected school aid increases are primarily due to increases in foundation aid, universal prekindergarten expansion, and increases in expense-based aids such as building aid and transportation aid. Increased funding in 2008-09 for high tax aid and several other aid categories is provided on a one year basis only.

On a school-year basis, school aid is projected at \$23.3 billion in 2009-10, \$25.9 billion in 2010-11, and \$27.5 billion in 2011-12. Outside the General Fund, revenues from core lottery sales are projected to increase by \$17 million in 2009-10, \$117 million in 2010-11, and \$67 million in 2011-12 (totaling \$2.4 billion in 2011-12). Revenues from VLTs are projected to total \$835 million in 2008-09, then decrease by \$261 million in 2009-10 following the expected one-time receipt of \$370 million in revenues during 2008-09 from the sale of development rights at Aqueduct racetrack. They are then projected to increase by \$220 million in 2010-11 and \$188 million in 2011-12. VLTs are expected to total almost \$1.0 billion in 2011-12. The VLT estimates assume the start of operations at Aqueduct in 2009-10 and Belmont in 2010-11.

## **Mental Hygiene**

Mental hygiene spending is projected at \$2.2 billion in 2009-10, at \$2.3 billion in 2010-11 and at \$2.4 billion in 2011-12. Sources of growth include: increases in the projected State share of Medicaid costs; cost-of-living increases, including the three-year extension of the human services COLA; and projected expansions of the various mental hygiene service systems including OMH's children's services; increases in the NYS-CARES program and in the development of children's beds in OMRDD to bring children back from out-of-state placements; the NY/NY III Supportive Housing agreement and community bed expansion in OMH; and certain chemical dependence treatment and prevention initiatives in OASAS.

#### **Children and Family Services**

Children and Family Services local assistance spending is projected to grow by \$198 million in 2009-10, \$216 million in 2010-11 and \$188 million in 2011-12. The increases are driven primarily by expected growth in local child welfare claims, the implementation of the OCFS Medicaid waiver, and cost-of-living increases for human services providers through 2011-12.

# **Temporary and Disability Assistance**

Spending is projected at \$1.3 billion in 2009-10, an increase of \$61 million from 2008-09, and is expected at the same level through 2011-12. Public assistance caseloads are projected to increase marginally

between 2009-10 and 2011-12, but spending is expected to be countered by an increase in Federal offsets, which decreases the level of General Fund resources needed.

#### **Other Local Assistance**

All other local assistance programs total \$7.3 billion in 2009-10, an increase of \$277 million over 2008-09 levels. This primarily reflects increases in local government assistance, including unrestricted aid to New York City (\$82 million), additional payments for grants and aid to municipalities (\$86 million), various public health programs, and payments to CUNY.

# **State Operations**

| Forecast of Selected Program Measures Affecting State Operations |         |          |         |         |          |  |  |
|--|---------|----------|---------|---------|----------|--|--|
|  | Actual  | Forecast |         |         |          |  |  |
|  | 2007-08 | 2008-09  | 2009-10 | 2010-11 | 2011-12  |  |  |
| State Operations   |         |          |         |         | <u> </u> |  |  |
| Prison Population (Corrections)                                  | 62,261  | 61,400   | 61,100  | 61,000  | 60,900   |  |  |
| Negotiated Salary Increases*                                     | 3.0%    | 3.0%     | 3.0%    | 4.0%    | 0.0%     |  |  |
| Personal Service Inflation                                       | 1.0%    | 1.0%     | 1.0%    | 1.0%    | 1.0%     |  |  |
| State Workforce  | 199,754 | 199,400  | 201,365 | 202,078 | 202,078  |  |  |

<sup>\*</sup> Negotiated salary increases reflect labor settlements included in the Financial Plan estimates.

State Operations spending is expected to total \$9.4 billion in 2009-10, an annual increase of \$819 million (9.6 percent). In 2010-11, spending is projected to grow by another \$387 million (4.1 percent) to a total of \$9.7 billion, followed by another \$233 million (2.4 percent) for a total of \$10.0 billion in 2011-12. The net personal service growth primarily reflects the impact of new labor contracts, as well a reserve for unsettled unions of \$400 million in 2009-10 and \$275 million in 2010-11 and 2011-12. In addition, salary adjustments for performance advances, longevity payments and promotions, and increased staffing levels (primarily in DOCS) drive spending growth. Inflationary increases for non-personal service costs result in higher spending in all years. Additional growth is driven by spending for ongoing initiatives, including the civil commitment program for sexual offenders, and medical and pharmacy costs in the areas of mental hygiene and corrections.

**Collective Bargaining/Reserve for Future Labor Settlements:** Reflects the impact of labor settlements, including non-judicial OCA employees, which provide a 3 percent salary increase each year beginning in

2007-08 and a 4 percent increase in the final year (2010-11). The estimates in 2009-10, 2010-11, and 2011-12 include a reserve for potential labor settlements.

**Correctional Services:** Growth is primarily attributable to the impact of the SHU Exclusion Bill, which restricts the use of special housing units for mentally ill inmates, and requires more frequent evaluations for inmates with severe mental illness, as well as the development of segregated units, thus driving higher workforce levels and costs.

**Judiciary:** Reflects projections of anticipated needs for OCA.

#### **Non-Personal Service**

| General Fund — Non-Personal Service<br>(millions of dollars) |         |         |                  |          |                  |         |                  |  |

| All Other  | 1,067   | 1,116   | 49               | 1,151    | 35               | 1,149   | (2)              |  |

**Correctional Services:** Growth is primarily driven by the escalating costs of food, fuel, utilities, and health care services and prescription drugs to inmates.

**State Police:** Spending growth reflects costs previously supported by cellular surcharge revenues in other State funds that is expected to be supported by General Fund revenues in 2009-10.

**Health:** Growth is largely driven by the annualization of funding for the State to directly enroll individuals into Medicaid, CHP and FHP.

**Temporary and Disability Assistance:** Spending is expected to increase in 2009-10 as one-time actions, including Federal revenue maximization and bonding of software development costs, do not recur.

**State University:** Primarily reflects funding for inflationary increases in non-personal service spending at SUNY.

# **General State Charges**

| Forecast of Selected Program Measures Affecting General State Charges |         |                 |         |         |         |  |  |
|---|---------|-----------------|---------|---------|---------|--|--|
|   | Actual  | Actual Forecast |         |         |         |  |  |
|   | 2007-08 | 2008-09         | 2009-10 | 2010-11 | 2011-12 |  |  |
| General State Charges   |         |                 |         |         |         |  |  |
| Pension Contribution Rate as % of Salary                              | 9.7%    | 7.9%            | 10.5%   | 11.4%   | 12.3%   |  |  |
| Employee/Retiree Health Insurance Growth Rates                        | 5.4%    | 3.2%            | 10.6%   | 9.5%    | 9.5%    |  |  |

GSCs are projected to total \$3.6 billion in 2009-10, \$4.1 billion in 2010-11 and \$4.5 billion in 2011-12. The annual increases are due mainly to anticipated cost increases in pensions and health insurance for State employees and retirees.

The State's pension contribution rate to the New York State and Local Retirement System, which is 8.8 percent for 2008-09, is expected to decrease to 7.9 percent for 2009-10, followed by an increase to 10.5 percent in 2010-11, and 11.4 percent in 2011-12. Pension costs in 2009-10 are projected to total \$1.1 billion, an increase of \$96 million over 2008-09 due to projected growth in the salary base. This large growth is also caused by the prepayment of the State's 2008-09 amortization costs in 2007-08. In 2010-11 and 2011-12, they are expected to increase by \$264 million and \$113 million, respectively, due to anticipated increases in the State contribution rate, reflecting the impact of recent market performance.

| Forecast of New York State Employee Health Insurance Costs (millions of dollars) |                     |          |             |  |  |  |  |  |
|--|---------------------|----------|-------------|--|--|--|--|--|

| 2011-12  | 2,064               | 1,353    | 3,417       |  |  |  |  |  |

Reflects the health insurance cost of active employees and retirees in the Executive and Legislative branches and the Office of Court Administration.

Spending for employee and retiree health care costs is expected to increase by \$167 million in 2009-10, \$300 million in 2010-11, and another \$274 million in 2011-12 and assumes an average annual premium increase of roughly 9.5 percent. Health insurance is projected at \$2.8 billion in 2009-10 (\$1.7 billion for active employees and \$1.1 billion for retired employees), \$3.1 billion in 2010-11 (\$1.9 billion for active employees and \$1.2 billion for retired employees) and \$3.4 billion in 2011-12 (\$2.1 billion for active employees and \$1.3 billion for retired employees).

### **Transfers to Other Funds**

| Empire State Stem Cell Trust Fund  | 0       | 32      | 32               | 43      | 11               | 0       | (43)             |
| Statewide Financial System   | 0       | 30      | 30               | 35      | 5                | 30      | (5)              |
| All Other  | 214     | 182     | (32)             | 170     | (12)             | 169     | (1)              |

In 2009-10, transfers to other funds are estimated at \$6.4 billion, an increase of \$655 million over 2008-09. This increase includes potential transfers to the DHBTF aimed at reducing fund gaps and an increase in other capital transfers of \$124 million.

All other transfers are expected to increase by \$408 million in 2008-09. The most significant change includes an increase in transfers to supplement resources available for the mental hygiene system. In addition, transfers are increasing for the subsidy to SUNY hospitals and to fund the State's financial management system. General Fund transfers for stem cell research are projected to increase in 2009-10 and then end in 2011-12 as support is transitioned from the General Fund to the Health Care Resources Fund beginning in 2009-10.

In 2010-11, transfers to other funds are expected to increase by \$945 million. This reflects expected growth in General Fund support to the Dedicated Highway and Bridge Trust Fund and Medicaid related spending in State Operated mental hygiene facilities. In 2011-12 transfers are expected to increase by \$716 million, mainly to provide subsidies to HCRA, the Dedicated Highway and Bridge Trust Fund, and mental hygiene spending.

A significant portion of the capital and operating expenses of DMV are funded from the DHBTF. The Fund receives dedicated tax and fee revenue from the Petroleum Business Tax, the Motor Fuel Tax, the Auto Rental Tax, highway use taxes, transmission taxes and motor vehicle fees administered by DMV. In addition, the Financial Plan includes transfers from the General Fund that effectively subsidize the expenses of the DHBTF. The subsidy is required because the cumulative expenses of the fund – capital and operating expenses of DOT and DMV, debt service on DHBTF bonds and transfers for debt service on bonds that fund CHIPS and local transportation programs – exceed current and projected revenue deposits and bond proceeds. This updated Financial Plan revises upward the forecast for the General Fund subsidy, reflecting projected revenue declines from previous estimates, inflation-driven spending increases for maintenance programs and an increase in the portion of the Fund's expenses that must be funded with non-bonded resources. The

subsidy is projected at \$237 million for 2008-09 and \$435 million for 2009-10, with significant growth thereafter.

# **Year-to-Date Operating Results**

#### **General Fund**

The General Fund ended September 2008 with a cash balance of \$5.7 billion, or \$336 million more than projected in the First Quarterly Update to the Financial Plan. Receipts were \$132 million higher than projected; disbursements were \$203 million lower.

<sup>\*</sup>Totals may not add due to rounding.

For the period April 1, 2008 through September 30, 2008, General Fund receipts, including transfers from other funds, were \$132 million higher than projected in the First Quarterly Update. In the coming months, DOB expects that the economic downturn will have a substantial negative impact on tax collections,

<sup>6.</sup> Office of the State Comptroller, Monthly Report on State Funds Cash-Basis of Accounting, September 2008.

when the impact of lower bonus payments, lower capital gains realizations, declining profitability, and reduced consumer spending will be felt. Receipts to date have benefited from continuing strength in PIT collections (up by \$203 million compared to the First Quarterly Update cash-flow), but this reflects unusually large payments from relatively few taxpayers in the first half of the fiscal year. By comparison, business taxes, which are more responsive to current economic trends, especially the continuing weakness in the banking sector, are down by \$198 million through the first six months of the fiscal year versus the cash flow forecast.

## General Fund Comparison to First Quarter Financial Plan Projections

General Fund disbursements through September 2008, including transfers to other funds totaled \$26.5 billion and were \$203 million lower than projected in the First Quarterly estimate. The spending results reflect, in large part, the timing of payments for public schools, which are planned be paid by the end of the fiscal year, and federally-mandated changes to Medicaid systems that temporarily slowed payment processing. DOB expects that these timing-related variances will, for the most part, disappear over the remainder of the year. DOB does not expect that the positive operating results to date will translate into significant annual savings. As the year progresses, DOB believes pressure on entitlement spending is likely to build and may add additional costs in the current year. The largest spending variances through September 2008 include:

**School Aid (\$200 million lower than planned):** Primarily reflects lower-than-expected claims submitted to SED for the Universal Pre-kindergarten program and other categorical aid programs.

**Medicaid** (\$136 million lower than planned): Primarily due to lower-than-projected Medicaid cycle spending due in part to federally required changes to Medicaid systems that temporarily slowed payment processing.

**Mental Hygiene** (\$96 million lower than planned): Primarily reflects the delay in the processing of journal vouchers that would move certain DOH Medicaid spending to the mental hygiene agencies. This delay is not expected to impact overall spending for the fiscal year.

**Public Health (\$83 million higher than planned):** Public health programs, primarily the EI program, have experienced an increase due to the timing of payments on claims.

**Higher Education** (\$56 million higher than planned): Resulted from the timing of cash needs associated with prior academic year and current academic year TAP payments, which is expected to be corrected by the end of October 2008.

**Personal Service** (\$91 million lower than planned): Primarily attributable to the timing of the retroactive payment for the Unified Court System labor settlement which was expected to occur in September 2008, but will instead occur in October (\$110 million). Absent this settlement payment, personal service would have exceeded cash flow projections by \$19 million, mainly due to higher spending in Tax and Finance (\$13 million) driven by higher-than-projected spending related to the audit, collection and enforcement activities, and DMNA (\$9 million).

**Transfers to Other Funds (\$61 million higher than planned)**: Mainly due to earlier than projected transfers to DRRF (\$25 million) and transfers to the SUNY stabilization account (\$43 million).

## **General Fund Annual Change**

Through September 2008, receipts totaled \$29.4 billion, an increase of \$2.8 billion, or 10.6 percent, compared to the same period in 2007-08. This annual increase is largely attributable to increases in all tax areas, with the exception of business taxes.

General Fund spending through September 2008 totaled \$26.5 billion, \$1.0 billion higher than actual results through the same period for fiscal year 2007-08. Significant changes in spending levels from the same period last year include:

**School Aid (\$939 million growth):** Driven largely by the annual increase in "tail" payments for the 2007-08 school year, and partly by the annual increase in initial payments for the 2008-09 school year. On a school year basis, the State increased school aid by \$1.8 billion in 2007-08, and by \$1.8 billion in 2008-09.

Mental Hygiene (\$289 million growth): Primarily driven by Medicaid appropriation restructuring and the timing of Medicaid related charges.

**Higher Education (\$116 million growth):** Primarily attributable to annual growth in CUNY spending related to an administrative reduction in payments to CUNY's senior colleges at the end of its 2006-07 academic year (June 2007). The 2007-08 academic year-end payment (June 2008) reflects a return to the traditional reimbursement payment schedule for New York City.

**Medicaid** (\$819 million decline): Primarily reflects changes related to Medicaid restructuring and timing of Medicaid-related spending attributed to the mental hygiene agencies. Additionally, changes in the application of offsets derived from audit recoveries and drug rebates have resulted in more offsets being taken through the first six months of 2008-09 than in 2007-08.

**State Operations** (\$768 million decline): Reflects the movement of a portion of mental hygiene State Operations spending from the General Fund to the Special Revenue Funds, as part of the restructuring of Medicaid spending.

**GSCs** (\$700 million decline): Primarily reflects a change in reporting related to the restructuring of Medicaid spending, whereby fringe benefit waivers were eliminated for personal service costs supported by State and Federal Medicaid monies.

**Debt Service** (\$176 million growth): Higher spending in 2008-09 is mainly due to the timing of debt service payments on certain SUNY educational facilities bonds. A payment was inadvertently made in late 2006-07 rather than early 2007-08.

**Capital projects (\$179 Million growth):** Higher spending is due to economic development programs and timing issues related to bond proceed reimbursements.

**Transfers to Other Funds (\$1.8 billion growth):** Reflects the change in reporting related to the restructuring of Medicaid spending. The State share of Medicaid payments dispersed by State-operated mental hygiene facilities is now reflected as a General Fund transfer to other funds.

# State Operating Funds Comparison to First Quarter Financial Plan Projections

Through September 2008, State Operating Funds receipts totaled nearly \$39.0 billion or \$82 million less than the forecast (based on preliminary data). Tax receipts totaled \$31.4 billion, \$125 million above the First Quarter Update estimate. The increase is the result of higher-than-anticipated collections in the personal income tax and user taxes and fees, offset by lower-than-expected collections from business taxes and other taxes. Miscellaneous receipts came in \$225 million lower than projected, driven by slower than anticipated Special Revenue Fund receipts, including HCRA.

Through September 2008, State Operating Funds disbursements totaled \$36.8 billion, \$660 million lower than the First Quarterly Update forecast, driven by the General Fund variances described above and augmented by slower than projected payments of property tax rebates under the STAR program.

# **State Operating Funds Annual Change**

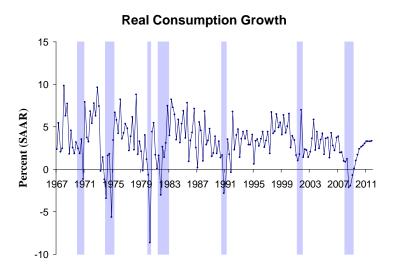

Through September 2008, total taxes increased by \$2.7 billion, or 9.2 percent, compared to the same period in 2007-08. This increase is attributable to increases in all tax areas, with the exception of decreased business taxes. The annual decline in miscellaneous receipts is largely driven by the receipt of \$499 million in health insurance conversion proceeds in April 2007.

Through September 2008, State Operating Funds disbursements were \$1.7 billion higher compared to the same period in 2007-08. The largest increases were for State School Aid payments (\$701 million), Debt Service (\$295 million), and Higher Education (\$116 million), as described above. In addition, MTOA payments contributed to the State Operating Funds annual growth. Growth in mental hygiene spending is primarily attributable to the State share of Medicaid spending now reflected in the agency totals, which also accounts for most of the decline in GSCs.

#### **Economic Outlook**

# The National Economy

Although it was evident in July that the U.S. economy was in or approaching a recession, it was less apparent that the ongoing credit crisis would became a full blown credit freeze that would result in a wholesale alteration of the entire landscape of Wall Street. Since July we have seen the largest bank failure in history, the bankruptcy of one major investment bank, the wholesale Federal takeover of Fannie Mae and Freddie Mac and the bailout of a large insurer, a Federal program to shore up the entire sector worth up to \$700 billion, and, finally, a global effort to induce banks to start lending to each other more freely. Indeed, by mid-October, credit market conditions were at their tightest since the Great Depression, signaling a much longer downturn in the real economy than anticipated in July and longer than the last two relatively short-lived recessions. Real GDP is now projected to decline for three consecutive quarters, starting in 2008Q3, not seen since the recession of the mid-1970s. The U.S. economy, as measured by growth in real GDP, is now projected to contract by 0.1 percent in 2009, following growth of 1.4 percent in 2008.

Note: Shaded areas represent U.S. recessions. Source: Moody's Economy.com; DOB staff estimates.

Since July, labor market conditions have also deteriorated, with the unemployment rate exceeding 6 percent in August and September. September's 159,000 employment drop represented a substantial acceleration in the labor market's rate of decline. Job losses are now expected to become more severe going forward, further weakening income growth and putting more downward pressure on consumer spending. Home prices also continue to fall and equity markets are about 40 percent below their most recent October 2007 peaks, generating a reverse wealth effect. As a result, the recent declines in inflation-adjusted consumer spending are expected to continue. Real household spending for the third quarter is now estimated to have fallen about 2 percent, representing the first such decline since the fourth quarter of 1991, and compares with growth projected in July of 1.7 percent. Real consumption is also projected to fall for three consecutive quarters, an occurrence not yet seen during the postwar period and dramatically distinguishing the current period from the recession of 2001.

Though there have been signs that global efforts to restore confidence in the banking system may be working, their impact on the real economy may not become visible for some time. Changes in monetary conditions are generally believed to affect the economy with a lag of 9 to 18 months. As a result, DOB projects relatively weak growth in both real household consumption and private sector investment through the

end of 2009, and substantially weaker growth than projected in July. Business investment is now expected to contract for four consecutive quarters starting in 2008Q4. Greater cutbacks by private sector businesses also imply a weaker labor market than previously anticipated. An acceleration in the pace of job losses is expected to result in a peak-to trough loss of 1.7 million jobs nationally. The U.S. unemployment rate is now expected to average 6.7 percent in 2009, following 5.7 percent in 2008.

In addition, the international economy is also expected to grow more slowly than anticipated earlier, implying slower export growth over the coming 18 months. Real U.S. export growth is expected to fall below 1 percent during the first two quarters of 2009. This softening will also have a negative impact on business sector profits and spending. A steeper decline in corporate profits is now estimated for 2008, and the increase that was projected in July for 2009 has been revised down to a substantial decrease.

A more negative outlook for both the domestic and international real economies has had a striking effect on commodity prices. The price of oil is now hovering close to \$75 per barrel after peaking near \$150 in mid-July, while gas prices have also moderated in recent weeks. These developments should help to keep inflationary expectations anchored and give the Federal Reserve a freer hand in using monetary policy to loosen tight credit markets. Consequently, DOB has revised projected inflation, as measured by growth in the CPI, to 2.3 percent for 2009, following 4.4 percent for 2008. DOB now expects the central bank to lower its short-term interest rate target one more time at the end of October and then hold steady through early 2009.

There is considerable risk to the DOB outlook for the national economy. As indicated above, household spending is under pressure from several sources. Consequently, should either the labor market, equity market, or housing market prove to be weaker than projected, greater declines in real consumer spending could ensue, implying a longer and deeper recession than reflected in the current forecast. In addition, if the recent downward trend in energy prices should reverse course, real spending growth could fall further below expectations. A weaker global economy could also depress economic growth more than projected, while the failure of yet another major financial institution could unwind the progress that has been made in the defrosting of credit markets, deepening the current downturn. Alternatively, if a future government stimulus package should successfully induce consumers to spend more, economic growth could be stronger than expected. In addition, if credit markets should thaw more quickly than anticipated, or housing and equity markets recover more quickly than projected, economic activity may also exceed expectations. Finally, if energy prices should fall even more than expected, effectively increasing real household income, consumer spending could spur a quicker economic recovery than projected.

## The New York State Economy

The financial market terrain now looks very different than it looked just a few months ago. Indeed, the investment banking industry as we knew it before September 2008, no longer exists. The prime brokerage industry has been permanently altered with the wholesale disappearance of two investments banks, the purchase of two prime brokers by large commercial banks, and the remaining two large brokers reorganizing as bank holding companies. The resulting consolidation is likely to have grave implications for industry employment, particularly in New York City. Layoffs from the State's financial services sector are now expected to total approximately 45,000 as strained financial institutions seek to cut costs and newly merged banks seek to reduce duplication of services. These projected losses compare to the loss of about 30,000 jobs following September 11<sup>th</sup>.

But the current downturn in the State economy will hardly be restricted to Wall Street. The State's downturn is now expected to be much more broad-based, with private sector job losses surpassing 160,000 and declines anticipated for all major industrial sectors except for health and education. The loss of manufacturing jobs is expected to accelerate going forward, particularly in light of weakening auto sales. The State's real estate market will continue to weaken in 2009, with office vacancy rates expected to rise due to falling employment, tight credit market conditions, and new construction coming online. In addition, a weak global economy is expected to negatively impact the State's tourism industry, with the leisure and hospitality industry in New York City already beginning to see evidence of a slowdown. State employment is now expected to fall 1.5 percent for 2009, with private sector jobs projected to fall 1.7 percent, following growth of 0.2 percent for both total and private for 2008.

The events of the past year have been devastating for the State's finance sector. Equity market prices, as measured by the S&P 500, have fallen about 40 percent since their October 2007 peak. In the wake of the high-tech bust in 2000, we experienced a decline of a similar magnitude but over a longer two-year period. The quantity of assets written down by the nine largest banks since July 2007 now exceeds the entire volume of profits of \$305 billion earned during the boom period from early 2004 until the middle of 2007. Moreover, the industry's main revenue drivers remain weak. There were no U.S. initial public offerings in the 10 weeks beginning in the middle of August, the longest such period on record. With Wall Street's largest prime brokers now reorganized as banks, the implications for future profits and compensation could also be dimmer. Commercial banks are more aggressively regulated by the Federal government than investment banks, implying stricter limits on the degree of leveraging these firms can now pursue. This, in turn, may imply new constraints on the amount of profits these firms can earn, and therefore the size of bonus and wage payouts.

DOB now estimates that finance and insurance sector bonuses will fall 42.7 percent for the 2008-09 bonus season and another 20.7 percent for 2009-10, representing larger declines than were seen in the aftermath of September 11. Declining employment and bonuses have negative implications for overall income growth as well. New York State wages are now projected to fall 2.1 percent for 2009, following growth of 1.5 percent for 2008. Growth in total New York personal income for 2009 has been revised down to a decline of 1.0 percent, following growth of 2.7 percent for 2008.

| New York State Economic Indicators (Percent change from prior calendar year) |          |            |            |  |  |  |  |
|--|----------|------------|------------|--|--|--|--|
|  | 2007     | 2008       | 2009       |  |  |  |  |
|  | (Actual) | (Forecast) | (Forecast) |  |  |  |  |
| Personal Income  | 6.5      | 2.7        | (1.0)      |  |  |  |  |
| Wages  | 8.6      | 1.5        | (2.1)      |  |  |  |  |
| Nonagricultural Employment   | 1.5      | 0.2        | (1.5)      |  |  |  |  |

All of the risks to the forecast for the national economy apply to the State forecast as well, although equity market volatility and the current level of uncertainty surrounding global credit markets pose a particularly large degree of uncertainty for New York. If the current financial market crisis is sufficiently prolonged, the impact on State income and employment could be even more severe. Similarly, a prolonged global slowdown could result in larger declines in tourism and put additional pressure on the real estate market, particularly in New York City. In contrast, a quicker recovery of the national and global economies would imply a shorter downturn for New York.

## **All Funds Receipts Projections**

The receipts forecast describes estimates for the State's principal taxes, miscellaneous receipts, and transfers from other funds. The spending projections summarize the annual growth in current-services spending for each of the State's major areas of spending (e.g., Medicaid, school aid, mental hygiene).

#### **Updated All Funds Receipts Projections**

Financial Plan receipts comprise a variety of taxes, fees, and charges for State-provided services, Federal grants, and other miscellaneous receipts. The receipts estimates and projections have been prepared by DOB with the assistance of the Department of Taxation and Finance and other agencies responsible for the collection of State receipts.

#### 2008-09 All Funds Receipts Overview

| Total Receipts |             |             |           |          |  |  |  |
|----------------|-------------|-------------|-----------|----------|--|--|--|
|                | (millions o | of dollars) |           |          |  |  |  |
|                | 2007-08     | 2008-09     | Annual \$ | Annual % |  |  |  |
|                | Actual      | Mid-Year    | Change    | Change   |  |  |  |
| General Fund   | 53,096      | 53,587      | 491       | 0.9%     |  |  |  |
| State Funds    | 80,372      | 80,682      | 310       | 0.4%     |  |  |  |
| All Funds      | 115,423     | 116,712     | 1,289     | 1.1%     |  |  |  |

All Funds receipts are projected to total \$116.7 billion, an increase of \$1.3 billion over 2007-08 results. The total comprises tax receipts (\$61.3 billion), Federal grants (\$36.0 billion) and miscellaneous receipts (\$19.5 billion). The following table summarizes the actual receipts for 2007-08 and the updated projections for 2008-09.

| Total Receipts (millions of dollars) |         |           |           |          |           |           |          |  |  |
|--------------------------------------|---------|-----------|-----------|----------|-----------|-----------|----------|--|--|

| All Funds                            | 115,423 | 116,712   | 1,289     | 1.1%     | 117,993   | 1,281     | 1.1%     |  |  |
| Taxes                                | 60,871  | 61,288    | 417       | 0.7%     | 60,181    | (1,107)   | -1.8%    |  |  |
| Miscellaneous Receipts               | 19,643  | 19,460    | (183)     | -0.9%    | 20,809    | 1,349     | 6.9%     |  |  |
| Federal Grants                       | 34,909  | 35,964    | 1,055     | 3.0%     | 37,003    | 1,039     | 2.9%     |  |  |

The receipt estimates for the current fiscal year have been revised downward significantly. Current year All Funds tax receipt estimates have been lowered by \$1.8 billion since the First Quarterly Update. The financial condition of Wall Street firms and banks in general has deteriorated from what was anticipated in the First Quarterly Update. As a result, the revisions to the 2008-09 and outyear fiscal estimates are due primarily to this more pessimistic economic outlook.

Since the release of the First Quarterly Update, New York's leading investments banks have ceased to exist, been subsumed, or agreed to be regulated as commercial banks. These unprecedented events are expected to have a significant negative impact on the New York economy. History has shown that any disruption to the profitability of Wall Street firms can be expected to have a negative impact on the fiscal condition of the State.

Total All Funds receipts are estimated to reach nearly \$116.7 billion, an increase of \$1.3 billion, or 1.1 percent above 2007-08 results comprised of increases in taxes (\$417 million or 0.7 percent) and Federal grants (\$1.1 billion or 3.0 percent), slightly offset by a decrease in miscellaneous receipts (\$180 million or 0.9 percent) described later in this report.

Total State Funds receipts are estimated at nearly \$80.7 billion, an expected increase of \$310 million, or 0.4 percent from 2007-08 actual results. State Funds miscellaneous receipts are estimated to decrease \$80 million, or 0.4 percent.

Total General Fund receipts are estimated at \$53.6 billion, an increase of \$491 million, or 0.9 percent from 2007-08 results. General Fund tax receipt growth is estimated at 0.8 percent. General Fund miscellaneous receipts are estimated to increase by 3.7 percent, reflecting actions taken with the 2008-09 Budget, including an estimated increase in abandoned property receipts.

After controlling for the impact of policy changes, base tax revenue is estimated to decline 1.3 percent for fiscal year 2008-09

#### Fiscal Year 2009-10 Overview

Total All Funds receipts are expected to reach nearly \$118.0 billion, an increase of 1.3 billion, or 1.1 percent from 2008-09 estimated receipts. All Funds tax receipts are projected to decrease by \$1.1 billion or 1.8 percent. All Funds Federal grants are expected to increase by over \$1.0 billion, or 2.9 percent. All Funds miscellaneous receipts are projected to increase by \$1.4 million, or 6.9 percent.

Total State Funds receipts are projected to be \$80.9 billion, an increase of \$203 million, or 0.3 percent from 2008-09 estimated receipts.

Total General Fund receipts are projected to be nearly \$50.5 billion, a decrease of 3.1 billion, or 5.8 percent from 2008-09 estimated receipts. General Fund tax receipts are projected to decrease by 4.3 percent from 2008-09 estimates and General Fund miscellaneous receipts are projected to decrease by 6.0 percent. The decline in General Fund miscellaneous receipts largely reflects the loss of anticipated receipts from New York City that have been subject to ongoing negotiations.

After controlling for the impact of policy changes, base tax revenue is expected to decline by 1.1 percent for fiscal year 2009-10.

#### **Change from First Quarterly Update**

|                        | Change from First Quarterly Update Forecast |          |         |        |               |          |         |        |  |

<sup>\*</sup> Excludes Transfers

Given the more pessimistic economic forecast, All Funds receipts estimates have been revised downward significantly for fiscal year 2008-09. In addition, tax receipts to-date for fiscal year 2008-09 in some revenue categories has fallen below expectations. As a result of these and other factors outlined below, All Funds tax estimates for the year have been revised downward by nearly \$1.8 billion from the First Quarterly Update. Miscellaneous receipts have been revised downward by \$418 million with almost no change to Federal grants.

The downward revision to General Fund receipts for fiscal year 2008-09 is \$1.3 billion, reflecting the same decrease in taxes. The downward revisions are related to a more negative economic forecast and weaker-than-expected to date business tax collections.

| Taxes                                   | 60,181               | 63,582               | 3,401               | 5.7%               | 66,879               | 3,297               | 5.2%               |  |  |  |

The economic forecast contemplates a recession entailing several quarters of employment losses through early next year and low wage growth of 2.0 percent and 1.5 percent, respectively, for calendar years 2008 and 2009. This forecast lowers the economic base on which the outyear revenue forecast is built. Overall, receipts growth in the three fiscal years following 2009-10 is expected to grow consistent with projected growth in the U.S. and New York economies.

All Funds tax receipts in 2010-11 are projected to reach \$63.6 billion, an increase of \$3.4 billion, or 5.7 percent from 2009-10 estimates. All Funds tax receipts in 2011-12 are expected to increase by nearly \$3.3 billion (5.2 percent) over the prior year. General Fund tax receipts are projected to reach \$39.1 billion in 2010-11 and \$41.3 billion in 2011-12 (see "All Funds Receipts Projections" herein for a detailed explanation of All Funds receipts projections by source).

#### **Revenue Risks**

- A significant downside risk remains with respect to the fallout from the financial sector meltdown. The cascade into other sectors of the economy could reduce employment, wages, and related withholding and estimated tax revenues more than expected.
- Real estate markets could deteriorate more rapidly than expected due to the continued credit crunch and Wall Street retrenchment, which could have a significant negative impact on capital gains realizations.
- Actions taken by the Federal government to alleviate the faltering banking industry and credit markets could be less effective than intended, and take longer to achieve their desired objectives.
- Taxable sales could be driven down by weaker economic conditions.
- Lower-than-expected business tax collections could reflect greater overall weakness of the New York State economy, in particular in the financial services industry, than was earlier forecasted.
- The estimated values for 2008-09 Enacted Budget law changes represent a substantial portion of estimated receipts. In the current business environment, these changes could result in less severe negative net income versus an increase in taxable income, resulting in less than anticipated revenue gains.

- The real estate transfer tax forecast could be negatively affected as downward trends in the financial services sector (weaker employment and bonuses, stock market decline) continue. The fallout from the subprime mortgage situation will also put pressure on consumer credit availability and may reduce the number of transactions. The decline in real estate prices in some areas of the State is likely to depress collections. The number of high value commercial property sales in New York City is expected to decline from recent years.
- The estate tax is primarily a tax on the value of real estate stocks and bonds. This tax could be negatively affected by the value of these assets.

## **All Funds Disbursements Projections**

The 2008-09 spending forecasts for each of the State's major programs and activities have been updated since the First Quarterly Update as more information has become available. Most of the changes are modest and include the General Fund revisions explained in detail earlier in this update.

Additional detailed information on annual spending changes for each of the State's major programs and activities may be found in the 2008-09 Enacted Budget Financial Plan available on-line at <a href="https://www.budget.state.ny.us">www.budget.state.ny.us</a>.

<sup>\*</sup> Mid-year receipts and disbursements estimates do not include the \$1.48 billion in savings that are expected to be achieved through legislation or administrative actions, or both, to address the current year shortfall, as options are currently under development.

#### **Updated All Funds Disbursements Projections**

State Operating Funds spending, which includes both the General Fund and spending from other funds supported by assessments, tuition, HCRA resources, and other non-Federal revenues, is projected to total \$80.3 billion in 2008-09, a decrease of \$218 million from the First Quarterly forecast.

#### **State Operating Funds Budget**

In 2008-09, General Fund spending, including transfers to other funds, is projected to total \$56.1 billion, a decrease of \$37 million from the First Quarterly Update Budget forecast.

<sup>\*</sup> Excludes transfers.

The State Operating Funds changes since the Enacted Budget mainly reflect the General Fund revisions described earlier. Significant changes in Other State Funds include: lower-than-projected EPIC spending driven by decreasing enrollment and increasing rebate revenue that is available to offset spending; increased mental hygiene spending under the NYS-OPTS program due to the rising costs of residential, day habilitation and at-home residential habilitation services; debt service reestimates reflecting a combination of bond sale delays, increased variable-rate interest costs, additional DRRF spending, and other factors. In addition, stem cell research costs have shifted from 2008-09 to 2012-13 to more accurately reflect the expected spend-out of funds.

#### **Capital Budget**

Capital spending is projected to total \$6.8 billion in 2008-09, a decrease of \$159 million from the First Quarterly Update. Projected spending for capital projects reflects routine timing changes in construction schedules in several program areas. In Education, projected capital disbursements have been adjusted to reflect the timing of several projects, including the Cultural Education Storage facility, Museum Renewal project, and the State Records Center. Capital spending at State Police represents an adjustment for the design and construction schedule for the Troop G facility. State Equipment estimates reflect savings in agency equipment outlays through extending the life-cycle of existing equipment.

<sup>\*\*</sup> Mid-year receipts and disbursements estimates do not include the \$1.48 billion in savings that are expected to be achieved through legislation or administrative actions, or both, to address the current year shortfall, as options are currently under development.

## **Federal Operating Budget**

Dollar Change (from First Quarter)

Percent Change (from First Quarter)

Federal Operating spending estimates have decreased by \$164 million since the First Quarterly Update, mainly due to savings enacted during the August special session and the timing of disaster assistance spending, partially offset by increased spending in elections for HAVA compliance.

| Revisions to 2008-09 Federal Operating Spending Forecast<br>First Quarter Update to Mid-Year Estimate — Increases/(Decreases)<br>(millions of dollars) |                      |  |  |  |

<sup>\*</sup> Excludes transfers.

The Enacted Budget Financial Plan provides detailed explanations of the sources of annual spending growth by major program and activity on an All Funds basis.

#### Monthly cash flow forecast (2008-09)

In 2008-09, the General Fund is projected to have quarterly-ending balances of \$1.0 billion in December 2008 and \$1.6 billion at the end of March 2009. November 2008 is the lowest projected monthend cash flow balance at \$923 million. State Operating Funds quarterly-ending balances are expected to be \$3.4 billion in December 2008 and \$4.3 billion at the end of March 2009. DOB's revised detailed monthly cash flow projections for 2008-09 are set forth in the Financial Plan Tables. Based on current operating projections, which project substantially reduced cash resources in the current year and in the future, DOB is instituting a series of cash management actions.

#### **Financial Plan Reserves**

In January 2007, the State created a new statutory Rainy Day Reserve that has an authorized balance of 3 percent of General Fund spending. The new Rainy Day Reserve may be used to respond to an economic downturn or catastrophic event. The State made its first deposit of \$175 million in 2007-08. When combined with the existing Tax Stabilization Reserve, which has an authorized balance of 2 percent and can be used only to cover unforeseen year-end deficits, the State's Rainy Day Reserve authorization now totals 5 percent.

The State projects that General Fund reserves will total \$1.6 billion at the end of 2008-09, with \$1.2 billion in undesignated reserves available to deal with unforeseen contingencies and \$381 million designated for subsequent use.

<sup>\*\*</sup> Mid-Year estimates assume achievement of significant savings during the November 18, 2008 special session. See text.

The \$1.2 billion of undesignated reserves consists of \$1 billion in the Tax Stabilization Reserve, \$175 million in the new Rainy Day Reserve, and \$21 million in the Contingency Reserve Fund for litigation risks.

The designated reserves consist of \$145 million set aside for labor settlements (after the use of \$920 million for existing settlements in 2008-09), \$172 million in the Community Projects Fund to finance existing "member-item" initiatives, and \$64 million set aside for debt management purposes (after the use of \$58 million in 2008-09).

Aside from the amounts noted above, the 2008-09 Financial Plan does not have specific reserves to cover potential costs that could materialize as a result of Federal disallowances or other Federal actions that could adversely affect the State's projections of receipts and disbursements.

## **Updated HCRA Financial Plan**

Since the First Quarterly Update, DOB has lowered HCRA revenue projections as continued market volatility has disrupted previously planned insurance company conversions to for-profit companies. This decline is partly offset by downward spending revisions in various programs. As a result of the revisions the operational forecast for HCRA has declined, resulting in a current year imbalance of \$88 million. As a result of HCRA's relationship with the General Fund, DOB considers both gaps as combined for planning purposes and expects to address the shortfalls pursuant to legislation or administrative options.

The projected 2009-10 HCRA gap has increased modestly from the previous forecast, however the 2010-11 and 2011-12 anticipated annual operating shortfalls have improved by roughly \$150 million in each year due to downward adjustments to spending projections.

| HCRA Financial Plan<br>2008-09 through 2011-12<br>(millions of dollars) |            |         |         |         |  |  |  |

| Closing Balance   | 0          | (317)   | (434)   | (459)   |  |  |  |

<sup>\*</sup> Mid-year receipts and disbursements estimates do not include the \$1.48 billion in savings that are expected to be achieved through legislation or administrative actions, or both, to address the current year shortfall, as options are currently under development.

Current HCRA authorization expires on March 31, 2011, however the anticipated shortfall in 2009-10 will require the enactment of additional cost containment or revenue enhancements. Any unaddressed shortfall will need to be financed by the General Fund. The combined General Fund and HCRA gap is estimated at \$12.5 billion in 2009-10. The reauthorization of HCRA in prior years has maintained HCRA's solvency without the need for automatic spending reductions or General Fund support.

The table below summarizes the 2008-09 through 2011-12 revisions to the First Quarterly Update HCRA Financial Plan, followed by detailed descriptions of the changes.

#### **Revenue Revisions**

**Conversion Proceeds:** Reflects downward revisions due to the delay in the conversion of GHI/HIP to a forprofit company.

**Cigarette Tax Revenue:** An increase in the State cigarette tax is projected to increase revenues beginning in 2009-10. The increase is expected to be offset in part by lower New York City cigarette revenue transfers to HCRA.

#### **Spending Revisions**

**EPIC Re-estimate**: Lower than expected program costs and an increase in rebate revenue have resulted in lower overall costs for the EPIC program.

**HCRA Stem Cell Re-estimate:** Reflects revaluation of multi-year programmatic need for HCRA transfer.

**FHP Re-estimate:** Projected current-year spending in FHP has been reduced due to lower than anticipated enrollment. However, increases are projected in enrollment and premiums in future years, resulting in higher costs.

**August Special Session**: Reflects a 6 percent reduction in remaining disbursements for certain HCRA programs authorized during the August 2008 special session. Reductions increase in the outyears to reflect the full-year impact of these reductions.

**Special Session – Transfer HCRA Savings**: Reflects the transfer to the General Fund, of HCRA savings achieved during the August Special Session and pursuant to the 7 percent operational reductions implemented after the First Quarterly Update.

**All Other:** Other HCRA spending changes primarily consist of savings expected from State operations costs reductions.

#### **GAAP-Basis Financial Plans/GASB 45**

The State Budget is required to be balanced on a cash basis, which is DOB's primary focus in preparing and implementing the State Financial Plan. State Finance Law also requires the Financial Plan be presented for informational purposes on a GAAP basis, in accordance with standards and regulations set forth by GASB. Thus, the GAAP projections provided herein are intended to supplement, for informational purposes, the cash-basis Financial Plan. The GAAP-basis plans model the accounting principles applied by the Office of the State Comptroller in preparation of the 2007-08 Financial Statements.

In 2008-09, the General Fund GAAP Financial Plan shows total revenues of \$41.2 billion, total expenditures of \$56.3 billion, and net other financing sources of \$9.4 billion, resulting in an operating deficit of \$5.7 billion prior to legislative/administrative actions to close the cash gap and a projected accumulated deficit of \$324 million. These changes are due primarily to the use of a portion of prior year reserves to support 2008-09 operations and the impact of economic conditions on revenue accruals, primarily PIT. PIT collections received in the first quarter of 2008-09 were related primarily to prior year estimated payments and final returns (i.e. calendar year ended December 31, 2007) and are therefore recorded in State fiscal year 2007-08 for GAAP purposes. Estimated collections in the first quarter of 2009-10 related to calendar end year 2008 tax returns are expected to decline significantly resulting in lower accrued revenue in 2008-09.

The GAAP-basis results for 2007-08 showed the State in a net positive asset condition of \$47.7 billion after reflecting the impact of GASBS 45 "Accounting and Financial Reporting by Employers for Post-Retirement Benefits."

The State used an independent actuarial consulting firm to calculate retiree health care liabilities. The analysis calculated the present value of the actuarial accrued total liability for benefits as of March 31, 2008 at \$49.9 billion (\$41.4 billion for the State and \$8.5 billion for SUNY), using the level percentage of projected payroll approach under the Frozen Entry Age actuarial cost method. The actuarial accrued liability was calculated using a 4.155 percent annual discount rate.

This liability was disclosed in the 2007-08 basic GAAP financial statements issued by the State Comptroller in July 2008. GASB rules indicate the liability may be amortized over a 30-year period; therefore, only the annual amortized liability above the current PAYGO costs is recognized in the financial statements. The 2007-08 liability totaled \$3.8 billion (\$3.1 billion for the State and \$0.7 billion for SUNY) under the Frozen Entry Age actuarial cost method amortized based on a level percent of salary, or roughly \$2.7 billion (\$2.1 billion for the State and \$0.6 billion for SUNY) above the current PAYGO retiree costs. This difference between the State's PAYGO costs and the actuarially determined required annual contribution under GASBS 45 reduced the State's currently positive net asset condition at the end of 2007-08 by \$2.7 billion.

GASB does not require the additional costs to be funded on the State's budgetary basis, and no funding is assumed for this purpose in the Financial Plan. On a budgetary (cash) basis, the State continues to finance these costs, along with all other employee health care expenses, on a PAYGO basis. Anticipated increases in these costs are reflected in the State's multi-year Financial Plan as detailed below.

| 2011-12  | 2,064                 | 1,353    | 3,417       |  |  |  |  |  |

Reflects the health insurance cost of active employees and retirees in the Executive and Legislative branches and the Office of Court Administration.

As noted, the current Financial Plan does not assume pre-funding of the GASBS 45 liability. If such liability were pre-funded at this time, the additional cost above the PAYGO amounts would be lowered. The State's Health Insurance Council, which consists of GOER, Civil Service, and DOB will continue to review this matter, and seek input from the State Comptroller, the legislative fiscal committees and other outside parties.

DOB's detailed GAAP Financial Plans for 2008-09 through 2011-12 are provided in the Financial Plan Tables.

# **Debt/Capital Update**

The following tables summarize the net impact of capital projects spending changes on State debt levels and debt service spending. The changes in debt outstanding, debt issuances and debt service costs detailed below are consistent with the capital spending changes noted in the previous chart, including a closer alignment of bonding levels for economic development purposes with annual capital spending estimates.

| Projec  | ted Debt Outsta     | nding     |           |           |         |

In addition to capital spending levels, a variety of other factors also have an impact on debt service spending. The most significant factors affecting 2008-09 debt service spending with this Mid-Year Update are detailed below. This includes assumed bond sale delays, reflecting current conditions where governmental issuers across the nation are having limited access to the capital markets. In addition, spending from the Debt Reduction Reserve Fund (DRRF) has increased, primarily for swap termination costs related to State efforts to reduce its financial exposures - including those associated with the bankruptcy of Lehman Brothers. DOB has also increased its variable rate forecast for the fiscal year to average 3.75 percent, reflecting continued disruption in the variable rate markets. This is partly offset by assumed increases to interest earnings on unspent bond proceeds that offset debt service spending.

#### **Statutory Debt Limitations**

The Debt Reform Act of 2000 imposed statutory limitations which restricted the issuance of State-supported debt to capital purposes only and established a maximum term of 30 years for such debt. The statute also imposed phased-in caps that ultimately limit the amount of new State-supported debt to 4 percent of State personal income and new State-supported debt service costs to 5 percent of All Funds receipts. The restrictions apply to all new State-supported debt issued on and after April 1, 2000. The cap on debt outstanding will be fully phased-in during 2010-11, while the cap on debt service costs will be fully phased-in during 2013-14.

The statute requires that the limitations on the amount of State-supported debt and debt service costs be calculated by October 31 of each year and reported in this Mid-Year Update. If the actual amount of new State-supported debt outstanding and debt service costs for the prior fiscal year (2007-08) are below the caps at this time, State-supported debt may continue to be issued. However, if either the debt outstanding or the debt service cap is met or exceeded, the State would be precluded from issuing new State-supported debt until the next annual cap calculation is made and debt is found to be within the applicable limitations.

For the 2007-08 fiscal year, the cumulative debt outstanding and debt service caps are 3.32 percent each. As shown in the table below, the actual levels of debt outstanding and debt service costs continue to remain below the statutory caps. From April 1, 2000 through March 31, 2008 the State has issued new debt resulting in \$21.0 billion of debt outstanding applicable to the debt reform cap. This is about \$8.8 billion below the statutory debt outstanding limitation. In addition, the debt service costs on this new debt totaled \$1.7 billion in 2007-08 or roughly \$2.1 billion below the statutory debt service limitation.

| Debt Outstanding Cap<br>(millions of dollars) |           |
|---|-----------|
| New Debt Outstanding                          | \$21,018  |
| Personal Income (CY 2007)                     | \$900,511 |
| Debt Outstanding (Percent of PI)              | 2.33%     |
| Cap Imposed by Debt Reform Act                | 3.32%     |

| Debt Service Cap<br>(millions of dollars)      |           |
|--|-----------|
| New Debt Service                               | \$1,709   |
| Governmental Funds Receipts                    | \$115,423 |
| Debt Service (Percent of Govt'l Fund Receipts) | 1.48%     |
| Cap Imposed by Debt Reform Act                 | 3.32%     |

Current projections estimate that debt outstanding and debt service costs will continue to remain below the limits imposed by the Act through the next three years. However, the State has entered into a period of significantly declining debt capacity. Based on the most recent personal income and debt outstanding forecasts, the State would exceed the debt outstanding cap in 2012-13 by over \$800 million. In order to stay within the statutory limitations, the State expects to propose actions with the 2009-10 Executive Budget.

Medicaid/Health: The August session provided estimated savings of \$127 million in the current year growing to \$374 million in 2009-10. Major initiatives included: Reducing the State premiums paid to insurers for persons enrolled in Medicaid Managed Care and FHP (1.45 percent) and managed long-term care (1 percent); eliminating supplemental grants to public nursing homes that are no longer necessary because of increased Federal and State reimbursements from alternative funding sources; increasing the State's Medicaid fraud recovery and cost avoidance projection to \$695 million in 2008-09 and in 2009-10; capping the automatic inflationary rate increases paid to hospitals, nursing homes and home care at 2.3 percent; eliminating the cost-of-living-adjustment to rates paid to providers who deliver services under the EI program; and other savings actions include a three month delay in the implementation of the Medicaid enrollment center, achieving discounts on diabetic supplies through manufacturer pricing options, and a legislative reduction in hospital pay for performance funding.

Across-the-Board Local Reductions: The August session included \$182 million in savings in the current year from across-the-board reductions in local aid programs. The savings is projected at \$232 million in 2009-10. The reductions included a 6 percent reduction taken against all unspent local assistance funding as of August 15, 2008, except for school aid, welfare, Medicaid, child welfare, youth detention, the AIM program, aid to community colleges, aid to local governments for mandated programs, appropriations of under \$500,000, and special education; reducing new and enhanced 2008-09 programs added by the Legislature by 6 percent and Governor by 50 percent. Executive programs exempted from the 50 percent reduction include Medicaid coverage for foster children, housing and family support services, AIM, veterans tuition assistance, and CLCs. SUNY implemented a 7 percent General Fund spending reduction in

accordance with the FMP. Because CUNY is funded through local assistance rather than State Operations, it was not covered by the FMP. For parity, a comparable reduction was taken to CUNY in the August session.

**Other Savings:** These included additional General Fund transfers of over \$50 million, including \$40 million from the Statewide Wireless Network project related to slower than anticipated spending on that initiative; reducing Executive and Legislative Member Item Funding by \$50 million; and a reestimate of child welfare spending based upon a review of local claiming patterns.

# Special Considerations\_

Many complex political, social, and economic forces influence the State's economy and finances. Such forces may affect the State Financial Plan unpredictably from fiscal year to fiscal year. For example, the Updated Financial Plan is necessarily based on forecasts of national and State economic activity. Economic forecasts have frequently failed to accurately predict the timing and magnitude of specific and cyclical changes to the national and State economies. For a discussion of the DOB economic forecasts, see the section entitled "Economic Forecast" in this AIS Update. The Financial Plan also relies on estimates and assumptions concerning Federal aid, law changes, and audit activity. For a discussion of additional risks to the Financial Plan, see the sections entitled "Update on Risks to the Financial Plan" and "Litigation" in this AIS Update.

The most significant risks include:

- Further under-performance of the national and State economies that can affect State revenues and increase the demand for means-tested programs such as Medicaid and welfare;
- •The potential cost of collective bargaining agreements and salary increases for Judges (and possibly other elected officials) in 2008-09 and beyond. DOB estimates that if all remaining unsettled unions were to agree to the same terms that have been ratified by settled unions, it would result in added costs of approximately \$400 million in 2009-10 (assuming a retroactive component for fiscal year 2007-08 and 2008-09), and \$275 million in both 2010-11 and 2011-12. DOB has included a reserve to finance the costs of a pattern settlement for all unions. There can be no assurance that actual settlements will not exceed the amounts included in the Plan. In addition, no reserve has been set aside for potential pay raises for judges;
- Potential Federal disallowances arising from audits related to Medicaid claims under the School Supportive Health Services program;
- Proposed Federal rule changes concerning Medicaid payments; and
- Litigation against the State, including potential challenges to the constitutionality of certain tax actions authorized in the budget.

In addition, the forecast contains specific transaction risks and other uncertainties, including, but not limited to: the sale of development rights for a VLT facility at the Aqueduct Racetrack which is expected to be finalized by the end of the current fiscal year; the enforcement of certain tax regulations on Native American reservations; the conversion of certain not-for-profit health insurance companies to for-profit status, and the achievement of cost-saving measures, including, but not limited to, FMP savings, at the levels projected.

Recent market volatility and the decline in the market value of many stocks have negatively impacted the assets held for the New York State and Local Retirement Systems. The Comptroller has estimated that the value of the Systems' assets has declined approximately 20 percent since April 1, 2008. These factors and/or any future downturns in financial markets may result in an increase in the amount of the contributions required to be made by employers for fiscal years after fiscal year 2010. See also the section on "State Retirement Systems" in this AIS Update.

#### GAAP-Basis Results for Prior Fiscal Years

The Comptroller prepares Basic Financial Statements and Other Supplementary Information on a GAAP basis for governments as promulgated by GASB. The Basic Financial Statements, released in July each year, include the Statement of Net Assets and Activities, the Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances for the Governmental Funds, the Statements of Net Assets, Revenues, Expenses and Changes in Fund Net Assets and Cash Flows for the Enterprise Funds, the Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets and the Combining Statements of Net Assets and Activities for Discretely Presented Component Units. These statements are audited by independent certified public accountants. The Comptroller also prepares and issues a Comprehensive Annual Financial Report, which includes a management discussion and analysis (MD&A), the Basic Financial Statements, other supplementary information which includes individual fund combining statements, and a statistical section. For information regarding the State's accounting and financial reporting requirements, see the section in the AIS entitled "State Organization—Accounting, Financial Reporting and Budgeting."

Both the Basic Financial Statements and Other Supplementary Information and Comprehensive Annual Financial Reports for prior fiscal years can be obtained from the Office of the State Comptroller, 110 State Street, Albany, NY 12236 or at the OSC website at <a href="https://www.osc.state.ny.us">www.osc.state.ny.us</a>. The following table summarizes recent governmental funds results on a GAAP basis.

#### Comparison of Actual GAAP-Basis Operating Results Surplus/(Deficit) (millions of dollars)

| Fiscal Year Ended | General<br>Fund | Special<br>Revenue<br>Funds | Debt<br>Service<br>Funds | Capital<br>Projects<br>Funds | All<br>Governmental<br>Funds | Accum.<br>General Fund<br>Surplus/(Deficit) |
|-------------------|-----------------|-----------------------------|--------------------------|------------------------------|------------------------------|---|
| March 31, 2008    | 1,567           | (1,328)                     | (293)                    | (306)                        | (360)                        | 3,951                                       |
| March 31, 2007    | 202             | (840)                       | 92                       | 501                          | (45)                         | 2,384                                       |
| March 31, 2006    | 1,636           | 3,128                       | (664)                    | (251)                        | 3,849                        | 2,182                                       |

Beginning with the fiscal year ended March 31, 2003, statements have been prepared in accordance with GASBS 34. GASBS 34 has significantly affected the accounting and financial reporting for all state and local governments. GASBS 34 redefined the financial reporting model by changing its focus to major funds, rather than fund types, requiring a new MD&A section and including new government-wide financial statements which includes all revenues and all costs of providing services each year. The new Basic Financial Statements and the MD&A are issued in place of the general purpose financial statements. The new statements also report on all current assets and liabilities and also long-term assets and liabilities, such as capital assets, including infrastructure (e.g., roads and bridges).

# Summary of Net Assets (millions of dollars)

| Fiscal Year Ended | Governmental _Activities_ | Business-Type<br>Activities | Total<br>Primary<br>Government |
|-------------------|---------------------------|-----------------------------|--------------------------------|
| March 31, 2008    | 43,510                    | 4,217                       | 47,727                         |
| March 31, 2007    | 45,327                    | 3,599                       | 48,926                         |
| March 31, 2006    | 45,997                    | 3,136                       | 49,133                         |

# State Retirement Systems \_\_\_\_\_

#### **General**

The New York State and Local Retirement Systems (the "Systems") provide coverage for public employees of the State and its localities (except employees of New York City and teachers, who are covered by separate plans). The Systems comprise the New York State and Local Employees' Retirement System and the New York State and Local Police and Fire Retirement System. The Comptroller is the administrative head of the Systems. State employees made up about 33 percent of the membership during the 2007-08 fiscal year. There were 3,020 other public employers participating in the Systems, including all cities and counties (except New York City), most towns, villages and school districts (with respect to non-teaching employees) and a large number of local authorities of the State.

As of March 31, 2008, 667,321 persons were members and 358,109 pensioners or beneficiaries were receiving benefits. The State Constitution considers membership in any State pension or retirement system to be a contractual relationship, the benefits of which shall not be diminished or impaired. Current members enrolled in a non-contributory plan cannot be required to begin making contributions. Current members covered by a contributory plan cannot be required to make contributions beyond what is presently required by State law.

Recent market volatility and the recent decline in the market value of many equity investments have negatively impacted the assets held for the Systems. These or future downturns in financial markets will not affect the State's contribution to the Systems for fiscal year 2009 (which was based on the value of the assets as of April 1, 2007 and has already been paid) or the estimated contribution to the Systems for fiscal year 2010 (which is based on the value of the pension fund and its liabilities as of April 1, 2008). However, such downturns may result in an increase in the amount of the contributions required to be made for fiscal years after fiscal year 2010. The amount of such increases would depend, in part, on the value of the pension fund as of each April 1 as well on the present value of the anticipated benefits to be paid by the pension fund as of each April 1, and, therefore, it is not possible to estimate the amount of any contribution for the period after fiscal year 2010.

#### **Contributions**

Funding is provided in large part by employer and employee contributions. Employers contribute on the basis of the plan or plans they provide for members. Members joining since mid-1976, other than police and fire members, are required to contribute 3 percent of their salaries for their first 10 years of membership.

Legislation enacted in May 2003 realigned the Retirement Systems billing cycle to match governments' budget cycles and also instituted a minimum annual payment. The employer contribution for a given fiscal year will be based on the value of the pension fund and its liabilities on the prior April 1. In addition, employers are required to make a minimum contribution of at least 4.5 percent of payroll every year.

The State paid, in full, its employer contributions for the fiscal year ending March 31, 2009. Payments totaled \$1.06 billion. This amount included the Judiciary bill and the amortization payments for the 2005 and 2006 bills.

The State bill for the fiscal year ending March 21, 2010 is estimated to be \$959.1 million, assuming a payment date of September 1, 2009.

#### **Assets and Liabilities**

Assets are held exclusively for the benefit of members, pensioners and beneficiaries. Investments for the Systems are made by the Comptroller as trustee of the Common Retirement Fund, a pooled investment vehicle. OSC reports that the net assets available for benefits as of March 31, 2008 were \$155.8 billion (including \$2.9 billion in receivables), a decrease of \$0.8 billion or 0.5 percent from the 2006-07 level of \$156.6 billion, reflecting, in large part, equity market performance. OSC reports that the present value of anticipated benefits for current members, retirees, and beneficiaries increased from \$163.1 billion on April 1, 2007 to \$170.5 billion (including \$66.1 billion for current retirees and beneficiaries) on April 1, 2008. The funding method used by the Systems anticipates that the net assets, plus future actuarially determined contributions, will be sufficient to pay for the anticipated benefits of current members, retirees and beneficiaries. Actuarially determined contributions are calculated using actuarial assets and the present value of anticipated benefits. Actuarial assets differed from net assets on April 1, 2008 in that amortized cost was used instead of market value for bonds and mortgages and the non-fixed investments utilized a smoothing method which recognized 20 percent of unexpected gain for the 2008 fiscal year, 40 percent of the unexpected gain for the 2007 fiscal year and 60 percent of the unexpected gain for the 2006 fiscal year. Actuarial assets increased from \$142.6 billion on April 1, 2007 to \$151.8 billion on April 1, 2008. The funded ratio, as of April 1, 2008, using the entry age normal funding method, was 107 percent. The table that follows shows the actuarially determined contributions that have been made over the last nine years. See also "Contributions" above.

#### Net Assets Available for Benefits of the New York State and Local Retirement Systems (1) (millions of dollars)

| Fiscal Year Ended | T. (41.4 x x 4.40) | Percent<br>Increase/<br>(Decrease) |

# **Authorities and Localities**

Certain localities outside New York City have experienced financial problems and have requested and received additional State assistance during the last several State fiscal years. While a relatively infrequent practice, deficit financing has become more common in recent years. Between 2004 and 2007, the State Legislature authorized 14 bond issuances to finance local government operating deficits. The potential impact on the State of any future requests by localities for additional oversight or financial assistance is not included in the projections of the State's receipts and disbursements for the State's 2008-09 fiscal year or thereafter. Thus far, three more deficit-financing authorizations have been granted by the State Legislature in 2008.

To help resolve persistent fiscal difficulties in the City of Buffalo, the State enacted legislation in July 2003 that created the Buffalo Fiscal Stability Authority (BFSA) and to address a deteriorating fiscal situation in Erie County, legislation was enacted in July 2005 that created the Erie County Fiscal Stability Authority (ECFSA). Under these statutes, the City is currently subject to fiscal oversight and control by the BFSA, and the County is currently subject to fiscal oversight and control by the ECFSA. The BFSA has issued, and the ECFSA is authorized to issue bonds to eliminate budgetary deficits and to restructure or refinance outstanding debt. Sales tax revenues payable to the City and the Buffalo City School District are pledged to support the outstanding bonds issued by the BFSA. The County's sales tax revenues and certain statutorily defined State aid payments are authorized to be pledged as security to support any bonds that may be issued by ECFSA.

Under the BFSA Act, the City has been in a "control period" since 2003. In 2006, the ECFSA instituted a "control period" for the county after rejecting its fiscal 2007 budget and financial plan for fiscal years 2007 through 2010. During a control period, the applicable legislation grants to BFSA and ECFSA significant fiscal oversight authority over the financial operations of the City and the County, respectively, including: the power to approve or reject contracts, labor settlements, and borrowings in excess of \$50,000; to approve and reject budgets and four-year financial plans and, if necessary, formulate an acceptable budget for the City or the County, as applicable,; and to implement a wage or hiring freeze.

Like the State, local governments must respond to changing political, economic and financial influences over which they have little or no control. Such changes may adversely affect the financial condition of certain local governments. For example, the Federal government may reduce (or in some cases eliminate) Federal funding of some local programs or disallow certain claims which, in turn, may require local governments to fund these expenditures from their own resources. The State could also reduce funding of certain local programs, adding pressure on local governments to fund expenditures from their own resources.

Some State policymakers have expressed interest in implementing a property tax cap for local governments. Adoption of a property tax cap could affect the amount of property tax revenue available for local government purposes and could adversely affect their operations, particularly those that are heavily dependent on property tax revenue such as school districts. Ultimately, localities or any of their respective public authorities may suffer serious financial difficulties that could jeopardize local access to the public credit markets, which may adversely affect the marketability of notes and bonds issued by localities within the State. Localities may also face unanticipated problems resulting from certain pending litigation, judicial decisions and long-range economic trends. Other large-scale potential problems, such as declining urban populations, increasing expenditures, and the loss of skilled manufacturing jobs, may also adversely affect localities and necessitate State assistance.

The following table summarizes the debt of New York City and all localities in the State outside of New York City.

# Debt of New York Localities (1) (millions of dollars)

Source: Office of the State Comptroller.

NOTE: For localities other than New York City, the amounts shown for fiscal years ending in 1990 through 1997 may include debt that has been defeased through the issuance of refunding bonds.

<sup>(1)</sup> Because the State calculates locality debt differently for certain localities (including New York City), the figures above may vary from those reported by such localities. In addition, this table excludes indebtedness of certain local authorities and obligations issued in relation to State lease-purchase arrangements.

<sup>(2)</sup> New York City's debt outstanding has been revised as presented in the FY 2004 City Comptroller's Comprehensive Annual Financial Report.

<sup>(3)</sup> Includes New York City capital leases obligations which were not reflected in previous years. Includes bonds issued by the Dormitory Authority of the State of New York for education, health and courts capital projects, the Samurai Funding Corporation and other long-term financing leases which will be repaid from revenues of the City or revenues that would otherwise be available to the City if not needed for debt service.

<sup>(4)</sup> Outstanding bonded debt shown includes bonds issued by the localities and certain debt guaranteed by the localities and excludes capital lease obligations (for localities other than New York City), assets held in sinking funds and certain amounts available at the start of a fiscal year for redemption of debt. Debt for other localities does not include Installment Purchase Contracts.

<sup>(5)</sup> Does not include the indebtedness of certain localities that did not file annual financial reports with the Comptroller.

# Litigation

# Real Property Claims \_\_\_\_\_

In *Oneida Indian Nation of New York v. State of New York*, 74-CV-187 (NDNY), the alleged successors-in-interest to the historic Oneida Indian Nation seek a declaration that they hold a current possessory interest in approximately 250,000 acres of lands that the tribe sold to the State in a series of transactions that took place beginning in 1795 and ending in 1846, and ejectment of the State and Madison and Oneida Counties from all publicly-held lands in the claim area. This case remained dormant while the Oneidas pursued an earlier action which sought limited relief relating to a single 1795 transaction and the parties engaged in intermittent, but unsuccessful, efforts to reach a settlement. In 1998, the United States filed a complaint in intervention in *Oneida Indian Nation of New York*. In December 1998, both the United States and the tribal plaintiffs moved for leave to amend their complaints to assert claims for 250,000 acres, including both monetary damages and ejectment, to add the State as a defendant, and to certify a class made up of all individuals who currently purport to hold title within the affected 250,000 acre area. On September 25, 2000, the District Court granted the motion to amend the complaint to the extent that it sought to add the State as a defendant and to assert money damages with respect to the 250,000 acres and denied the motion to certify a class of individual landowners and to seek the remedy of ejectment.

In a decision dated March 29, 2002, the District Court granted, in part, plaintiffs' motion to strike the State's defenses and counterclaims. The District Court also denied the State's motion to dismiss for failure to join indispensable parties.

Further efforts at settlement of this action failed to reach a successful outcome. While such discussions were underway, two significant decisions were rendered by the Supreme Court and the Second Circuit Court of Appeals which changed the legal landscape pertaining to ancient land claims: City of Sherrill v. Oneida Indian Nation of New York, 544 U.S. 197 (2005), and Cayuga Indian Nation of New York v. Pataki, 413 F.3d 266 (2d Cir. 2005), cert. denied, 126 S.Ct. 2021, 2022 (2006). Taken together, these cases have made clear that the equitable doctrines of laches, acquiescence, and impossibility can bar ancient land claims. These decisions prompted the District Court to reassess its 2002 decision, which in part had struck such defenses, and to permit the filing of a motion for summary judgment predicated on the Sherrill and Cayuga holdings. On August 11, 2006, the defendants moved for summary judgment dismissing the action, based on the defenses of laches, acquiescence, and impossibility. By order dated May 21, 2007, the District Court dismissed plaintiffs' claims to the extent that they asserted a possessory interest, but permitted plaintiffs to pursue a claim seeking the difference between the amount paid and the fair market value of the lands at the time of the transaction. The District Court certified the May 21, 2007 order for interlocutory appeal and, on July 13, 2007, the Second Circuit granted motions by both sides seeking leave to pursue interlocutory appeals of that order. The cross-appeals have been fully briefed, and oral argument before the Second Circuit was conducted on June 3, 2008. The case now awaits decision by the Second Circuit.

Other Indian land claims include *Canadian St. Regis Band of Mohawk Indians, et al.*, v. State of New York, et al., and The Onondaga Nation v. The State of New York, et al. both in the United States District Court for the Northern District of New York.

In the Canadian St. Regis Band of Mohawk Indians case, plaintiffs seek ejectment and monetary damages with respect to their claim that approximately 15,000 acres in Franklin and St. Lawrence Counties were illegally transferred from their predecessors-in-interest. By decision dated July 28, 2003, the District Court granted, in most respects, a motion by plaintiffs to strike defenses and dismiss counterclaims contained in defendants' answers. By decision dated October 20, 2003, the District Court denied the State's motion for reconsideration of that portion of the July 28, 2003 decision which struck a counterclaim against the United

States for contribution. On February 10, 2006, after renewed efforts at settlement failed to resolve this action, and recognizing the potential significance of the *Sherrill* and *Cayuga* appeals, the District Court stayed all further proceedings in this case until 45 days after the United States Supreme Court issued a final decision in the *Cayuga Indian Nation of New York* Case. On November 6, 2006, after certiorari was denied in *Cayuga*, the defendants moved for judgment on the pleadings. The motion is now fully briefed and awaiting decision.

In *The Onondaga Nation v. The State of New York, et al.*, plaintiff seeks a judgment declaring that certain lands allegedly constituting the aboriginal territory of the Onondaga Nation within the State are the property of the Onondaga Nation and the Haudenosaunee, or "Six Nations Iroquois Confederacy," and that conveyances of portions of that land pursuant to treaties during the period 1788 to 1822 are null and void. The "aboriginal territory" described in the complaint consists of an area or strip of land running generally north and south from the St. Lawrence River in the north, along the east side of Lake Ontario, and south as far as the Pennsylvania border, varying in width from about 10 miles to more than 40 miles, including the area constituting the City of Syracuse. On August 15, 2006, based on *Sherrill* and *Cayuga*, the defendants moved for an order dismissing this action, based on laches. The motion is now fully briefed and awaiting decision.

Cayuga Indian Nation of New York, et al. v Pataki, et al., USDC, NDNY, 80-CV-930 (McCurn, DJ) (2d Cir. [02-6111]) involved approximately 64,000 acres in Seneca and Cayuga Counties surrounding the northern portion of Cayuga Lake that the historic Cayuga Nation sold to the State in 1795 and 1807 in alleged violation of the Nonintercourse Act ("NIA") (first enacted in 1790 and now codified at 25 U.S.C. § 177) because the transactions were not held under federal supervision, and were not formally ratified by the United States Senate and proclaimed by the President. After 2 lengthy trials, in 2001 the District Court denied ejectment as a remedy, and rendered a judgment against the State for damages and prejudgment interest in the net amount of \$250 million. The State appealed. The tribal plaintiffs (but not the U.S.) cross-appealed, seeking ejectment of all of the present day occupants of the land in the 64,000 acre claim area and approximately \$1.5 billion in additional prejudgment interest.

On June 28, 2005, the Second Circuit reversed and entered judgment dismissing the Cayuga action, based upon the intervening Supreme Court decision in *Oneida Indian Nation v. City of Sherrill*, 544 U.S. 197 (2005) which held (in the context of a property tax dispute involving a parcel that the tribe had purchased in fee within the Oneida claim area) that disruptive claims of Indian sovereignty could be barred by equitable defenses, including laches, acquiescence and impossibility. *Cayuga Indian Nation v. Pataki*, 413 F.3d 266 (2d Cir. 2005). The Second Circuit concluded that the same equitable considerations that the Supreme Court relied on in *City of Sherrill* applied to the Cayugas' possessory claim and required dismissal of the entire lawsuit, including plaintiffs' claim for money damages and their claim for ejectment. The Court also held that the United States' complaint-in-intervention was barred by laches. The Supreme Court denied certiorari in *Cayuga* on May 15, 2006. 126 S. Ct. 2021, 2022.

This case was closed but recently became active when the Cayuga plaintiffs filed a FRCP 60(b)(6) motion to have the judgment vacated. Along with this motion a letter was sent to Judge McCurn's chamber seeking a stay of the 60 (b)(6) motion until after the Second Circuit decides the appeal in the *Oneida* Land Claim case. The motion is premised on Judge Kahn's ruling in *Oneida*, discussed above, that in spite of the Second Circuit decision in *Cayuga*, the tribe may proceed to prove a non-possessory claim for unjust compensation against the State defendant. By stipulation of the parties, so-ordered by Judge McCurn, further briefing on the Cayugas' motion for relief from judgment has been suspended, pending the outcome of the Oneida appeal that was argued on June 3, 2008.

# Tobacco Master Settlement Agreement \_\_\_\_\_

In Freedom Holdings Inc. et al. v. Spitzer et ano., two cigarette importers brought an action in 2002 challenging portions of laws enacted by the State under the 1998 Tobacco MSA that New York and many other states entered into with the major tobacco manufacturers. The initial complaint alleged: (1) violations of the Commerce Clause of the United States Constitution; (2) the establishment of an "output cartel" in conflict with the Sherman Act; and (3) selective nonenforcement of the laws on Native American reservations in violation of the Equal Protection Clause of the United States Constitution. The United States District Court for the Southern District of New York granted defendants' motion to dismiss the complaint for failure to state a cause of action. Plaintiffs appealed from this dismissal. In an opinion dated January 6, 2004, the United States Court of Appeals for the Second Circuit (1) affirmed the dismissal of the Commerce Clause claim; (2) reversed the dismissal of the Sherman Act claim; and (3) remanded the selective enforcement claim to the District Court for further proceedings. Plaintiffs have filed an amended complaint that also challenges the MSA itself (as well as other related State statutes) primarily on preemption grounds. On September 14, 2004, the District Court denied all aspects of plaintiffs' motion for a preliminary injunction, except that portion of the motion relating to the ability of tobacco manufacturers to obtain the release of certain funds from escrow. Plaintiffs have appealed from the denial of the remainder of the motion to the United States Court of Appeals for the Second Circuit. In May 2005, the Second Circuit affirmed the denial of the preliminary injunction. In December 2006, the motions and cross-motions of the parties for summary judgment were fully submitted to the District Court. By order dated July 7, 2008, the District Court requested updated statistical information and other information needed to resolve certain material questions. An evidentiary hearing will be held in November 2008.

GSC: Agency disbursements include grants to local governments, state operations and general state charges, which is a departure from prior Financial plan publications. In prior reports, general state charges were excluded from agency spending totals.

Medicaid: To facilitate comparable reporting of spending trends and annual growth, 2007-08 results are adjusted to be consistent with the budgeting of 2008-09 Medicaid spending by agency. Adjustments by agency and financial plan category of spending by fund are available in the 2008-09 Enacted Budget Report.
