# Update to Annual Information Statement (AIS) State of New York

November 9, 2010

This quarterly update (the "AIS Update") updates the Annual Information Statement of the State of New York that was dated September 7, 2010 (the "AIS") and contains information only through November 9, 2010. This AIS Update should be read in its entirety, together with the AIS.

In this AIS Update, readers will find:

- 1. Extracts from the Mid-Year Update to the 2010-11 Financial Plan (the "Updated Financial Plan"), which the Division of the Budget ("DOB") issued on November 1, 2010. The Updated Financial Plan includes (a) a summary of recent events and changes to the Financial Plan made since the AIS was released, (b) revised Financial Plan projections for fiscal years 2010-11 through 2013-14, (c) operating results for the first half of fiscal year 2010-11, (d) an updated economic forecast, (e) pro forma Generally Accepted Accounting Principles (GAAP)-basis Financial Plan projections for 2010-11 and information on other postemployment benefits, and (f) a summary on debt management. The Updated Financial Plan is available on the DOB website, www.budget.state.ny.us.
- 2. A discussion of special considerations related to the State Financial Plan for fiscal year 2010-11.
- 3. The status of significant litigation that has the potential to adversely affect the State's finances.

DOB is responsible for preparing the State's Financial Plan and presenting the information that appears in this AIS Update on behalf of the State. In preparing this AIS Update, DOB has utilized significant portions of the Updated Financial Plan, but has also relied on information drawn from other sources, such as the Office of the State Comptroller ("OSC"), that it believes to be reliable. Information relating to matters described in the section entitled "Litigation" is furnished by the State Office of the Attorney General.

During the current fiscal year, the Governor, the State Comptroller, State legislators, and others may issue statements or reports that contain predictions, projections or other information relating to the State's financial condition, including potential operating results for the current fiscal year and projected baseline gaps for future fiscal years that may vary materially from the information provided in the AIS. Investors and other market participants should, however, refer to the AIS, as updated, or supplemented, for the most current official information regarding the financial condition of the State.

The State may issue AIS supplements to this AIS Update as events warrant. The State intends to announce publicly whenever an update or a supplement is issued. The State may choose to incorporate by reference all or a portion of this AIS Update in Official Statements or related disclosure documents for State or State-supported debt issuance. The State has filed this AIS Update with the Municipal Securities Rulemaking Board ("MSRB") through its Electronic Municipal Market Access ("EMMA") system. Effective July 1, 2009, pursuant to Rule 15c2-12 promulgated by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended, the MSRB is designated as the sole repository for the electronic filing of all primary and secondary market disclosure. An electronic copy of

this AIS Update can be accessed through EMMA at <a href="www.emma.msrb.org">www.emma.msrb.org</a>. An official copy of this AIS Update may be obtained by contacting the New York State Division of the Budget, State Capitol, Albany, NY 12224, Tel: (518) 474-7705.

# **Usage Notice**

This AIS Update has been supplied by the State pursuant to its contractual obligations under various continuing disclosure agreements (each, a "CDA") entered into by the State in connection with financings of certain issuers, including public authorities of the State, that may depend in whole or in part on State appropriations as sources of payment of their respective bonds, notes or other obligations.

This AIS Update is available on the DOB website (<a href="www.budget.state.ny.us">www.budget.state.ny.us</a>) and is being provided solely as a matter of convenience to readers and does not create any implication that there have been no changes in the financial condition of the State at any time subsequent to its release date. Maintenance of this AIS Update on the DOB website, or on EMMA website, is <a href="mailto:not months are publication">not months are publication of the information therein on any date subsequent to its release date.

Neither this AIS Update nor any portion thereof may be (i) included in a Preliminary Official Statement, Official Statement, or other offering document, or incorporated by reference therein, unless DOB has expressly consented thereto following a written request to the State of New York, Division of the Budget, State Capitol, Albany, NY 12224, or (ii) considered to be continuing disclosure in connection with any offering unless a CDA relating to the series of bonds or notes has been executed by DOB. Any such use, or incorporation by reference, of this AIS Update or any portion thereof in a Preliminary Official Statement, Official Statement, or other offering document or continuing disclosure filing or incorporated by reference therein without such consent and agreement by DOB is unauthorized and the State expressly disclaims any responsibility with respect to the inclusion, intended use, and updating of this AIS Update if so misused.

# Update to the 2010-11 Financial Plan \_\_\_\_\_

**Note:** *DOB* issued the Updated Financial Plan on November 1, 2010, extracts of which are set forth herein. The Updated Financial Plan includes updated estimates for 2010-11 and projections for 2011-12 through 2013-14. As such, it contains estimates and projections of future results that should not be construed as statements of fact. These estimates and projections are based upon assumptions that may be affected by numerous factors, including future economic conditions in the State and nation and potential litigation. There can be no assurance that actual results will not differ materially and adversely from the estimates and projections contained in the Updated Financial Plan.

State law requires the Governor to submit an Executive Budget that is balanced on a cash basis in the General Fund — the fund that receives the majority of State taxes, and all income not earmarked for a particular program or activity. Since this is the fund that is required to be balanced, the focus of the State's budget discussion is often weighted toward the General Fund.

The State accounts for all of its receipts and disbursements by the fund in which the activity takes place (such as the General Fund), and the broad category or purpose of that activity (such as State Operations). The Financial Plan tables sort all State projections and results by fund and category. The State also reports disbursements and receipts activity by two other broad measures: State Operating Funds, which includes the General Fund and funds specified for dedicated purposes, but excludes Federal Funds and Capital Projects Funds; and All Governmental Funds ("All Funds"), which includes both State and Federal Funds and provides the most comprehensive view of the financial operations of the State.

Fund types of the State include: the General Fund; State special revenue funds ("SRFs"), which receive certain dedicated taxes, fees and other revenues that are used for a specified purpose; Federal SRFs, which receive Federal grants; State and Federal Capital Projects Funds, which account for costs incurred in the construction and reconstruction of roads, bridges, prisons, and other infrastructure projects; and Debt Service Funds, which pay principal, interest and related expenses on debt issued by the State and its public authorities.

Please see the Glossary of Acronyms of this AIS Update for the definitions of acronyms, defined terms and abbreviations that are used in this AIS Update.

<sup>&</sup>lt;sup>1</sup> Spending is adjusted to exclude the impact of paying the end-of-year school aid payment (\$2.06 billion) scheduled for the last quarter of 2009-10 in the first quarter of 2010-11, as authorized by statute. This was done to carry forward the 2009-10 budget shortfall into 2010-11. The adjustment affects spending totals in 2009-10 and 2010-11, and growth rates in 2009-10 and 2010-11. See Financial Plan tables at the end of this Update for 2009-10 actual results and 2010-11 unadjusted estimates.

<sup>&</sup>lt;sup>2</sup> 2009-10 Federal and All Funds disbursements and receipts have been adjusted to include \$2.0 billion in Federal aid that passes through the State's All Funds Financial Plan under ARRA. This "pass-through" money, which provides no gap-closing benefit and is subject to a range of factors that make the timing of disbursements highly uncertain, was expected to total approximately \$4.4 billion in 2009-10. Actual disbursements, however, totaled only \$2.4 billion. Thus, 2009-10 results have been adjusted for the difference. This adjustment affects growth rates in 2009-10 and 2010-11. See Financial Plan tables at the end of this Undate for 2009-10 actual results.

<sup>&</sup>lt;sup>3</sup> Reflects the estimated change in tax receipts excluding the impact of Tax Law changes since fiscal year 1986-87.

<sup>&</sup>lt;sup>4</sup> <u>Before</u> proposed spending reductions to eliminate the projected budget gap.

<sup>&</sup>lt;sup>5</sup> The State deferred more payments than were needed to carry forward the 2009-10 budget shortfall. This created a temporary increase in the year-end balance in 2009-10. The balance was used when the deferred payments were made in the first quarter

<sup>&</sup>lt;sup>6</sup> See workforce discussion under the "Special Considerations" section later in this Update.

# **Summary**

The State completed action on the 2010-11 budget on August 3, 2010. In accordance with State law, DOB issued the Enacted Budget Financial Plan on August 20, 2010, which reflected the impact of the 2010-11 budget on the multi-year operating forecast. Overall, the slowdown in economic growth has been more pronounced than expected and has contributed to lower than expected tax collections and higher than expected Medicaid costs to date. Through September 30, 2010, General Fund tax receipts were approximately \$510 million below planned levels. Medicaid spending over the same period exceeded estimates by over \$110 million. In addition, litigation against the State has constrained the State's ability to collect certain taxes on Native American reservations at the levels budgeted in the Enacted Budget Financial Plan. (See "Year-to-Date Operating Results" later in this Update.)

In light of results to date and updated program information, DOB has lowered the annual estimate for General Fund tax receipts by approximately \$278 million in 2010-11,<sup>2</sup> which is less than the year-to-date variance due to changes in the timing of when certain receipts are expected to be received. At the same time, DOB has increased estimated Medicaid spending by \$368 million for 2010-11, and by an average of approximately \$800 million annually thereafter. Lower than anticipated spending in other areas of the budget, including child welfare services and labor settlements, and the availability of resources that have materialized since the time of budget enactment, are expected to offset, in part, the tax receipts shortfall and Medicaid overruns in 2010-11.

The Enacted Budget Financial Plan included \$500 million in savings from across-the-board reductions to State agency operations. In the current year, savings are expected to fall approximately \$150 million below planned levels, due to implementation constraints, but to exceed budgeted savings in 2011-12 by an equivalent amount, as the full annual benefit of measures is realized.

Due to these and other revisions, which are summarized in more detail below, DOB now estimates that the General Fund has a budget gap of \$315 million in the current fiscal year. The projected budget gaps for 2011-12 and beyond have also grown compared to the Enacted Budget Financial Plan forecast summarized in the AIS. The Updated Financial Plan projects a budget gap for 2011-12, which a new gubernatorial administration must address in the Executive Budget that is due on February 1, 2011, of \$9.0 billion, an increase of \$850 million from the Enacted Budget Financial Plan forecast.

The Updated Financial Plan projects gaps in future years, which will be materially affected by the level of recurring actions ultimately approved to balance the 2011-12 fiscal year, of \$14.6 billion in 2012-13 (an increase of \$1.2 billion from the Enacted Budget Financial Plan forecast) and \$17.2 billion in 2013-14 (an increase of \$1.7 billion). The following table summarizes the revisions to the receipts and disbursements forecasts and the impact on General Fund operating projections reflected in the Updated Financial Plan.

<sup>&</sup>lt;sup>1,2</sup> Excludes the impact of debt service revisions that affect the transfer of tax receipts to the General Fund.

To address the estimated budget gap in the current year, Governor Paterson is expected to ask the Legislature to address the shortfall in a fashion similar in scope to that approved as part of the FMAP contingency plan authorized in the Enacted Budget Financial Plan. Governor Paterson is expected to ask the Legislature to approve reductions beyond the level needed to eliminate the current-year budget gap, and to agree that any excess be used to fund priority initiatives, including legislation passed by the Legislature and vetoed by Governor Paterson for fiscal reasons in 2010. Based on preliminary calculations, DOB estimates that spending for State programs would need to be reduced in the range of 1.5 to 2 percent over the remainder of the fiscal year to achieve a General Fund savings target of approximately \$375 million. The actual percentage reduction would depend on the scope of programs affected and the estimated cash disbursements for the remainder of the year.

There can be no assurance that the Legislature will approve any proposed reductions in planned State spending. Accordingly, the potential reductions are not included in the four-year Financial Plan projections by agency and Financial Plan category set forth in Updated Financial Plan. DOB expects to allocate the multi-year impact of any reductions approved by the Legislature in the Financial Plan projections that will accompany the Executive Budget for 2011-12.

#### Revisions to the 2010-11 Financial Plan

DOB has made a number of substantial revisions to the General Fund receipts and disbursements forecasts since the release of the AIS on September 7, 2010. The revisions are based on a comprehensive review of operating results to date, updated economic data, and other information. The following table summarizes the Updated Financial Plan revisions and displays the impact on General Fund operating projections over the forecast period. It is followed by a discussion of the major revisions.

#### GENERAL FUND FORECAST FOR 2010-11 THROUGH 2013-14 SAVINGS/(COSTS)<sup>1</sup> (millions of dollars)

<sup>1.</sup> Certain revisions displayed in the table above are reclassifications of receipts and disbursements projections that have no net Financial Plan impact (e.g., Mental Hygiene). In other cases, revisions may affect both receipts and disbursements and need to be considered together to understand the Financial Plan impact. For instance, revisions related to reductions in State agency operations included in the Enacted Budget Financial Plan and allocated to agency budgets for the first time in this Updated Financial Plan affect both receipts and disbursements. (For example, a reduction to State agency operations funded by a special revenue fund is displayed as a transfer of resources from the special revenue fund, thereby increasing General Fund receipts.)

<sup>2.</sup> Tax changes include transfers from other funds before the impact of revisions to debt service costs.

# **Receipts Revisions**

General Fund receipts, including transfers from other funds, are estimated to total \$54.5 billion in 2010-11, a decrease of \$162 million compared to the Enacted Budget Financial Plan. Lower estimated tax receipts are expected to be offset in part by higher receipts from other sources, including miscellaneous receipts and nontax transfers from other funds.

• Tax Receipts: Projected tax receipts have been reduced in each year of the Financial Plan, based on updated economic information and actual tax collection results through September 2010. Excluding the impact of debt service changes affecting the transfer of tax receipts to the General Fund, tax receipts in 2010-11 have been reduced by \$278 million compared to the Enacted Budget forecast. The annual estimate for tax receipts has been reduced by less than the year-to-date variance due to a change in the timing of receipts from business tax audits, which DOB had originally expected to be settled before September 2010 but now anticipates will occur later in the fiscal year.

Personal income tax receipts have been revised downward by approximately \$300 million annually, reflecting weakness in quarterly estimated payments. Receipts from user taxes have been reduced in the current year based on consumer spending data and actual collections, but are expected to rebound in 2011-12 as the economy continues to slowly improve. Cigarette tax receipts have been reduced due to the litigation over on the State's ability to collect certain taxes on Native American reservations, affecting receipts in both the General Fund and HCRA. Projected receipts from business taxes and other taxes have been increased modestly in both 2010-11 and 2011-12, reflecting unanticipated strength in estimated payments from banks and the performance of the real estate sector.

- Other Receipts: The reduction in estimated annual tax receipts in 2010-11 is offset in part by higher than expected receipts from other sources. These unplanned receipts include legal recoveries, surplus workers compensation funds, and transfers related to reductions in statewide agency operations financed by special revenue funds (see discussion below). In addition, the State realized a one-time benefit of \$43 million from the termination of its existing synthetic variable rate swaps in September 2010.
- Accounting Reclassifications: The Updated Financial Plan includes accounting reclassifications related to the transfer of money to and from the General Fund. The reclassifications have no impact on the net operating forecast (e.g., a reduction in planned transfers from other funds is offset by a commensurate reduction in planned transfers to other funds). The most sizeable reclassification is related to the adjustment of spending for mental hygiene services between the General Fund and State special revenue funds, which has the effect of reducing transfers to and from the General Fund by an equal amount.

#### **Disbursement Revisions**

General Fund disbursements, including transfers to other funds, are estimated at \$55.7 billion in 2010-11, an increase of \$153 million from the Enacted Budget Financial Plan. Likewise, spending has been increased in subsequent years. The most significant revisions are summarized below.

• **Medicaid:** Gross State-share spending for Medicaid has been increased by approximately \$800 million annually, due in part to actual and anticipated growth in the number of people enrolled in the program. Based on the updated estimates, more than 200,000 new enrollees are expected to enter Medicaid in the current fiscal year, bringing total enrollment to 4.9 million. In addition, higher State costs are driven by the Federal government increasing its share of rebates from drug

manufacturers pursuant to Federal Health Care Reform; reconciliation of 2008 payments for the reimbursable portion of nursing home revenue assessments; and the impact of revisions to the HCRA operating forecast.

In 2010-11, the gross increase in State-share Medicaid spending is offset in part by certain non-recurring resources. Reconciliation of SFY 2009-10 local Medicaid obligations under the Medicaid Cap forms the basis for final enhanced FMAP shares under ARRA. The Updated Financial Plan is adjusted for \$300 million in State funding previously reserved for this reconciliation (\$208 million in SFY 2010-11). Furthermore, the local reconciliation also informs the lower distribution of the ARRA enhancement on the State's "clawback" payments for certain dually eligible (Medicare and Medicaid) recipients' drug benefit under Medicare Part D. This reduction decreases the State's expenditures by \$223 million in SFY 2010-11 (\$38 million in SFY 2011-12). The combination of all 2010-11 Medicaid revisions results in a net increase in costs of \$368 million.

- **Social Services:** Spending projections for child welfare services have been reduced by approximately \$120 million annually based on updated claiming data from social service districts. In addition, projected spending for other programs, and the reconciliation of human services COLA based on statutorily defined inflationary increases, has been lowered.
- School Aid: The September 2010 update to the school aid database resulted in higher than projected costs beginning in the 2011-12 school year. The costs reflect additional claims filed since the Enacted Budget Financial Plan, and updated wealth and demographic information reported by school districts. The Updated Financial Plan projections also reflect the impact of a revised estimate of demographic and enrollment factors within the Foundation Aid formula. Based on statute, additional school year obligations from 2010-11 are to be paid in State fiscal year 2011-12. As in prior years, updated school district data and additional claims have resulted in a cost increase to the State's multi-year Financial Plan, subsequent to the Enacted Budget agreements.
- Lottery/VLT Aid for Education: Receipts from statewide lottery games continue to fall below expectations, reflecting in part the impact of the economic downturn. DOB has lowered the estimate of lottery receipts expected to be available for School Aid across the Financial Plan forecast period.
- **Higher Education:** Current economic conditions, in particular high unemployment rates, have contributed in part to the recent upward trend in student enrollment in SUNY and CUNY community colleges. Similarly, increased spending under the TAP grant award program is expected due to the increased enrollment in institutions of higher education.
- **Transportation/Motor Vehicles:** The General Fund subsidy provided to the DHBTF has been revised across the plan period as a result of changes in estimated spending levels for capital projects, debt service costs, and other receipts.
- **Public Safety/Criminal Justice:** General Fund spending projections have been increased to reflect additional disaster relief aid, and a downward revision to expected revenues from the Motor Vehicle Law Enforcement fee that is used to support State Police costs.

- Fringe Benefits: Reflects multi-year upward revisions for health insurance costs for State employees and retirees mainly due to three factors: delays in the State's progress in self-insuring parts of NYSHIP; reduced savings from the implementation of the Medicare Part B premium sharing legislation enacted as part of the 2010-11 budget; and projected increases due to Federal Health Care Reform and premium rate changes. Reductions in the State's salary base are expected to reduce pension and social security costs, compared to the Enacted Budget Financial Plan forecast.
- Mental Hygiene: The revisions reflect two-year net savings of \$10 million for 2010-11 and 2011-12, excluding the impact of the workforce reduction plan. The major changes include reduced projected spending of approximately \$40 million for the human service COLA based on the current statutory formula (a decrease from an annual increase of 3.5 percent to 1.2 percent in 2011-12). This is partially offset by higher estimated costs for a recent Federal District Court decision mandating additional supported housing and support services, such that costs are now projected to be \$4 million in 2010-11 and \$45 million in 2011-12, or \$8 million more than projected previously, as well as \$12 million in additional costs based on the latest projected civil confinement caseload for the SOMTA program.
- **Timing of Outstanding Labor Settlements:** The Enacted Budget Financial Plan included estimated spending in 2010-11 to finance potential agreements with labor unions that have not yet reached settlements for the period from 2007-08 through 2010-11. Based on the status of negotiations and the timetable for ratification, it no longer appears likely than any spending for potential agreements will occur in the current year.
- Allocation of Statewide Agency Operational Savings: The Enacted Budget Financial Plan included \$500 million in planned savings from statewide reductions in agency spending. The estimated spending for each agency has been revised to reflect its share of the reductions. Savings were anticipated from, among other things, workforce reductions that include the early retirement incentive plan, hiring freezes, layoffs, eliminating positions through attrition, delaying planned hiring of staff, encouraging participation in the voluntary reduction in work schedule program, eliminating funded vacancies and temporary positions, and enhancing controls for reducing overtime costs. Operational efficiencies that reduce costs in contractual services, supplies and materials, equipment purchases and travel expenses are also expected. Total savings at a level comparable to the Enacted Budget Financial Plan projections are expected by the end of fiscal year 2011-12, with lower than expected savings in 2010-11 and higher savings in 2011-12.
- Allocation of FMAP Contingency Reductions: The Enacted Budget Financial Plan mandated uniform reductions to most local assistance payments to cover the difference between the \$1.1 billion in savings counted on in the proposed 2010-11 Financial Plan from enhanced FMAP and the actual amount ultimately approved by the Federal government. DOB calculated this difference at \$281 million. The payment reductions to local assistance spending began taking effect in mid-September 2010, as provided by law, and have been allocated to agency budgets in the Updated Financial Plan.

# **Adjusted Annual Spending growth**

The projections for annual spending growth are affected by both the management of payments at the end of 2009-10 and, in the case of Federal Funds and All Funds spending, by the uncertainties concerning the timing of Federal pass-through aid. The latter consists of ARRA stimulus money for a wide range of purposes that provides no gap-closing benefit, but by law must pass through the State's Financial Plan before it reaches its beneficiary. To avoid the distorting effect of these factors, DOB has adjusted

spending to (a) <u>exclude</u> the impact of the deferral of the \$2.06 billion end-of-year school aid payment from 2009-10 into 2010-11 and (b) <u>include</u> \$2.0 billion in Federal ARRA pass-through spending that was expected in 2009-10. **See the Financial Plan tables herein for 2009-10 actual results and 2010-11 unadjusted estimates.** The following table provides a summary of revisions and <u>adjusted</u> annual spending totals.

| TOTAL DISBURSEMENTS - ADJUSTED FOR PAYMENT DEFERRALS AND ARRA PASS-THROUGH (millions of dollars) |                     |                   |        |                     |                     |                    |  |  |  |  |  |  |

| Capital Projects Funds   | 7,112               | 8,454             | 54     | 8,508               | 1,396               | 19.6%              |  |  |  |  |  |  |
| Federal Operating Funds  | 44,891              | 46,375            | 1,253  | 47,628              | 2,737               | 6.1%               |  |  |  |  |  |  |
| General Fund, including Transfers  | 54,262              | 53,533            | 153    | 53,686              | (576)               | -1.1%              |  |  |  |  |  |  |
| State Funds  | 84,094              | 85,073            | 258    | 85,331              | 1,237               | 1.5%               |  |  |  |  |  |  |

All Funds spending in 2010-11 is now projected to total \$135.3 billion, an increase of \$1.5 billion from the Enacted Budget Financial Plan. Higher General Fund spending, primarily for Medicaid, contributes nearly \$350 million to the increase. The remaining increase since the Enacted Budget Financial Plan is mainly due to an updated estimate of Federal aid, particularly in the areas of health care, welfare, and school aid, including the new Federal Education Jobs Fund and Race to the Top program.

The annual spending growth in State Operating Funds is affected by the rapid annual increase in debt service and fringe benefits, which are difficult to control in the short-term due to existing constitutional, statutory, and contractual obligations. Together, these costs are projected to increase by over \$1.0 billion in 2010-11.

Adjusted to exclude the impact of paying the \$2.06 billion end-of-year school aid payment, scheduled for the last quarter of 2009-10, in the first quarter of 2010-11, as authorized in statute.

Debt service on State-supported debt is projected to increase by \$510 million (10.3 percent) in 2010-11, with approximately 35 percent of the growth due to the restructuring of certain transportation-related debt in 2005 that deferred substantial debt service costs until 2010-11. Overall spending from debt service funds, which includes certain non-personal service spending appropriated in the debt service budget, increases by roughly \$550 million.

Spending on fringe benefits is projected to increase by \$535 million, an increase of 12.5 percent. Growth in fringe benefits is due principally to increases in the State's annual contribution to the New York State and Local Retirement System and the cost of providing health insurance for active and retired State employees. Pension costs are expected to increase by \$313 million (27.1 percent) in 2010-11. The growth assumes that \$242 million in State pension costs will be amortized in 2010-11, as authorized in the 2010-11 Enacted Budget.

## 2010-11 Projected Closing Balances

#### **General Fund**

The General Fund is estimated to end the 2010-11 fiscal year with a balance of \$1.4 billion, unchanged from the Enacted Budget Financial Plan. The closing balance depends on successful implementation of actions to eliminate the estimated budget gap of \$315 million without the use of existing reserves. The estimate for spending from the Community Projects Fund is based on historical patterns and may be lower in 2010-11 as a result of the Governor's vetoes of member-item reappropriations.

| 2010-11 GENERAL FUND ESTIMATED CLOSING BALANCE<br>(millions of dollars) |   |    |       |  |  |  |  |  |  |  |  |
|---|---|----|-------|--|--|--|--|--|--|--|--|
|   | Enacted Rev<br><u>Budget Change Estir</u> |    |       |  |  |  |  |  |  |  |  |
| Projected Fund Balance  | 1,385                                     | 0_ | 1,385 |  |  |  |  |  |  |  |  |
| Tax Stabilization Reserve Fund  | 1,031                                     | 0  | 1,031 |  |  |  |  |  |  |  |  |
| Rainy Day Reserve Fund  | 175                                       | 0  | 175   |  |  |  |  |  |  |  |  |
| Community Projects Fund   | 85  | 0  | 85    |  |  |  |  |  |  |  |  |
| Reserved for Debt Reduction   | 73  | 0  | 73    |  |  |  |  |  |  |  |  |
| Contingency Reserve Fund  | 21  | 0  | 21    |  |  |  |  |  |  |  |  |

The estimated closing balance includes \$1.0 billion in the State's Tax Stabilization Reserve, which can be used to finance an unanticipated deficit at the end of the fiscal year, \$175 million in the Rainy Day Reserve, which can be used if certain economic criteria are met, \$85 million in the Community Projects Fund, which is reserved to finance existing "member item" initiatives, \$73 million for debt management purposes, and \$21 million in the Contingency Reserve for litigation risks.

#### **All Governmental Funds**

DOB projects the State will end the 2010-11 fiscal year with a balance of \$3.5 billion in All Governmental Funds. The balance consists of \$1.4 billion in the General Fund, \$1.7 billion in State Special Revenue Funds, \$422 million in Federal Operating Funds, \$364 million in Debt Service Funds and a negative balance of \$275 million in Capital Projects Funds. The year-end balance depends on successful implementation of actions to eliminate the current-year gap.

The balances held in State Special Revenue Funds include moneys designated to finance existing or potential commitments, or funds that are restricted or dedicated for specified statutory purposes. The largest balances in the State Special Revenue Funds include moneys on hand to finance future costs for State University programs, operating assistance for transportation programs, and various programs financed from the assessments associated with the State's regulation of various industries. The remaining fund balances are held in numerous funds, primarily the Miscellaneous Special Revenue Fund, and accounts that support a variety of programs, including public health, general government, and public safety. The reduction in Special Revenue Fund balances from the Enacted Budget Financial Plan is mainly attributable to additional SUNY hospital spending and for adjustments to several funds and accounts based on updated results.

Balances in Federal Operating Funds reflect timing differences between disbursements and Federal reimbursement. The timing of spending on ongoing, multi-year capital projects in advance of reimbursement from bond proceeds accounts for routine loans (or negative balances) in Capital Funds. Balances in Debt Service Funds represent funds set aside to finance debt service costs pursuant to legal obligations set forth in bond resolutions.

# **General Fund Outyear Budget Projections**

This section presents the State's multi-year projections for receipts and disbursements based on the Updated Financial Plan. State law requires the Governor to submit, and the Legislature to enact, a balanced plan of receipts and disbursements on a cash-basis for the General Fund. However, approximately 40 percent of total State spending for operating purposes is accounted for outside of the General Fund and is primarily concentrated in the areas of health care, school aid, higher education, transportation and mental hygiene. Thus, the multi-year projections and growth rates are presented on both a General Fund and State Operating Funds basis.

The multi-year forecast reflects revisions to the Enacted Budget Financial Plan based on updated assumptions concerning economic performance, revenue collections, spending patterns, and projections for the current-services costs of program activities.

In evaluating the State's outyear operating forecast, it should be noted that the reliability of the estimates as a predictor of the State's future financial position is likely to diminish as one moves further from the current year and budget year estimates. Accordingly, in terms of the outyear projections, 2011-12 is the most relevant from a planning perspective, since any gap in that year must be closed with the next budget and the variability of the estimates is likely to be less than in later years. DOB will provide quarterly revisions to its multi-year estimates, as required pursuant to State Finance Law.

## **Budget Gaps**

In the General Fund, the projected budget gaps total approximately \$9.0 billion in 2011-12, \$14.6 billion in 2012-13, and \$17.2 billion in 2013-14. The net operating deficits in State Operating Funds are projected at \$9.1 billion in 2011-12, \$14.2 billion in 2012-13, and \$16.9 billion in 2013-14.

The imbalances projected for the General Fund and State Operating Funds in future years tend to be very similar. This is because the General Fund is typically the financing source of last resort for many State programs, and any imbalance in other funds that cannot be rectified by the use of existing balances is typically paid by the General Fund.

The growth in the gaps between 2010-11 and 2011-12 is caused in large part by the expiration of Federal stimulus funding for Medicaid and education, which is expected to result in approximately \$5.4 billion in costs reverting to the General Fund, starting in 2011-12. The annual growth in the gap is also affected by the sunset, at the end of calendar year 2011, of the temporary PIT increase enacted in 2009-10, which is expected to reduce 2011-12 receipts by more than \$1 billion from 2010-11 levels.

#### **Spending**

General Fund spending is projected to grow at an average annual rate of 12.8 percent from 2010-11 through 2013-14.<sup>3</sup> Spending growth in the General Fund is projected to increase sharply in 2011-12, reflecting an expected return to a lower Federal matching rate for Medicaid expenditures after June 30, 2011, which will increase the share of Medicaid costs that must be financed by State resources, and the expected loss of temporary Federal aid for education. Excluding these stimulus-related effects, which temporarily suppress General Fund costs in 2010-11 and the first quarter of 2011-12, General Fund spending grows at approximately 8.7 percent on a compound annual basis.

<sup>&</sup>lt;sup>3</sup> The 2010-11 estimate is adjusted to exclude \$2.1 billion in school aid payments that were budgeted in 2009-10 but paid in 2010-11.

State Operating Funds spending is projected to grow at an average annual rate of 9.8 percent through 2013-14<sup>3</sup>. For both the General Fund and State Operating Funds, spending growth is driven by Medicaid, education, pension costs, employee and retiree health benefits, and social services programs.

The spending projections do not incorporate any estimate of potential new actions to control spending in the current year or future years; any potential continuation of Federal stimulus aid beyond the first quarter of 2011-12; and any costs for future collective bargaining agreements beyond the April 1, 2011 expiration of the current four-year contracts for most unions. For the first time, the forecast includes an initial estimate of the effect of national health care reform on State health care costs.

## **Receipts**

State tax receipts are projected to grow at an average annual rate of 4.3 percent from 2010-11 through 2013-14. This is consistent with a projected return to modest economic growth in the New York economy in the second half of 2010. Receipts growth is affected by the tax changes approved in the Enacted Budget, as well as in prior fiscal years, and by tax compliance and anti-fraud efforts. These factors are expected to continue to enhance expected receipt growth through 2013-14. (See "2010-11 All Funds Receipts Projections" herein for a complete summary.)

Total disbursements for 2010-11 have been restated to exclude the \$2.1 billion in school aid that was planned for March 2010 but paid in June 2010. The "payment of School Aid Deferral" line is displayed to account for the net operating impact.

The annual spending changes are affected by the expiration of Federal stimulus funding for Medicaid, school aid, and other purposes, which is expected to result in approximately \$5.4 billion in costs reverting to the State starting in 2011-12. The following table displays the impact of the direct Federal aid as it applies to major programs (by adjusting the State spending to show the annual spending change excluding the benefit of ARRA), which temporarily lowered State costs. Reported State Operating Funds are increasing by nearly 17 percent in 2011-12. When adjusted to exclude Federal ARRA direct State aid, the annual growth is approximately 9 percent. All amounts are shown on a State fiscal year basis.

| STATE OPERATING FUNDS SPENDING PROJECTIONS MAJOR PROGRAM AREAS ADJUSTED FOR IMPACT OF ARRA DIRECT FEDERAL AID |         |              |                     |                    |  |  |  |  |  |  |  |  |

#### **Grants to Local Governments**

# Medicaid (Department of Health)

The State's share of Medicaid is financed with a combination of General Fund and HCRA resources. Local governments are also required to share in the costs of the program. The Federal government is financing an additional share of Medicaid costs for October 2008 through June 30, 2011, which temporarily lowers the State's costs for the program.

| Total General Fund   | 7,425   | 13,165  | 5,740               | 77.3%              | 14,663  | 11.4%              | 15,876  | 8.3%               |  |  |  |

Medicaid growth over the plan period is affected by estimates of increasing Medicaid enrollment, rising costs of provider health care services (particularly in managed care), and higher levels of utilization, as well as the expiration of the temporarily enhanced levels of Federal aid. The number of Medicaid recipients is expected to total 4.9 million at the end of 2010-11, an increase of 5.9 percent from the 2009-10 caseload of 4.5 million.

The expiration of the enhanced FMAP share substantially increases State-funded spending for Medicaid in 2011-12. However, even after adjusting for the impact of enhanced FMAP, State spending for Medicaid is expected to grow significantly over the multi-year Financial Plan, increasing at an average annual rate of 9.6 percent, from \$15.9 billion in 2010-11 to \$20.9 billion in 2013-14. Overall Medicaid growth results, in part, from the takeover of local Medicaid costs under the cap, the combination of projected increases in service utilization, and medical care cost inflation that affects nearly all categories of service (e.g., hospitals, nursing homes), as well as rising enrollment levels.

In addition, the payment of an extra weekly cycle to providers adds an estimated \$400 million in 2011-12.

#### School Aid

School aid spending includes foundation aid; UPK; and expense-based aids such as building aid, transportation aid, and special education aids. School aid spending is supported by the General Fund, as well as lottery revenues (including VLTs). On a school year basis, school aid is projected to grow at an average annual rate of 10.5 percent, from \$21.2 billion in 2010-11 to \$28.6 billion in 2013-14.

| Gap Elimination Adjustment  | (\$1,412)           | \$0                        | \$1,412                  | -100.0%                    | \$0                        | \$0                      | \$0                        | \$0                      |  |  |  |
| Federal Education Jobs Fund   | \$607               | \$0                        | (\$607)                  | -100.0%                    | \$0                        | \$0                      | \$0                        | \$0                      |  |  |  |
| Total School Aid  | \$21,188            | \$23,710                   | \$2,522                  | 11.9%                      | \$25,920                   | \$2,210                  | \$28,580                   | \$2,660                  |  |  |  |

Growth in 2011-12 is primarily due to the elimination of the one-time gap elimination adjustment, increases in expense-based aids and the phase-in of foundation aid over a seven-year period. Growth in 2012-13 and beyond is primarily due to increases in foundation aid and UPK increases in expense-based aids such as building aid and transportation aid.

On a State fiscal-year basis, school aid spending is projected to grow on average \$2.7 billion annually from 2011-12 to 2013-14.

| General Fund Lottery Aid Guarantee   | 83                   | 0       | (83)                | -100.0%            | n/a     | n/a                | n/a     | n/a                |
| Core Lottery Aid   | 2,085                | 2,095   | 10                  | 0.5%               | 2,102   | 0.3%               | 2,109   | 0.3%               |
| VLT Lottery Aid  | 925                  | 642     | (283)               | -30.6%             | 793     | 23.5%              | 855     | 7.8%               |
| Total State Funds  | 19,798               | 22,695  | 2,897               | 14.6%              | 25,300  | 11.5%              | 27,823  | 10.0%              |

Over the multi-year Financial Plan period, revenues available to finance school aid from core lottery sales are expected to increase nominally. Revenues from VLTs in 2010-11 reflect the \$380 million one-time franchise payment received by the State in September 2010 from the sale of VLT development rights at Aqueduct. Revenues from VLTs are expected to grow in future years, augmented by the anticipated opening of a VLT facility at Aqueduct racetrack by October 2011.

#### Mental Hygiene

Mental hygiene spending (excluding capital and debt service) is projected to grow by approximately \$270 million annually (7 percent), reaching a total of \$4.3 billion in 2013-14. Sources of operating growth include: increases in the projected State share of Medicaid costs; projected expansion of the various mental hygiene service systems, including increases primarily associated with the OPWDD NYS-CARES program; the New York/New York III Supportive Housing agreement and community beds that are currently under development in the OMH pipeline, as well as additional funds for supported housing beds and associated support services pursuant to a Federal district court decision; and several chemical dependence treatment and prevention initiatives in OASAS, including treatment costs associated with recent reforms to the Rockefeller drug laws.

#### Social Services

The State share of OCFS spending is expected to grow by approximately \$200 million annually through 2013-14 primarily driven by growth in local claims-based programs. OTADA spending is projected to increase by \$559 million from \$1.2 billion in 2010-11 to \$1.7 billion by 2013-14, due to the anticipated loss of TANF Emergency Contingency Fund grants that were used to support public assistance costs that would otherwise have been paid for with State resources.

Growth in State Operations spending over the multi-year Updated Financial Plan is concentrated in agencies that operate large facilities, such as SUNY, Corrections, and the mental hygiene agencies, as well as the Judiciary. The main causes of growth include expiration of the enhanced FMAP that lowers State costs for portions of mental hygiene spending, the timing of outstanding labor agreements, inflationary increases in operating costs, and ongoing initiatives, including the civil commitment program for sexual offenders, and medical and pharmacy costs in the areas of mental hygiene and corrections.

#### **Personal Service**

Personal service spending includes wages and compensation for overtime, holiday and temporary services. It does not include fringe benefits, which are accounted for under General State Charges. Personal service spending increases reflect the impact of settled labor contracts, salary adjustments for performance advances, longevity payments and promotions. Growth in personal service is affected by the expiration of enhanced FMAP, which temporarily reduced the State-share costs of operating the mental hygiene system; increased spending in SUNY hospitals due to SUNY Downstate Medical Center's acquisition of Long Island College Hospital; the costs of improved care and treatment for inmates with mental illness; and anticipated needs for Office of Court Administration.

#### **Non-Personal Service**

Non-personal service spending represents the costs of operations other than employee wages and benefits. It includes utilities, rent, equipment, supplies and materials, telecommunications, information technology, travel, training, medical supplies, prescription drugs, and certain contractual obligations. Spending is expected to grow by an average of 3 percent annually through 2013-14, and is concentrated in agencies that operate large facilities.

Significant cost increases are expected for food, prescription drugs, and energy costs in State facilities (including prisons, youth facilities, and mental hygiene facilities); increased spending in SUNY hospitals due to SUNY Downstate Medical Center's acquisition of Long Island College Hospital; costs for developing the new Statewide Financial System; and targeted initiatives including increasing staff-to-youth ratios and improving mental health services for youth residing in State-operated juvenile justice facilities.

#### **General State Charges**

GSCs account for the costs of fringe benefits provided to State employees and retirees of the Executive, Legislative and Judicial branches, as well as for certain fixed costs. GSCs are projected to grow at an average annual rate of 10.1 percent from 2010-11 through 2013-14. The growth is mainly due to anticipated cost increases in pensions and health insurance for active and retired State employees.

The State's 2010-11 ERS pension contribution rate as a percentage of salary is expected to grow from 12.1 percent in 2010-11 to 23.5 percent in 2013-14. The PFRS pension contribution rate is expected to be 18.3 percent in 2010-11, and is projected to grow to 31.4 percent by 2013-14.

The Enacted Budget Financial Plan permits local governments and the State to amortize a portion of their pension costs beginning in 2010-11. Specifically, pension contribution costs in excess of the amortization thresholds, which are 9.5 percent for ERS and 17.5 percent for PFRS in 2010-11, may be amortized. The authorizing legislation also permits amortization in all future years if the actuarial contribution rate is greater than the amortization threshold, which may increase or decrease by no more than one percentage point for each year. Repayment of the amortized amounts will be made over a tenyear period at an interest rate to be determined by the State Comptroller. For 2010-11 amortizations, the Comptroller has set the interest rate at 5 percent. For planning purposes, the Financial Plan assumes that the State will amortize pension costs, consistent with the provisions of the authorizing legislation. The amounts assumed to be amortized over the Financial Plan period total \$242 million in 2010-11, \$552 million in 2011-12, \$755 million in 2012-13, and \$1.0 billion in 2013-14.

Beginning in 2011-12, pension costs also include the State's payment for the retirement incentives approved in the fall 2010. The Financial Plan currently assumes an annual State payment of \$70 million, beginning in 2011-12.

Spending for employee and retiree health insurance costs is expected to grow at a consistently high rate through 2013-14, with annual growth reflecting an annual premium increase of approximately 7 percent. See discussion of the GASB Statement 45 later in this AIS Update for the valuation of future State health insurance costs for State employees.

#### **Transfers to Other Funds (General Fund Basis)**

General Fund transfers help finance certain capital activities, the State's share of Medicaid costs for State-operated mental hygiene facilities, debt service for bonds that do not have dedicated revenues, and a range of other activities.

A significant portion of the capital and operating expenses of DMV are funded from DHBTF. The Fund receives dedicated tax and fee revenue from the Petroleum Business Tax, the Motor Fuel Tax, the Auto Rental Tax, highway use taxes, transmission taxes and motor vehicle fees administered by DMV. The Financial Plan includes transfers from the General Fund that effectively subsidize the expenses of the DHBTF. The subsidy is required because the cumulative expenses of the fund – capital and operating expenses of DOT and DMV, debt service on DHBTF bonds and transfers for debt service on bonds that fund CHIPs and local transportation programs – exceed current and projected revenue deposits and bond proceeds.

| All Other  | 74      | 75      | 1                   | 80      | 5                   | 78      | (2)                 |

Transfers to other funds are expected to total \$6.8 billion in 2011-12, an annual increase of over \$1 billion, or 18.2 percent. This increase is mainly due to higher costs related to the State share of Medicaid costs for mental hygiene services, capital projects and debt service.

Support for capital projects is expected to increase by over 35 percent in 2011-12 mainly for economic development projects, statewide technology initiatives, and capital project activity for SUNY, CUNY and Corrections.

Increases in all other transfers reflect the need to supplement resources available for the mental hygiene system and to fund the development of the State's new financial management system.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]

#### **Debt Service**

The following tables summarize State debt levels and debt service spending. The changes since the AIS in debt outstanding, debt issuances, and debt service costs detailed below include accelerated bonding in 2010-11 for AMD, the Aqueduct VLT facility, mental health facilities, and SUNY Dormitories, as offset by reductions in bonding for transportation purposes, as well as other education and economic development activities.

Also reflected in the estimates below is \$143 million in 2010-11 debt service savings, of which \$112 million has been achieved. This primarily results from bond refinancings, the use of Build America Bonds (BABs, as authorized by the Federal Government under ARRA), the termination of excluded agreement swaps, and other reestimates.

#### **Statutory Debt Limitations**

#### **Debt Reform Act**

The Debt Reform Act of 2000 imposed statutory limitations which restricted the issuance of State-supported debt to capital purposes and established a maximum term of 30 years for such debt. The statute also imposed phased-in caps that will ultimately limit the amount of new State-supported debt to 4 percent of State personal income, and new State-supported debt service costs to 5 percent of All Funds receipts. The restrictions apply to all new State-supported debt issued on and after April 1, 2000. The cap on debt outstanding is fully phased-in during 2010-11, while the cap on debt service costs is expected to be fully phased-in during 2013-14.

The statute requires that the limitations on the amount of State-supported debt and debt service costs be calculated by October 31 of each year and reported in the October Update to the State's Financial Plan and are set forth below. If the actual amount of new State-supported debt outstanding and debt service costs for the prior fiscal year (2009-10) are below the caps at this time, State-supported debt may continue to be issued. However, if either the debt outstanding or the debt service cap is met or exceeded, the State would be precluded from issuing new State-supported debt until the next annual cap calculation is made and debt is found to be within the applicable limitations.

For the 2009-10 fiscal year, the cumulative debt outstanding and debt service caps are 3.98 percent each. As shown in the table below, the actual levels of debt outstanding and debt service costs continue to remain below the statutory caps. From April 1, 2000 through March 31, 2010 the State issued new debt resulting in \$29.9 billion of debt outstanding applicable to the debt reform cap. This is approximately \$6.3 billion below the statutory debt outstanding limitation. In addition, the debt service costs on this new debt totaled \$2.4 billion in 2009-10 – or roughly \$2.7 billion below the statutory debt service limitation.

| Debt Outstanding Cap (millions of dollars) |           |
|--|-----------|
| New Debt Outstanding                       | \$29,883  |
| Personal Income (Current Year 2009)        | \$907,886 |
| Debt Outstanding (Percent of Per. Income)  | 3.29%     |
| Cap Imposed by Debt Reform Act             | 3.98%     |

| Debt Service Cap<br>(millions of dollars)      |           |
|--|-----------|
| New Debt Service                               | \$2,359   |
| Governmental Funds Receipts                    | \$126,748 |
| Debt Service (Percent of Govt'l Fund Receipts) | 1.86%     |
| Cap Imposed by Debt Reform Act                 | 3.98%     |

Current projections estimate that debt outstanding and debt service costs will continue to remain below the limits imposed by the Act throughout the next several years. However, the State is continuing through a period of declining debt capacity. In part, declines in debt capacity are a product of reduced forecasts for personal income levels resulting from ongoing recessionary factors. Based on the most recent personal income and debt outstanding forecasts, the available room under the debt outstanding cap is expected to decline from \$4.2 billion in 2010-11 to only \$1.8 billion in 2012-13. Measures to further adjust capital spending and debt financing practices are expected to be taken as needed to stay within the statutory limitations.

# **Year-to-Date Operating Results**

#### **General Fund**

Through September 30, 2010, General Fund receipts, including transfers from other funds, totaled \$25.5 billion, \$485 million below the estimate in the Enacted Budget Financial Plan. General Fund disbursements, including transfers to other funds, totaled \$25.4 billion, \$390 million below the Enacted Budget Financial Plan. The General Fund ended September 2010 with a closing balance of \$2.4 billion, \$95 million lower than planned. Based in part on the operating results to date, DOB has revised the annual estimates for receipts and disbursements in this Updated Financial Plan. The following table compares planned and actual results through September 30, 2010.

| GENERAL FUND RESULTS: APRIL to SEPTEMBER 2010<br>(millions of dollars) |                |         |   |   |  |  |
|--|----------------|---------|---|---|--|--|

Through September 2010, General Fund tax receipts, including transfers after debt service, were \$510 million below the Enacted Budget Financial Plan estimate. Collections for all three major tax categories, personal income taxes, user taxes, and business taxes, fell below expectations. The personal income tax and user tax results are expected to result in lower annual collections. Collections for business taxes to date have been adversely affected by the timing of audits. Business tax collections are expected to recover over the remaining months of the fiscal year. Receipts from non-tax sources, including legal recoveries, exceeded planned levels.

Actual disbursements were \$390 million below planned levels through September 2010. The variance to date reflects, in part, slower than anticipated processing of payments following enactment of the budget for 2010-11 and implementation of the FMAP contingency plan. The annual estimate for disbursements has been revised upward based on trends in Medicaid and State Operations.

- Medicaid spending continues to exceed planned levels in nearly all categories of service, and enrollment in the program is growing even faster than expected. DOB has increased the annual estimate for Medicaid spending based in part on operating results to date.
- All other education spending to date has been affected by the processing of special education claims by SED. Claims for the year are still expected to remain within budgeted levels.
- Children and Families spending has been lower to date due to a combination of processing delays and claiming patterns. The annual spending estimate has been lowered.
- Lower school aid spending reflects, in part, the impact of FMAP contingency reductions on disbursements.
- State Operations spending is exceeding planned levels through the second quarter. Constraints affecting implementation of statewide agency reductions are expected to result in higher personal service costs in 2010-11 than previously anticipated.
- Other spending has been affected by the FMAP contingency reductions, payment processing, and other factors that are not expected to materially affect annual estimates.

# **General Fund Annual Change (Through September)**

Receipts through September 2010 were \$319 million, or 1.3 percent, higher than the same period in 2009 largely due to the increased collections in the personal income tax (\$670 million), user taxes and fees (\$277 million), and other taxes (\$252 million). Business tax collections fell \$324 million, largely the result of 2009 legislation which increased the March 2010 prepayment from 30 percent to 40 percent of liability; non-tax receipts are down \$556 million primarily due to the timing of 18-A assessment payments.

Disbursements through September 2010 were \$724 million, or 3.0 percent higher than for the same period in 2009. Growth is primarily due to the payment of the \$2.06 billion end-of-school year payment in June 2010 instead of March 2010. Other sources of annual growth were driven by an additional Medicaid cycle through September 2010 compared to the same period in the prior year, and the timing of Medicaid offsets from HCRA during this period (\$252 million). These increases are partially offset by lower spending in most areas of the budget.

#### **All Governmental Funds Operating Results**

| SPENDING RESULTS: APRIL to SEPTEMBER 2010<br>(millions of dollars) |                |         |   |   |  |  |
|--|----------------|---------|---|---|--|--|
|  | Enacted Budget | Results | Favorable/<br>(Unfavorable)<br>vs. Plan | Increase/<br>(Decrease)<br>from Prior<br>Year |  |  |
| State Operating Funds  | 36,929         | 36,721  | 208                                     | 820   |  |  |
| General Fund (excl. transfers)                                     | 23,184         | 22,817  | 367                                     | 710   |  |  |
| Other State Funds  | 11,491         | 11,676  | (185)                                   | (136)   |  |  |
| Debt Service Funds   | 2,254          | 2,228   | 26                                      | 246   |  |  |
| All Governmental Funds   | 63,544         | 63,424  | 120                                     | 3,790   |  |  |
| State Operating Funds  | 36,929         | 36,721  | 208                                     | 820   |  |  |
| Capital Projects Funds   | 3,651          | 3,611   | 40                                      | 225   |  |  |
| Federal Operating Funds  | 22,964         | 23,091  | (127)                                   | 2,742   |  |  |

State Operating Funds disbursements were \$208 million below the Enacted Budget Financial Plan forecast and include the General Fund variances described above. The higher spending in other State funds is largely driven by earlier than expected payments related to industry assessments (\$166 million).

Capital Projects spending was below the Enacted Budget Financial Plan estimates primarily due to slower than anticipated spending on economic development projects (\$69 million), Higher Education (\$60 million), and Transportation (\$25 million).

Federal Operating Funds spending exceeded projections due to timing-related variances in social service, mental hygiene and education.

#### **Economic Outlook**

## The National Economy

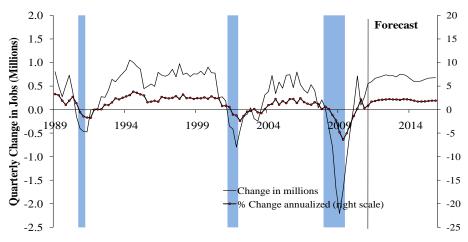

The slowdown anticipated in DOB's Enacted Budget Financial Plan forecast appears to be extending well into the fourth quarter of 2010. With a labor market recovery just getting underway, a shock emanating from euro-zone sovereign debt markets caused the nation's already fragile credit markets to tighten further, all against a backdrop of ongoing household deleveraging. Equity market prices, as represented by the S&P 500, fell 16 percent between late April and early July and virtually stagnated for the remainder of the summer. Whether acting as a bellwether for the condition of the real economy or operating via a negative wealth effect, the equity market decline coincided with a deceleration in both household spending and labor market growth. Real U.S. GDP growth fell from 3.7 percent in the first quarter of 2010 to 1.7 percent in the second quarter, and is estimated to remain there for the entire second half of the year. The national economy, as measured by real U.S. GDP, is now projected to grow 2.6 percent in 2010, followed by downwardly revised growth of 2.6 percent for 2011.

As distance from the expiration of the Federal homebuyers' credit increases, the residential housing market's intrinsic weakness has become increasingly apparent. DOB now expects a double-digit decline in residential fixed investment for the third quarter and a further decline in the fourth quarter, rather than the modest growth anticipated in August. Moreover, after a brief rally in the spring before the expiration of the credit, home prices have weakened again, though they remain slightly above their year-ago levels. Consequently, DOB has lowered its projection for private residential fixed investment to a decline of 2.4 percent for 2010, followed by growth of 4.1 percent for 2011.

The housing market's persistent weakness represents yet another temporary setback for the nation's labor market, depressing not only the demand for construction workers and building supplies, but also the demand for home appliances and other consumer durables. The softening of aggregate demand during the late spring and summer as the housing market cooled and equity markets languished coincided with a downshift in net private sector job growth, which averaged only 77,000 over the five months from May through September; this was down from an average of 200,000 for the prior two months.

An examination of the recent data provides little indication that a substantial ramp-up in hiring is imminent. Weekly initial claims for unemployment insurance benefits have remained stubbornly near or above 450,000 since the beginning of the year, although Census worker layoffs and the Federal extended benefits program may be distorting this series' value as a leading signal. Additional indicators such as growth in average workweek length and the hiring of temporary workers produce very little evidence of accelerating job growth. Therefore, DOB has revised down its near-term labor market outlook, with monthly job gains not expected to return to 200,000 until the middle of 2011, coinciding with a strengthening of domestic demand. An employment decline of 0.6 percent on an annual average basis is now projected for 2010, followed by growth of 1.1 percent for 2011. The unemployment rate projection for 2011 has been revised up to 9.4 percent, but remains unchanged at 9.7 percent for 2010.

The Nation's Labor Market Recovery Will Take Years

Note: Shaded areas represent U.S. recessions. Source: Moody's Economy.com; DOB staff estimates.

U.S. corporate profits experienced strong quarterly growth in 2009 and the first quarter of 2010, led largely by financial corporations. Though financial sector profits fell substantially in the second quarter, and likely fell again in the third, corporate profits overall were stronger than anticipated in the second quarter, led by nonfinancial corporations. Although domestic demand has been generally weak, U.S. nonfinancial firms exporting to emerging markets, particularly in Asia and Latin America, have experienced strong earnings growth, which combined with weak hiring domestically, has buttressed profits. U.S. corporate profits, including the inventory valuation and capital consumption adjustments are now projected to rise a strong 27.9 percent in 2010, followed by 5.8 percent growth for 2011. After a strong September and October, equity markets are expected to resume a slow but steady recovery from the spring's tumult. The resulting boost to both household financial wealth and the confidence that the recovery is back on track should help buttress household spending going forward.

The weaker outlook for employment, combined with downward revisions to wages and some of the other components of personal income, have resulted in a weaker outlook for income growth. U.S. personal income growth of 3.1 percent is now projected for 2010, followed by growth of 3.3 percent for 2011. With the weak pace of the recovery continuing to keep price growth outside of the volatile food and energy sectors at bay, the Federal Reserve is almost certain to embark upon a further round of quantitative easing following the early November meeting of Federal Open Market Committee. This action is expected to keep long-term interest rates low for the near-term. Although record low mortgage rates have failed to spur home sales, they do appear to have generated a strong wave of refinancings as homeowners strive to reduce their debt loads. That relief is also expected to support stronger consumption growth going forward, with real quarterly consumption growth expected to exceed 3 percent for most of 2011. The central bank's interest rate policy target is like to remain between zero and 0.25 percent until the third quarter of 2011.

While the current outlook calls for continued weak growth for the remainder of 2010, support from continued low interest rates, a gradually rising stock market, and continued global growth should bolster consumer spending going into 2011. Healthy corporate earnings, particularly for export oriented firms are expected to return equity markets to a modestly upward path, accompanied by slow but steady employment and income growth. However, there are significant risks to this forecast. Although credit markets have improved substantially since a year ago, households and small businesses continue to have difficulty borrowing and credit continues to contract. The banking system remains fragile and vulnerable to negative shocks. If the labor market recovery should stumble further, household spending growth could be even lower than projected. Although the recent weakening of the U.S. dollar should support continued growth in U.S. exports, threats of currency wars add to global instability. A portion of Federal stimulus spending remains in the pipeline and has supported some job creation in the nonresidential construction sector. But if Federal support for the economy should cease before the private sector has gathered sufficient strength, already struggling state and local governments would have to tighten their belts yet more.

# **New York State Economy**

The New York State economy appears to have emerged from recession during the first quarter of 2010, and like the nation, experienced a solid first quarter. Strong finance and insurance sector profits for 2009 resulted in a pick-up in securities industry bonuses in the first quarter, with some spillover into the second quarter as well. However, as anticipated in the Enacted Budget forecast, the State was not immune from the loss of momentum that plagued the nation during the spring and summer. The State Labor Department estimates that private sector employment fell during three of the five months from May through September 2010. Since these losses were in line with expectations, DOB's forecast for a decline in State employment of 0.3 percent for 2010 remains virtually unchanged. Growth for 2011 has been revised down slightly to 0.8 percent. Private sector jobs are projected to fall 0.4 percent for 2010 and grow 1.2 percent in 2011, again virtually unchanged from the Enacted Budget forecast. With financial markets taking longer to recover from the spring and summer's volatility than anticipated, DOB has revised down its forecast for State wage growth to 4.5 percent for 2010 and 2.9 percent for 2011.

Under current law, the Federal income tax cuts implemented in 2001 and 2003 are scheduled to expire on December 31, 2010, at which point ordinary income tax rates and the rate on capital gains realizations are slated to rise, and dividend income is to return to being taxed as ordinary income. DOB's forecast is predicated on the assumption that high-income taxpayers will behave strategically and shift bonus, dividend, and capital gains realizations income into 2010 to take advantage of the lower rates. That behavior is estimated to result in a significant increase in taxable income for the current tax year.

Consequently, the possibility that the Congress may decide to extend the lower rates represents a risk to the forecast. For example, if marginal tax rates on ordinary income remain constant, and no shifting of bonus income occurs, then New York State wages are projected to rise only 3.6 percent in 2010 and 4.8 percent in 2011.

All of the risks to the U.S. forecast apply to the State forecast as well, although as the nation's financial capital, credit and equity market volatility pose a particularly large degree of uncertainty for New York. The impact of the Federal financial reform package on the profitability of the State's finance industry is as yet unknown and consequently represents a major risk to DOB's forecast for bonuses and income going forward. Lower bonuses than projected reduce a major segment of income subject to tax as well as cut the level of economic activity generated by the spending of those wages. Similarly, should equity markets fail to grow as anticipated, both financial sector income and taxable capital gains realizations could be negatively affected. These effects would ripple through the State economy, depressing both employment and wage growth. An even weaker labor market than projected could also result in lower wages, which in turn could result in weaker household consumption. In contrast, stronger national and world economic growth, or a stronger upturn in stock prices, along with even stronger activity in mergers and acquisitions and other Wall Street activities, could result in higher wage and bonuses growth than projected.

# **All Funds Receipts Projections**

Financial Plan receipts comprise a variety of taxes, fees, and charges for State-provided services, Federal grants, and other miscellaneous receipts. The receipts estimates and projections have been prepared by DOB with the assistance of the Department of Taxation and Finance and other agencies responsible for the collection of State receipts.

2010-11 All Funds Receipts Overview

| Taxes                                | 57,668            | 61,453               | 3,785               | 6.6%               | 65,516               | 4,063               | 6.6%               |  |  |
| Miscellaneous Receipts               | 23,557            | 23,218               | (339)               | -1.4%              | 22,871               | (347)               | -1.5%              |  |  |
| Federal Grants                       | 45,523            | 50,565               | 5,042               | 11.1%              | 46,280               | (4,285)             | -8.5%              |  |  |

The total All Funds receipts estimate of \$135.2 billion represents an increase of nearly \$8.5 billion (6.7 percent) above 2009-10 results. This growth is comprised of increases in Federal grants of \$5.0 billion (11.1 percent) and taxes of nearly \$3.8 billion (6.6 percent), which is slightly offset by decreases in miscellaneous receipts of \$339 million (1.4 percent).

Total State Funds receipts are estimated at \$84.6 billion, an expected increase of \$3.5 billion (4.3 percent) from 2009-10 actual results. State Funds taxes are estimated to increase by nearly \$3.8 billion (6.6 percent).

Total General Fund receipts, including transfers, are estimated at nearly \$54.5 billion, an increase of nearly \$2.0 billion (3.7 percent) from 2009-10 results. The annual increase in General Fund tax receipts is estimated at 7.3 percent. General Fund miscellaneous receipts are estimated to decrease by 26.4 percent from 2009-10 results, primarily due to the loss of one-time revenues such as payments from the Power Authority of the State of New York ("PASNY"), and the timing of payments from public utility companies made pursuant to § 18a of the Public Service Law.

After controlling for the impact of Tax Law changes, base tax revenue is estimated to increase by 2.3 percent for fiscal year 2010-11.

#### Fiscal Year 2011-12 Overview

Total All Funds receipts are expected to reach nearly \$134.7 billion, a decrease of \$569 million (0.4 percent) from 2010-11 estimated receipts. All Funds tax receipts are projected to increase by nearly \$4.1 billion (6.6 percent). All Funds Federal grants are expected to decrease by nearly \$4.3 billion (8.5 percent). All Funds miscellaneous receipts are projected to decrease by \$347 million (1.5 percent) over the prior year.

Total State Funds receipts are projected to be nearly \$88.4 billion, an increase of close to \$3.8 billion (4.5 percent) from 2010-11 estimated receipts.

Total General Fund receipts (including transfers from other funds) are projected to be nearly \$57.1 billion, an increase of over \$2.5 billion (4.7 percent) from 2010-11 estimated receipts. General Fund tax receipts are projected to increase by 7.1 percent from 2010-11 estimates, and General Fund miscellaneous receipts are projected to decrease by 1.4 percent.

After controlling for the impact of policy changes, base tax revenue is expected to grow by 8.1 percent for fiscal year 2011-12.

| Federal Grants  | 49,486            | 50,565             | 1,079        | 2.2%        | 44,904            | 46,280             | 1,376        | 3.1%        |  |

All Funds receipts estimates for the current fiscal year have been revised upward slightly from the Enacted Budget Financial Plan. Current year All Funds tax receipt estimates have been lowered by \$343 million since the Enacted Budget Financial Plan due to reductions in personal income and user taxes partially offset by increases in business and other taxes. The decrease in personal income and user taxes represent lower expected estimated payments and consumer spending, respectively, than previously anticipated. The increase in business and other taxes is the result of better than expected estimated payments from banks, and real estate sector performance, respectively. Miscellaneous receipts have been revised upward by \$204 million, while Federal grants have been revised up by nearly \$1.1 billion.

General Fund receipts for fiscal year 2010-11 have been revised down by \$267 million from the Enacted Budget Financial Plan, reflecting a \$232 million reduction in taxes and a \$35 million reduction in miscellaneous receipts.

The economic forecast calls for a gradual acceleration of the recovery in employment and wages that commenced earlier in the current fiscal year. This increases the economic base on which the outyear revenue forecast is built. Overall, receipts growth in the three fiscal years following 2011-12 is expected to grow consistently with the projected moderate growth in both the U.S. and New York economies.

All Funds tax receipts in 2012-13 are projected to reach nearly \$66.4 billion, an increase of \$838 million (1.3 percent) from 2011-12. All Funds tax receipts in 2013-14 are expected to increase by \$3.3 billion (5.0 percent) over the prior year. General Fund tax receipts are projected to reach \$42.8 billion in 2012-13 and \$45.0 billion in 2013-14.

#### **Revenue Risks**

- DOB's forecast calls for the continuation of New York's economic recovery. Should the speed or magnitude of this recovery be inconsistent with the current forecast, revenue collections could be affected.
- Although real estate transfer tax receipts outperformed the year-to-date Enacted Budget Financial Plan estimate, recent disclosures concerning foreclosure practices by certain banks and stricter lending policies provide risk to the estimate.
- Personal income tax estimated payments grew 9.2 percent during the first half of 2010-11 from
  the same period one year ago, but fell \$100 million short of the Enacted Budget Financial Plan for
  this period. This represents a risk for the remainder of the fiscal year as a significant portion of
  estimated payments is due during December and January.
- Personal income tax receipts will be affected by how employers and high-income taxpayers respond to the scheduled expiration of lower Federal tax rates on high incomes, capital gains, and dividends at the end of tax year 2010.
- New York's statute to enforce the cigarette tax on Native American sales to non-tribal members is now in litigation in Federal court, preventing the State from collecting the tax. Absent a favorable decision, \$130 million in annual outyear collections are at risk.
- A disproportionately large share of audit and compliance receipts is expected during the second half of the current fiscal year. This represents a risk to the Updated Financial Plan during this period.

#### GAAP-Basis Financial Plans/GASB Statement 45

The State Budget is required to be balanced on a cash basis, which is DOB's primary focus in preparing and implementing the State Financial Plan. State Finance Law also requires the Financial Plan be presented for informational purposes on a GAAP basis. The pro forma GAAP-basis plans model, to the extent practicable, the accounting principles applied by OSC in preparation of the annual Financial Statements. Tables comparing the cash basis and GAAP basis General Fund Financial Plans are provided later in this AIS Update.

In 2010-11, the General Fund GAAP Financial Plan shows total revenues of \$46.2 billion, total expenditures of \$55.8 billion, and net other financing sources of \$9.5 billion, resulting in an operating deficit of \$80 million, which increases the projected accumulated deficit to \$3.6 billion. These results reflect the net impact of the Enacted Budget Financial Plan gap-closing actions, and the carry-forward of the cash shortfall into 2010-11.

#### **Other Post-Employment Benefits**

Substantially all of the State's employees may become eligible for post retirement benefits if they reach retirement while working for the State. In accordance with GASB Statement 45, the State must perform an actuarial valuation every two years for purposes of calculating OPEB liabilities. As disclosed in note 13 of the Basic Financial Statements for fiscal year 2009-10, the annual required contribution ("ARC") represents the annual level of funding that, if set aside on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded liabilities of the plan over a period not to exceed thirty years. Amounts required but not actually set aside to pay for these benefits are accumulated with interest as part of the net OPEB obligation, after adjusting for amounts previously required.

As reported in the State's Basic Financial Statements for 2009-10, an actuarial valuation of OPEB liabilities was performed as of April 1, 2008 with results projected to April 1, 2009 for the fiscal year ended March 31, 2010. The valuation calculated the present value of the actuarial accrued total liability for benefits as of March 31, 2010 at \$55.9 billion (\$46.3 billion for the State and \$9.6 billion for SUNY), determined using the Frozen Entry Age actuarial cost method, and is amortized over an open period of 30 years using the level percentage of projected payroll amortization method.

The net OPEB liability for 2009-10 totaled \$3.3 billion (\$2.7 billion for the State and \$0.6 billion for SUNY) under the Frozen Entry Age actuarial cost method, allocating costs on a level basis over earnings. This was \$2.1 billion (\$1.7 billion for the State and \$0.4 billion for SUNY) above the payments for retiree costs made by the State in 2009-10. This difference between the State's PAYGO costs and the actuarially determined required annual contribution under GASBS 45 reduced the State's currently positive net asset condition at the end of 2009-10 by \$2.1 billion.

The State's actuarial consultant has provided an updated calculation of the ARC and annual OPEB costs. The updated calculation will ultimately be reflected in the financial statements for the State and SUNY for fiscal year 2010-11. The updated calculation shows the present value of the actuarial accrued total liability for benefits at \$60.2 billion (\$50.1 billion for the State and \$10.1 billion for SUNY).

GASB does not require the additional costs to be funded on the State's budgetary basis, and no funding is assumed for this purpose in the Updated Financial Plan. On a budgetary (cash) basis, the State continues to finance these costs, along with all other employee health care expenses, on a PAYGO basis. The following table summarizes the actual and budgeted payments for health insurance in the Updated Financial Plan.

| FORECAST OF NEW YORK STATE EMPLOYEE HEALTH INSURANCE COSTS (millions of dollars)   |       |       |       |  |  |  |  |
|--|-------|-------|-------|--|--|--|--|
| Health Insurance   |       |       |       |  |  |  |  |
| Active Year Employees Retirees Total State   |       |       |       |  |  |  |  |
| 2007-08 (Actual)   | 1,390 | 1,182 | 2,572 |  |  |  |  |
| 2008-09 (Actual)   | 1,639 | 1,068 | 2,707 |  |  |  |  |
| 2009-10 (Actual)   | 1,609 | 1,072 | 2,681 |  |  |  |  |
| 2010-11 (Projected)  | 1,838 | 1,223 | 3,061 |  |  |  |  |
| 2011-12 (Projected)  | 2,034 | 1,355 | 3,389 |  |  |  |  |
| 2012-13 (Projected)  | 2,244 | 1,493 | 3,737 |  |  |  |  |
| 2013-14 (Projected)  | 2,470 | 1,643 | 4,113 |  |  |  |  |
|  |       |       |       |  |  |  |  |
| All numbers reflect the cost of health insurance for GSCs (Executive and Legislative branches) and the Office of Court Administration. |       |       |       |  |  |  |  |

DOB's detailed GAAP Financial Plans for 2010-11 through 2013-14 are provided in the Financial Plan tables at the end of this Update.

As noted, there is no provision in the Updated Financial Plan to pre-fund the GASB 45 liability. If such liability were pre-funded at this time, the additional cost above the PAYGO amounts would be lowered. The State's Health Insurance Council, which consists of GOER, Civil Service, and DOB, will continue to review this matter and seek input from the State Comptroller, the legislative fiscal committees and other outside parties. However, it is not expected that the State will alter its planned funding practices in light of existing fiscal conditions.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]

## Special Considerations\_

The Updated Financial Plan forecast is subject to many complex economic, social, financial, and political risks and uncertainties, many of which are outside the ability of the State to control. DOB believes that the projections of receipts and disbursements in the Financial Plan are based on reasonable assumptions, but there can be no assurance that actual results will not differ materially and adversely from the Updated Financial Plan projections. In recent fiscal years, actual receipts collections have fallen substantially below the levels forecast in the Financial Plan. In response, the State has, among other things, made substantial reductions in planned spending. In 2009-10, the Enacted Budget Financial Plan authorized over \$6 billion in reductions from planned spending. In 2010-11, the Enacted Budget Financial Plan includes over \$6.3 billion in reductions from planned spending. In addition, the State has imposed substantial reductions in planned spending by State agencies during each of the last three fiscal years. However, large budget gaps are still projected for future years.

The Updated Financial Plan is based on numerous assumptions, including the performance of the national and State economies and the concomitant receipt of economically sensitive tax revenues in the amounts projected. Other uncertainties and risks concerning the economic and receipts forecast include the impact of Federal statutory and regulatory changes concerning financial sector activities; the impact of Federal tax law changes; the impact of behavioral changes concerning financial sector bonus payouts, as well as any future legislation governing the structure of compensation; the impact of an anticipated shift in monetary policy actions on interest rates and the financial markets; the impact of financial and real estate market developments on bonus income and capital gains realizations; and the impact of household deleveraging on consumer spending and the impact of that activity on State tax collections.

Other risks include increased demand in entitlement-based and claims-based programs such as Medicaid, public assistance and general public health, above the levels anticipated in the Updated Financial Plan; potential disruptions in the municipal bond market that could affect the timing of State bond sales; and litigation against the State, including, but not limited to, potential challenges to the constitutionality of actions authorized in the budget and the outcome of a class action suit alleging discrimination in the administration of a civil service test between 1996 and 2006.

The Updated Financial Plan may be adversely affected by actions taken by the Federal government, including audits, disallowances, changes in aid levels, and changes to Medicaid rules. For example, all Medicaid claims are subject to audit and review by the Federal government. Most recently, the Federal CMS requested additional information pertaining to claims for services provided to individuals in developmental centers operated by OPWDD. Among other information, CMS requested that the State provide a detailed description of how these daily rates are developed as well as the current upper payment limit demonstration. Although no official audit has commenced and the rates paid for these services are established in accordance with the methodology set forth in the approved State Plan, adverse action by CMS relative to these claims could jeopardize a significant amount of Federal financial participation in the Medicaid program.

There can be no assurance that the budget gaps in the current year or future years will not increase materially from current projections. If this were to occur, the State would be required to take additional gap-closing actions beyond those described in this update. These may include, but are not limited to, additional reductions in State agency operations; suspension of capital maintenance and construction; extraordinary financing of operating expenses; or other measures. In nearly all cases, the ability of the State to implement these actions requires the approval of the Legislature or other entities outside of the control of the Executive.

The Updated Financial Plan forecast contains specific transaction risks and other uncertainties including, but not limited to, the receipt of certain payments from public authorities; the receipt of miscellaneous revenues at the levels expected in the Updated Financial Plan; and the achievement of cost-saving measures including, but not limited to, administrative savings in State agencies, including workforce management initiatives, and the transfer of available fund balances to the General Fund at the levels currently projected. Such risks and uncertainties, if they were to materialize, could have an adverse impact on the Updated Financial Plan in the current year.

An additional risk is the cost of potential collective bargaining agreements and salary increases for judges (and possibly other elected officials) that may occur in 2010-11 and beyond, for the period covering 2007-08 through 2010-11. The current round of collective bargaining agreements expire at the end of 2010-11. The Updated Financial Plan does not include any costs for potential wage increases beyond that point.

For the first time, the Updated Financial Plan includes an initial estimate of potential effects resulting from Federal Health Care Reform Legislation enacted in 2010. Starting in 2010-11 and annually thereafter, these include the loss of State pharmacy rebate revenues resulting from a Federal increase in its share of rebates on drug manufactures. In 2013-14, the State estimates a net benefit associated with expanded Medicaid benefits to newly eligible populations and an enhanced Federal matching rate for certain existing populations beginning January 2014.

#### **Recent Operating Results and Cash Position**

The State's cash position continues to be a substantial concern. General Fund operating results through September 2010 were marginally unfavorable compared to the Enacted Budget Financial Plan projections, and DOB now estimates a potential budget gap of \$315 million in the current fiscal year. (See "Year-to-Date Operating Results" herein.)

The 2009-10 Enacted Budget provided permanent authorization for the General Fund to borrow resources temporarily from other funds in the State's STIP for a period not to exceed four months or to the end of the fiscal year, whichever is shorter. Through the first six months of 2010-11, the General Fund used this authorization to meet payment obligations at times in May, June, July, and September 2010, and ended the month of June 2010 with a negative \$87 million balance. During certain months of the fiscal year, there may be substantial swings in the level of the General Fund's daily balance due to the timing of when the State's General Fund realizes receipts, and when the State's payment obligations are required to be met. For example, while the State ended the month of June with a temporary STIP loan balance of \$87 million, the State's General Fund had temporarily borrowed \$1.1 billion from STIP at its lowest point during that month. Similarly, while the State ended the month of September with a positive General Fund balance of \$2.4 billion, the State's General Fund temporarily borrowed \$1.5 billion from STIP at its lowest point during September.

DOB expects that the General Fund will continue to rely on this temporary borrowing authority at times during the remainder of the fiscal year, with low balances expected during November and December 2010. However, the current cashflow forecast projects that the General Fund will end each month with a positive balance.

| ACTUAL/PROJECTED MONTHLY CASH FLOW BALANCES FISCAL YEAR 2010-11 (millions of dollars) |                   |       |       |  |  |
|---|-------------------|-------|-------|--|--|
|   | General Other All |       |       |  |  |
| _   | Fund              | Funds | Funds |  |  |
| April   | 4,274             | 3,048 | 7,322 |  |  |
| Мау   | 1,648             | 3,767 | 5,415 |  |  |
| June  | (87)              | 3,719 | 3,632 |  |  |
| July  | 590               | 4,354 | 4,944 |  |  |
| August  | 528               | 4,462 | 4,990 |  |  |
| September   | 2,381             | 2,649 | 5,030 |  |  |
| October (prelim.)   | 2,071             | 3,700 | 5,771 |  |  |
| November (est.)   | 803               | 3,318 | 4,121 |  |  |
| December (est.)   | 864               | 1,575 | 2,439 |  |  |
| January (est.)  | 5,545             | 2,424 | 7,969 |  |  |
| February (est.)   | 5,794             | 2,350 | 8,144 |  |  |
| March (est.)  | 1,385             | 2,191 | 3,576 |  |  |

The amount of resources that can be borrowed by the General Fund is limited to the available balances in STIP, as determined by the State Comptroller (available balances include money in the State's governmental funds, as well as certain other money). The available balances on hand in STIP have declined compared to recent years.

DOB will continue to closely monitor and manage the State's liquidity position during the fiscal year, which may include temporarily reducing planned payments, and will continue to reserve money in advance of the upcoming quarter of debt service payments that are financed with General Fund resources. Money to pay debt service on bonds secured by dedicated receipts, including PIT bonds, continues to be set aside as required by law and bond covenants.

#### **Debt Reform Cap**

Based on the revised forecasts in the Updated Financial Plan, debt outstanding and debt service costs over the plan period are expected to remain below the limits imposed by the Debt Reform Act. However, the available room under the outstanding debt cap is expected to decline from \$4.2 billion in 2010-11 to \$1.8 billion in 2012-13. The current projections represent a decline in projected debt capacity as compared to the Enacted Budget Financial Plan, which estimated that about \$2.3 billion in capacity would be available in 2012-13. In part, declines in debt capacity are a product of reduced forecasts for personal income levels. The changes to the debt reform projections over the past two years demonstrate the sensitivity of the cap calculations to volatility in State personal income levels and other economic factors. Measures to further adjust capital spending and debt financing practices are expected to be taken as needed to stay within the statutory limitations.

#### **Secured Hospital Program**

The financial position of certain hospitals that are part of the State's Secured Hospitals Revenue Bond Program has continued to deteriorate. Currently, there are nine hospitals in the program with a total of \$628 million in bonds outstanding as of October 31, 2010 and required debt service of \$56.7 million due during the balance of State fiscal year 2010-11. In this program, the State is responsible for making debt

service payments to bondholders if there are insufficient monies available therefor. The secured hospitals are contractually obligated to fund these payments in the first instance under their loan agreements with the Dormitory Authority. However, three hospitals are delinquent on their payment obligations, including one hospital (North General Hospital) that closed in July 2010 and is not expected to make further payments under its loan agreement to meet its debt service payments on \$117 million of debt outstanding. Funds held by the Dormitory Authority in a fund not pledged to bondholders have been used to fund shortfalls to date by those hospitals that have failed to make the necessary debt service payments under their respective loan agreements. However, the resources in this fund are expected to be depleted by fiscal year 2011-12. Therefore, based upon existing circumstances, it may be necessary to use pledged reserve funds and, ultimately, for the State to make payments in the future under a contingent contractual appropriation. The annual debt service payment for the North General Hospital is \$12 million annually until fiscal year 2025. Any debt service costs not covered by these delinquent hospitals, will be incorporated into the 2011-12 Executive Budget.

#### **Future Budget Gaps**

The incremental increases in the General Fund budget gaps identified in recent quarterly updates are largely due to deviations in projected receipts from forecast. The profitability of the financial services sector has traditionally represented a significant driver of General Fund tax receipts for the State. Accordingly, uncertainties surrounding the performance of the financial services sector represent an ongoing risk to the State's Financial Plan.

However, sustained growth in spending commitments in major programs and activities over the four-year Financial Plan period is a principal contributor to the State's long-term budget gaps. The State-financed portion of the budget has grown faster than both personal income and inflation over the past ten years, and is projected to do so over the next four years, absent measures to control spending. The following table summarizes the growth in State spending for 1999-00 through 2009-10.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]

|  | 10-Year Growth                           |                         |                           |  |
|--|--|-------------------------|---------------------------|--|
|  | 1999-00                                  | 2009-10 <sup>1, 2</sup> | Compound<br>Annual Growth |  |

|  | Personal Income Gr<br>Inflation (CPI) Gr |                         | 3.79<br>2.59              |  |

<sup>1</sup> Spending is adjusted to exclude the impact of paying the end-of-year school aid payment (\$2.06 billion) scheduled for the last quarter of 2009-10 in the first quarter of 2010-11, as authorized in statute. This was done to carry forward the 2009-10 budget shortfall into 2010-11. See Financial Plan tables for 2009-10 actual results.

<sup>2 2009-10</sup> Federal and All Funds disbursements and receipts have been adjusted to include \$2.0 billion in Federal aid that passes through the State's All Funds Financial Plan under the ARRA. This "pass-through" money, which provides no gap-closing benefit and is subject to a range of factors that make the timing of disbursements highly uncertain, was expected to total approximately \$4.4 billion in 2009-10. Actual disbursements, however, totaled only \$2.4 billion. Thus, 2009-10 results have been adjusted for the difference. See Financial Plan tables for 2009-10 actual results.

<sup>3</sup> Reflects payment of retroactive salary increases pursuant to collective bargaining settlements with unions (for NYSCOPBA, PBA and BCI) that have been excluded from agency totals above.

From 2010-11 through 2013-14, General Fund disbursements are projected to increase at an average annual rate of approximately 8.7 percent; State Operating Funds disbursements, which capture activity in State special revenue funds and debt service funds, as well as the General Fund, are projected to increase at 6.9 percent annually. In comparison, State tax receipts over the plan period are projected to grow at 4.3 percent annually, consistent with DOB's economic forecast for the recession and recovery. Accordingly, it is expected that the 2011-12 Executive Budget will propose substantial reductions in State spending commitments. (See "Outyear Financial Plan Projections" herein.)

#### **State Workforce**

The State workforce directly subject to Executive control is expected to total 126,493 at the end of 2010-11, a decline of 5,248 from 2009-10 levels. This projected decline mainly reflects the continuation of statewide hiring controls, a Retirement Incentive Program, and layoffs.

In 2011-12, the workforce is expected to increase to 127,032 by year-end and is primarily due to actions impacting institutional programs. Specifically, increasing census for the SOMTA program, which results in more individuals being civilly confined in OMH-operated facilities, is expected to add 224 positions; the multi-year closure plan to convert all of the State's OPWDD Developmental Centers to community-based settings by 2014 will add 215 positions; and the planned opening of a second Residential Mental Health Unit in July 2011, expanding mental health programs associated with a private settlement agreement and staffing the new central pharmacy located in Oneida county, will add 100 positions for DOCS.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]

<sup>&</sup>lt;sup>4</sup> Adjusted to exclude the impact of Federal stimulus funding that provides direct State aid. The unadjusted growth rates are approximately 12.8 percent in the General Fund and 9.8 percent in State Operating Funds.

# **Litigation and Arbitration**

## Real Property Claims\_\_\_\_\_

In Oneida Indian Nation of New York v. State of New York, 74-CV-187 (NDNY), the alleged successors-in-interest to the historic Oneida Indian Nation seek a declaration that they hold a current possessory interest in approximately 250,000 acres of lands that the tribe sold to the State in a series of transactions that took place beginning in 1795 and ending in 1846, and ejectment of the State and Madison and Oneida Counties from all publicly-held lands in the claim area. This case remained dormant while the Oneidas pursued an earlier action which sought limited relief relating to a single 1795 transaction and the parties engaged in intermittent, but unsuccessful, efforts to reach a settlement. In 1998, the United States filed a complaint in intervention in Oneida Indian Nation of New York. In December 1998, both the United States and the tribal plaintiffs moved for leave to amend their complaints to assert claims for 250,000 acres, including both monetary damages and ejectment, to add the State as a defendant, and to certify a class made up of all individuals who currently purport to hold title within the affected 250,000 acre area. On September 25, 2000, the District Court granted the motion to amend the complaint to the extent that it sought to add the State as a defendant and to assert money damages with respect to the 250,000 acres and denied the motion to certify a class of individual landowners and to seek the remedy of ejectment.

In a decision dated March 29, 2002, the District Court granted, in part, plaintiffs' motion to strike the State's defenses and counterclaims. The District Court also denied the State's motion to dismiss for failure to join indispensable parties.

Further efforts at settlement of this action failed to reach a successful outcome. While such discussions were underway, two significant decisions were rendered by the Supreme Court and the Second Circuit Court of Appeals which changed the legal landscape pertaining to ancient land claims: City of Sherrill v. Oneida Indian Nation of New York, 544 U.S. 197 (2005), and Cayuga Indian Nation of New York v. Pataki, 413 F.3d 266 (2d Cir. 2005), cert. denied, 126 S.Ct. 2021, 2022 (2006). Taken together, these cases have made clear that the equitable doctrines of laches, acquiescence, and impossibility can bar ancient land claims. These decisions prompted the District Court to reassess its 2002 decision, which in part had struck such defenses, and to permit the filing of a motion for summary judgment predicated on the Sherrill and Cayuga holdings. On August 11, 2006, the defendants moved for summary judgment dismissing the action, based on the defenses of laches, acquiescence, and impossibility. By order dated May 21, 2007, the District Court dismissed plaintiffs' claims to the extent that they asserted a possessory interest, but permitted plaintiffs to pursue a claim seeking the difference between the amount paid and the fair market value of the lands at the time of the transaction. The District Court certified the May 21, 2007 order for interlocutory appeal and, on July 13, 2007, the Second Circuit granted motions by both sides seeking leave to pursue interlocutory appeals of that order. On August 9, 2010, the Circuit Court rendered a decision which affirmed the summary judgment order insofar as it dismissed the *Oneida* land claim and reversed it insofar as it would have allowed plaintiffs to pursue a fair compensation claim against the State. Oneida Indian Nation et al v. County of Oneida et al, 617 F.3d 114 (2d Cir. 2010). This decision mandates dismissal of the Oneida land claim. The U.S. and the Oneidas filed an application for en banc review before the Second Circuit on October 21, 2010, which awaits a decision at this time.

Other Indian land claims include *Canadian St. Regis Band of Mohawk Indians, et al.*, v. State of New York, et al., and The Onondaga Nation v. The State of New York, et al. both in the United States District Court for the Northern District of New York.

In the Canadian St. Regis Band of Mohawk Indians case, plaintiffs seek ejectment and monetary damages with respect to their claim that approximately 15,000 acres in Franklin and St. Lawrence Counties were illegally transferred from their predecessors-in-interest. By decision dated July 28, 2003, the District Court granted, in most respects, a motion by plaintiffs to strike defenses and dismiss counterclaims contained in defendants' answers. By decision dated October 20, 2003, the District Court denied the State's motion for reconsideration of that portion of the July 28, 2003 decision which struck a counterclaim against the United States for contribution. On February 10, 2006, after renewed efforts at settlement failed to resolve this action, and recognizing the potential significance of the Sherrill and Cayuga appeals, the District Court stayed all further proceedings in this case until 45 days after the United States Supreme Court issued a final decision in the Cayuga Indian Nation of New York Case. On November 6, 2006, after certiorari was denied in Cayuga, the defendants moved for judgment on the pleadings. Although the motion is fully briefed and awaiting decision, on April 16, 2008, the District Court issued an order staying the case until a decision is rendered with respect to the appeal in the Oneida case. The court has requested that the parties consult and seek agreement by November 2010 on the issue of lifting the stay and supplemental briefing schedules.

In *The Onondaga Nation v. The State of New York, et al.*, plaintiff seeks a judgment declaring that certain lands allegedly constituting the aboriginal territory of the Onondaga Nation within the State are the property of the Onondaga Nation and the Haudenosaunee, or "Six Nations Iroquois Confederacy," and that conveyances of portions of that land pursuant to treaties during the period 1788 to 1822 are null and void. The "aboriginal territory" described in the complaint consists of an area or strip of land running generally north and south from the St. Lawrence River in the north, along the east side of Lake Ontario, and south as far as the Pennsylvania border, varying in width from about 10 miles to more than 40 miles, including the area constituting the City of Syracuse. On August 15, 2006, based on *Sherrill* and *Cayuga*, the defendants moved for an order dismissing this action, based on laches. The motion is now fully briefed and awaiting decision.

Cayuga Indian Nation of New York, et al. v Pataki, et al., USDC, NDNY, 80-CV-930 (McCurn, DJ) (2d Cir. [02-6111]) involved approximately 64,000 acres in Seneca and Cayuga Counties surrounding the northern portion of Cayuga Lake that the historic Cayuga Nation sold to the State in 1795 and 1807 in alleged violation of the Nonintercourse Act ("NIA") (first enacted in 1790 and now codified at 25 U.S.C. § 177) because the transactions were not held under federal supervision, and were not formally ratified by the United States Senate and proclaimed by the President. After two lengthy trials, in 2001 the District Court denied ejectment as a remedy, and rendered a judgment against the State for damages and prejudgment interest in the net amount of \$250 million. The State appealed. The tribal plaintiffs (but not the U.S.) cross-appealed, seeking ejectment of all of the present day occupants of the land in the 64,000 acre claim area and approximately \$1.5 billion in additional prejudgment interest.

On June 28, 2005, the Second Circuit reversed and entered judgment dismissing the Cayuga action, based upon the intervening Supreme Court decision in *Oneida Indian Nation v. City of Sherrill*, 544 U.S. 197 (2005) which held (in the context of a property tax dispute involving a parcel that the tribe had purchased in fee within the Oneida claim area) that disruptive claims of Indian sovereignty could be barred by equitable defenses, including laches, acquiescence and impossibility. *Cayuga Indian Nation v. Pataki*, 413 F.3d 266 (2d Cir. 2005). The Second Circuit concluded that the same equitable considerations that the Supreme Court relied on in *City of Sherrill* applied to the Cayugas' possessory claim and required dismissal of the entire lawsuit, including plaintiffs' claim for money damages and their claim for ejectment. The Court also held that the United States' complaint-in-intervention was barred by laches. The Supreme Court denied certiorari in *Cayuga* on May 15, 2006. 126 S. Ct. 2021, 2022.

This case was closed but recently became active when the Cayuga plaintiffs filed a FRCP 60(b)(6) motion to have the judgment vacated. Along with this motion a letter was sent to Judge McCurn's chamber seeking a stay of the 60 (b)(6) motion until after the Second Circuit decides the appeal in the *Oneida* Land Claim case. The motion is premised on Judge Kahn's ruling in *Oneida*, discussed above, that in spite of the Second Circuit decision in *Cayuga*, the tribe may proceed to prove a non-possessory claim for unjust compensation against the State defendant. By stipulation of the parties, so-ordered by Judge McCurn, further briefing on the Cayugas' motion for relief from judgment was suspended, pending the outcome of the Oneida appeal. That stay was recently lifted in light of the August 9, 2010 *Oneida* decision, and further briefing regarding the pending Rule 60(b) motion was filed on September 10, 2010.

## **Metropolitan Transportation Authority**

In Hampton Transportation Ventures, Inc. et al. v. Silver et al. (Sup. Ct, Suffolk Co.), and other similar cases, including William Floyd Union Free School District v. State (Sup. Ct., Suffolk Co.), Town of Brookhaven v. Silver, et al (Sup. Ct., Suffolk Co.), Town of Southampton and Town of Southold v. Silver (Sup. Ct. Suffolk Co.), Town of Huntington v. Silver (Sup. Ct. Suffolk Co.), Town of Smithtown v. Silver (Sup. Ct. Suffolk Co.), Mangano v. Silver (Sup. Ct. Nassau Co) and Vanderhoef v. Silver (now in Sup. Ct. Albany Co), plaintiffs challenge the constitutionality of 2009 Laws of New York chapter 25, which imposed certain taxes and fees, including a regional payroll tax, in the Metropolitan Commuter Transportation District, the revenue from which is directed to the Metropolitan Transportation Authority. Plaintiffs seek a judgment declaring that enactment of chapter 25 violated State constitutional provisions relating to the need for a home rule message, supermajority requirements for enactment of special or local laws, single purpose appropriation bills, and liability for the debts of public authorities. Plaintiffs also seek a judgment declaring that enactment of chapter 25 violated provisions of the Public Authority Law § 1266 requiring that the Metropolitan Transportation Authority be self-sustaining.

With the consent of the plaintiff (the County Executive of Rockland County), the Vanderhoef case was transferred to Albany County from Rockland County and the defendants intend to move for judgment in their favor. Defendants in each of the other cases have moved to change the venue of their respective cases to Albany County or New York County. A number of additional towns and a village in various counties, Suffolk County and the Orange County Chamber of Commerce have joined the Mangano case as plaintiffs.

## School Aid \_\_\_\_

In *Becker et al. v. Paterson et al. (Sup. Ct, Albany Co.)*, plaintiffs seek a judgment declaring that the governor's determination to delay payment of school aid due by statute on December 15, 2009, violated State constitutional provisions related to, among other things, the separation of powers doctrine. Since the commencement of the suit, the moneys at issue have been released. Following a February 3, 2010 conference with the court to discuss the status of the case, plaintiffs amended their complaint to reflect late payment of the moneys at issue. Pursuant to a Court-direct schedule, following defendants' answer, plaintiffs moved for summary judgment on March 5, 2010. Defendants cross-moved for summary judgment on April 15, 2010. The plaintiffs replied on May 7, 2010 and defendants filed their sur-reply on May 21, 2010. The motions were argued on June 24, 2010 and the parties await decision.

In a second case involving the parties (Becker et al. v. Paterson [Sup. Ct., Albany Co.]), plaintiffs seek a judgment declaring that the governor's determination to delay payment of school aid from March 31, 2010 to June 1, 2010, also violated State constitutional provisions related to, among other things, the separation of powers doctrine. Since the commencement of the suit, the moneys at issue have also been released. The defendants answered, claiming that the statue in question, Education Law §3609-a, permitted payment on June 1, 2010, and that March 31, 2010 was merely an authorized pre-payment date.

Plaintiffs moved for summary judgment on July 21, 2010 and defendants responded and cross-moved for summary judgment on September 16, 2010. The plaintiffs waived their right to reply on their motion and submitted no opposition to the cross-motion. The parties waived oral argument and await decision.

In *Hussein v. State of New York*, plaintiffs seek a judgment declaring that the State's system of financing public education violates section 1 of article 11 of the State Constitution, on the ground that it fails to provide a sound basic education. In a decision and order dated July 21, 2009, Supreme Court, Albany County, denied the State's motion to dismiss the action. The State has appealed this denial to the Appellate Division, Third Department. The appeal will be argued in November, 2010.

### Representative Payees \_\_\_\_\_

In <u>Weaver et ano</u>. v. <u>State of New York</u>, filed in the New York State Court of Claims on July 17, 2008 and subsequently amended, two claimants allege that the executive directors of the Office of Mental Health facilities in which the claimants were hospitalized, acting as representative payees under the Federal Social Security Act, improperly received benefits due them and improperly applied those benefits to the cost of their in-patient care and maintenance and, in the case of one of the claimants, also to the cost of her care and maintenance in a state-operated community residence.

The first named claimant initially sought benefits on her own behalf as well as certification of a class of claimants. However, the class claims were dismissed by the Court of Claims on February 10, 2010 for failure to comply with Court of Claims Act § 11(b), which provides that a claim must state when and where the claim arose, the nature of the claim, the items of damage, and the total sum claimed. On March 18, 2010, claimants filed a notice of appeal.

On June 4, 2010, the State moved for summary judgment against the individual claims on various grounds. The State's summary judgment motion is *sub judice*. By decision and order dated September 27, 2010, the Court of Claims (Ruderman, J.), granted the State's motion for summary judgment and dismissed the individual claims. The Court held that the state statutes relied on by claimants do not apply to Social Security benefits and that executive directors of OMH facilities are acting properly in accordance with the Social Security Act and applicable federal regulations. The time in which claimants may appeal from this decision and order has not yet expired.

# Sales Tax \_\_\_\_\_

In Seneca Nation of Indians v. Paterson et al. (USDC WDNY), St. Regis Mohawk Tribe v. Paterson, et al. (USDC WDNY), Unkechauge Indian Nation v Paterson, et al. (USDC WDNY), and Oneida Indian Nation of New York v Paterson, et al. (USDC NDNY), plaintiffs seek judgments declaring that Chapters 134 and 136 of the Laws of 2010, which enacted amendments to the Tax Law regarding collection of excise taxes on reservation cigarette sales to non-tribal members, violate their rights under Federal law, and enjoining the State from enforcing those laws. On August 26, 2010, in Seneca, the District Court granted a motion to intervene brought by the Cayuga Indian Nation of New York. In Seneca, in an order dated August 31, 2010, the District Court ordered that defendants are temporarily restrained from implementing, administering and enforcing the challenged provisions of the Tax Law and the implementing regulations as applied to the Seneca Nation of Indians and the Cayuga Indian Nation of New York pending further order of the Court. On October 15, 2010 the District Court granted a similar temporary restraining order in the St. Regis and Unkechauge cases.

On October 14, 2010, the District Court in *Seneca* denied plaintiffs' motion for a preliminary injunction but granted a stay of enforcement of the Tax Law amendments pending plaintiffs' appeal. The Cayuga Indian Nation moved in the District Court for reconsideration of the denial of the preliminary injunction and to refer the case to mediation. On October 14, 2010, the District Court in *Oneida* granted plaintiff's motion for a preliminary injunction and also referred the case to mediation. Defendants appealed to the Second Circuit from the stay pending appeal in *Seneca* and the preliminary injunction in *Oneida*, and the Seneca Nation of Indians appealed from the denial of the preliminary injunction in *Seneca*. Defendants moved in the Second Circuit in *Seneca* and in *Oneida* to vacate pending appeal the orders that defendants appealed in those cases. Those motions have been referred to a motions panel of the Second Circuit which is scheduled to consider them on November 9, 2010.

On October 26, 2010, the District Court heard argument on the plaintiffs' motions for a preliminary injunction in *St. Regis* and *Unkechauge*. It also extended the temporary restraining order in those cases until November 12, 2010.

In *Day Wholesale Inc.*, *et al.* v. *State*, *et al.* (*Sup. Ct.*, *Erie Co.*), plaintiffs also seek to enjoin the collection of taxes on cigarettes sold to or by reservation retailers. On August 31, 2010, the Supreme Court, Erie County issued an order vacating two earlier preliminary injunctions of that court barring the collection of such taxes until defendants had taken certain steps to comply with prior law. The Court also denied plaintiffs' motion for a preliminary injunction enjoining enforcement of the provisions of Chapters 134 and 186 of the Laws of 2010.

The plaintiffs in *Day Wholesale* appealed. On September 14, 2010 the Appellate Division, Fourth Department denied plaintiffs' motion for a preliminary injunction pending appeal.

## Bottle Bill Litigation \_\_\_\_\_

In *International Bottled Water Association, et al. v. Paterson, et al.*, plaintiffs seek declaratory and injunctive relief declaring that certain amendments to the State's Bottle Bill enacted on April 7, 2009 as part of the 2009-2010 budget violate the due process clause, the equal protection clause and the commerce clause of the United States Constitution. On May 27, 2009, the United States District Court for the Southern District of New York issued a preliminary injunction staying the June 1, 2009 effective date of the amendments to the Bottle Bill and declared that the section of the amendments which requires that the plaintiffs and other beverage manufacturers and distributors place a unique New York-exclusive universal product code on all bottles covered by the law that are offered for sale in the State violates the commerce clause of the United States Constitution. By order entered May 29, 2009 that superseded the above-referenced May 27, 2009 preliminary injunction, the district court granted a preliminary injunction that (1) enjoined the State from implementing or enforcing the New-York exclusive universal product code provision of the Bottle Bill and (2) enjoined the State from implementing or enforcing any and all other amendments to the Bottle Bill signed into law on April 7, 2009, until April 1, 2010, to allow persons subject to the amendments sufficient time to comply with the law's requirements.

The State defendants moved to modify the preliminary injunction. On August 13, 2009 the Court modified the injunction so that its provisions applied only to water bottles, stating that the injunction would dissolve by October 22, 2009 unless the bottlers showed cause that due process required that the injunction should continue. On October 23, 2009, after reviewing the parties' submissions, the Court lifted the injunction, allowing most parts of the State law requiring a five cent deposit on water bottles to take effect October 31, 2009. The Court's decision, however, permanently enjoined the State from implementing a provision that required water bottles to bear a New York-exclusive universal product code on each bottle.

On March 22, 2010, the Court endorsed stipulated final judgments making final the permanent injunction on the New York-exclusive UPC provisions and lifting the preliminary injunctions in the August 13, 2009 and October 23, 2009 orders. On March 23, 2010, the Court endorsed plaintiffs' voluntary dismissal of all remaining claims, including their challenge to the Sugar Water Exemption. An interlocutory appeal by a non-party to the Second Circuit challenging a September 14, 2009 clarification order that the August 13, 2009 order lifting the preliminary injunction as to all non-bottled water products was not intended to be retroactive remains pending. Negotiations over plaintiffs' attorney fees have been completed.

### Public Finance

In *Bordeleau et al. v. State of New York, et al.*, a group of 50 individuals filed a complaint in the Supreme Court, Albany County, asking the court to enjoin certain expenditures of State funds and declare them to be illegal under the New York State Constitution. In particular, the plaintiffs claim that the State budget appropriates funds for grants to private corporations, allegedly in violation of Article VII, § 8, paragraph 1 of the Constitution, which provides that "money of the state shall not be given or loaned to or in aid of any private corporation or association, or private undertaking," except for certain specified exceptions. The plaintiffs also claim that because the State budget provides, in part, that some appropriated funds will be used "in accordance with a memorandum of understanding entered into between the governor, majority leader of the senate and the speaker of the assembly, or their designees," the Senate and Assembly have "improperly delegated their legislative powers" in violation of Article VII, § 7, which provides that every law making an appropriation "shall distinctly specify the sum appropriated, and the object or purpose to which it is to be applied."

In addition to the State defendants, the complaint names as defendants certain public authorities and private corporations that are claimed to be recipients of the allegedly illegal appropriations. The State defendants and several other defendants moved to dismiss the complaint for failure to state a cause of action, for failure to join certain necessary parties, and for lack of a justiciable controversy. In a decision and order dated February 27, 2009, Supreme Court, Albany County, granted the motion to dismiss the complaint, finding no violation of either Article VII, § 7, or Article VII, § 8. The court concluded that the challenged appropriations were valid expenditures for public purposes and not "gifts" prohibited under Article VII, § 8. The court also rejected the appellant's challenge to the reference in the budget to a memorandum of understanding, relying on that Court's holding in *Saxton v. Carey*, 44 N.Y.2d 545 (1978), that the degree of itemization required under Article VII, § 7 is to be determined by the Legislature, not the courts.

Plaintiffs appealed from the dismissal of their complaint. The appeal was argued in the Appellate Division, Third Department, on April 26, 2010. On June 24, 2010, the Appellate Division reversed the dismissal of the case and remanded the matter back to the lower court. The Appellate Division order directed the defendants to answer the complaint thirty days after the date of the decision. On September 13, 2010, the Appellate Division granted the defendants' motion for leave to appeal to the Court of Appeals.

## **Eminent Domain**

In *Gyrodine v. State of New York* (Court of Claims), claimant seeks compensation under the Eminent Domain Procedures Law in connection with the appropriation by the State of 245 acres of land in connection with the expansion of SUNY Stony Brook. By decision dated June 21, 2010, the Court of Claims awarded claimant \$125 million as compensation for the appropriation. On September 13, 2010, the State appealed from the decision.

## Insurance Department Assessments\_\_\_\_

In New York Insurance Association, Inc. v. State (Sup. Ct., Albany Co.), several insurance companies and an association of insurance companies seek a declaration that certain assessments issued against the plaintiff insurance companies by the Insurance Department pursuant to Insurance Law § 332 violate the Insurance Law and the State and Federal Constitutions to the extent that the assessments include amounts for items that are not direct expenses of the Insurance Department. The State filed its answer on May 4, 2010.

On June 9, 2010, the State filed a motion for summary judgment. Plaintiffs have filed a motion for permission to conduct discovery prior to responding to the State's motion for summary judgment. Plaintiffs' motion is returnable on December 13, 2010, but plaintiffs have indicated that they intend to file an amended complaint prior to that time.

# Tobacco Master Settlement Agreement (MSA) \_\_\_\_\_

In Freedom Holdings Inc. et al. v. Spitzer et ano., two cigarette importers brought an action in 2002 challenging portions of laws enacted by the State under the 1998 Tobacco Master Settlement Agreement (MSA) that New York and many other states entered into with the major tobacco manufacturers. The initial complaint alleged: (1) violations of the Commerce Clause of the United States Constitution; (2) the establishment of an "output cartel" in conflict with the Sherman Act; and (3) selective nonenforcement of the laws on Native American reservations in violation of the Equal Protection Clause of the United States Constitution. The United States District Court for the Southern District of New York granted defendants' motion to dismiss the complaint for failure to state a cause of action. Plaintiffs appealed from this dismissal. In an opinion dated January 6, 2004, the United States Court of Appeals for the Second Circuit (1) affirmed the dismissal of the Commerce Clause claim; (2) reversed the dismissal of the Sherman Act claim; and (3) remanded the selective enforcement claim to the District Court for further proceedings. Plaintiffs have filed an amended complaint that also challenges the MSA itself (as well as other related State statutes) primarily on preemption grounds. On September 14, 2004, the District Court denied all aspects of plaintiffs' motion for a preliminary injunction, except that portion of the motion relating to the ability of tobacco manufacturers to obtain the release of certain funds from escrow. Plaintiffs have appealed from the denial of the remainder of the motion to the United States Court of Appeals for the Second Circuit. In May 2005, the Second Circuit affirmed the denial of the preliminary injunction. In December 2006, the motions and cross-motions of the parties for summary judgment were fully submitted to the District Court. By order dated July 7, 2008, the District Court requested updated statistical information and other information needed to resolve certain material questions. Following an evidentiary hearing, by December 15, 2008 order summarizing a preliminary decision, the District Court dismissed all of plaintiff's claims. On January 12, 2009, the Court issued its opinion and order granting judgment dismissing the complaint. Plaintiff has appealed and the appeal is pending before the Second Circuit.

In Grand *River Ent. v. King*, a cigarette importer raises the same claims as those brought by the plaintiffs in *Freedom Holdings*, in a suit against the attorneys general of thirty states, including New York. The parties have cross-moved for summary judgment in the United States District Court for the Southern District of New York; oral argument was held on April 27, 2010 and the parties are awaiting the decision from Judge Keenan.

#### **MSA Arbitration**

Each year in perpetuity, under the MSA between tobacco manufacturers who are party to the MSA ("PMs") and 46 settling states, plus some territories and the District of Columbia, (collectively the "Settling States") the PMs pay the Settling States a base payment to compensate for financial harm to the Settling States for smoking-related illness. New York's allocable share of the total payment is approximately 12.8% of the total, or approximately \$800 million annually. In order to keep the base payment under the MSA, each Settling State must pass and diligently enforce a statute that requires tobacco manufacturers who are not party to the MSA ("NPMs") to deposit in escrow an amount roughly equal to the amount that the PMs pay per pack sold. The PMs have brought a nationwide arbitration against the Settling States (minus Montana) asserting that those States failed to diligently enforce their respective escrow statutes in 2003. Any such claim for the years prior to 2003 were settled in 2003. The PMs are making the same claim for years 2004-2006, but none of those years are yet in arbitration. The full panel of arbitrators, all of whom are retired Art. III federal judges, has been selected. An Administrative Conference was held on July 20, 2010; the Initial Conference took place in Chicago on October 5, 2010; the next hearing on several preliminary legal issues will be held in Chicago on December 6-7, 2010.
