 41 following, provided that payments from
 42 this appropriation shall be made pursuant
 43 to a financial plan approved by the direc-

2 ations, the commissioner of transportation
3 may combine and/or take into consideration
4 those formulas used to distribute mass
5 transportation operating assistance pay-
6 ments authorized by separate appropri-
7 ations in order to facilitate program
8 administration and to ensure an orderly
9 distribution of such funds.

10 To improve the predictability in the level
11 of funding for those systems receiving op-
12 erating assistance payments under service
13 and usage formulas, the commissioner of
14 transportation is authorized with the
15 approval of the director of the budget, to
16 provide service payments from these ap-
17 propriations based on service and usage
18 statistics of the preceding year.

19 Notwithstanding the reporting date provision
20 of section 17-a of the transportation law,
21 the reports of each regional transpor-
22 tation authority and other major public
23 transportation systems receiving mass
24 transportation operating assistance pursu-
25 ant to these appropriations shall be sub-
26 mitted on or before July 15 of each year
27 in the format prescribed by the commis-
28 sioner of transportation. Copies of such
29 reports shall also be filed with the
30 chairpersons of the senate finance commit-
31 tee and the assembly ways and means com-
32 mittee and the director of the budget.
33 The commissioner of transportation may
34 withhold future state operating assistance
35 payments from these appropriations to
36 public transportation systems or private
37 operators that do not provide such re-
38 ports.

39 The commissioner of transportation shall be
40 required to annually evaluate the oper-
41 ating and financial performance of each
42 major public transportation system. Where
43 the commissioner's evaluation process has
44 identified a problem related to system
45 performance, the commissioner may request
46 the system to develop plans to address the
47 performance deficiencies. The commissioner
48 of transportation may withhold future
49 state operating assistance payments from
50 these appropriations to public transpor-
51 tation systems or private operators that
52 do not provide such operating, financial,

2 the commissioner to conduct the evaluation
3 process.
4 Payments from these appropriations shall be
5 made contingent upon compliance with regu-
6 lations deemed necessary and appropriate,
7 as prescribed by the commissioner of
8 transportation and approved by the direc-
9 tor of the budget, which shall promote the
10 economy, efficiency, utility, effective-
11 ness, and coordinated service delivery of
12 public transportation systems. The chief
13 executive officer of each public trans-
14 portation system receiving a payment from
15 these appropriations shall certify to the
16 commissioner of transportation, in addi-
17 tion to information required by section
18 18-b of the transportation law, such other
19 information as the commissioner of trans-
20 portation shall determine is necessary to
21 determine compliance and carry out the
22 purposes herein.

23 Counties, municipalities or Indian tribes
24 that propose to allocate service payments
25 from these appropriations to operators on
26 a basis other than the amount earned by
27 the service payment formula shall be re-
28 quired to describe the proposed method of
29 distributing governmental operating aid
30 and submit it one month prior to the start
31 of the operator's fiscal year to the com-
32 missioner of transportation in writing for
33 review and approval prior to the distri-
34 bution of state aid. The commissioner of
35 transportation shall only approve alter-
36 nate distribution methods which are con-
37 sistent with the transportation needs of
38 the people to be served and ensure that
39 the system of private operators does not
40 exceed established maximum service payment
41 limits. Copies of such approvals shall be
42 submitted to the chairpersons of the sen-
43 ate finance and assembly ways and means
44 committees.

45 Notwithstanding the provisions of subdivi-
46 sion 4 of section 18-b of the transporta-
47 tion law, the commissioner of transporta-
48 tion is authorized to continue to use
49 prior quarter statistics to determine
50 current quarter payment amounts from these
51 appropriations, as initiated in the April
52 to June quarter of 1981. In the event that

DEPARTMENT OF TRANSPORTATION

1 actual revenue passengers and actual total
2 number of vehicle, nautical or car miles
3 are not available for the preceding quar-
4 ter, estimated statistics may be used as
5 the basis of payment upon approval by the
6 commissioner of transportation. In such
7 event, the succeeding payment shall be
8 adjusted to reflect the difference between
9 the actual and estimated total number of
10 revenue passengers and vehicle, nautical
11 or car miles used as the basis of the
12 estimated payment. The chief executive of-
13 ficer may apply for less aid than the
14 system is eligible to receive. Each quar-
15 terly payment shall be attributable to
16 operating expenses incurred during the
17 quarter in which it is received, unless
18 otherwise specified by such commissioner.
19 In the event that a public transportation
20 system ceases to participate in the pro-
21 gram, operating assistance due for the fi-
22 nal quarter that service is provided shall
23 be based upon the actual total number of
24 revenue passengers and the actual total
25 number of vehicle, nautical or car miles
26 carried during that quarter.

27 Payments from these appropriations shall be
28 contingent on compliance with audit re-
29 quirements determined by the commissioner
30 of transportation.

31 In the event that an audit of a public
32 transportation system or private operator
33 receiving funds from these appropriations
34 discloses the existence of an overpayment
35 of state operating assistance, regardless
36 of whether such an overpayment results
37 from an audit of revenue passengers and
38 the actual number of revenue vehicle miles
39 statistics, or an audit of private oper-
40 ators in cases where more than a reason-
41 able return based on equity or operating
42 revenues and expenses has resulted, the
43 commissioner of transportation, in addi-
44 tion to recovering the amount of state
45 operating assistance overpaid from these
46 appropriations, shall also recover in-
47 terest, as defined by the department of
48 taxation and finance, on the amount of the
49 overpayment.

50 Notwithstanding any other law, rule or regu-
51 lation to the contrary, whenever the com-
52 missioner of transportation is notified by

2 nues available for payment from an account
3 is less than the total amount of money for
4 which the public mass transportation sys-
5 tems are eligible pursuant to the provi-
6 sions of section 88-a of the state finance
7 law and any appropriations enacted for
8 these purposes, the commissioner of trans-
9 portation shall establish a maximum pay-
10 ment limit which is proportionally lower
11 than the amounts set forth in these appro-
12 priations.

13 In order to be eligible to receive service
14 payments from these appropriations, eligi-
15 ble public mass transportation systems
16 must fully utilize funds made available
17 under section 18-b of the transportation
18 law. All provisions, rules and regulations
19 promulgated pursuant to section 18-b of
20 the transportation law, except subdivi-
21 sions 3 and 5 of such section, shall
22 govern the payment of funds from these ap-
23 propriations.

24 Notwithstanding paragraphs (b) of subdivi-
25 sions 5 and 7 of section 88-a of the state
26 finance law and any other general or spe-
27 cial law, payments may be made from these
28 appropriations in quarterly installments
29 or in such other manner and at such other
30 times as the commissioner of transporta-
31 tion, with the approval of the director of
32 the budget may prescribe.

33 Payment of any amount provided from these
34 appropriations to Rockland county for a
35 trans-Hudson bus service shall not reduce
36 the payments of the amounts appropriated
37 for operating expenses of the Staten
38 Island ferry and all other public trans-
39 portation systems serving primarily within
40 the metropolitan commuter transportation
41 district eligible to receive assistance
42 from the metropolitan transportation op-
43 erating assistance account in accordance
44 with a service and usage formula. It is
45 further provided that in the commissioner
46 of transportation's annual establishment
47 of a maximum service payment limit for
48 private operators that reflects a reason-
49 able return on equity or operating revenue

CAPITAL PROJECTS 1999-2000

1 For the payment of operating expenses for
2 public transportation systems serving
3 primarily outside the metropolitan
4 transportation commuter district eligible
5 to receive operating assistance under the
6 provisions of section 18-b of the
7 transportation law in accordance with
8 the schedule below.

9 In establishing service and usage formulas
10 for distribution of mass transportation
11 operating assistance from this appropria-
12 tion, the commissioner of transportation
13 may combine and/or take into considera-
14 tion those formulas used to distribute
15 mass transportation operating assistance
16 payments authorized by separate appropria-
17 tions in order to facilitate program
18 administration and to ensure an orderly
19 distribution of such funds.

20 To improve the predictability in the level
21 of funding for those systems receiving
22 operating assistance payments under
23 service and usage formulas, the
24 commissioner of transportation is author-
25 ized with the approval of the director of
26 the budget, to provide service payments
27 from this appropriation based on service
28 and usage statistics of the preceding
29 year.

30 Notwithstanding the reporting date pro-
31 vision of section 17-a of the transporta-
32 tion law, the reports of each regional
33 transportation authority and other major
34 public transportation systems receiving
35 mass transportation operating assistance
36 pursuant to this appropriation shall be
37 submitted on or before July 15 of each
38 year in the format prescribed by the
39 commissioner of transportation. Copies of
40 such reports shall also be filed with the
41 chairpersons of the senate finance
42 committee and the assembly ways and means
43 committee and the director of the budget.
44 The commissioner of transportation may
45 withhold future state operating assist-
46 ance payments from this appropriation to
47 public transportation systems or private
48 operators that do not provide such
49 reports.

50 The commissioner of transportation shall be
51 required to annually evaluate the
52 operating and financial performance of

DEPARTMENT OF TRANSPORTATION

1 each major public transportation system.
2 Where the commissioner's evaluation
3 process has identified a problem related
4 to system performance, the commissioner
5 may request the system to develop plans
6 to address the performance deficiencies.
7 The commissioner of transportation may
8 withhold future state operating assis-
9 tance payments from this appropriation to
10 public transportation systems or private
11 operators that do not provide such
12 operating, financial, or other informa-
13 tion as may be required by the
14 commissioner to conduct the evaluation
15 process.

16 Payments from this appropriation shall be
17 made contingent upon compliance with
18 regulations deemed necessary and approp-

20 of transportation and approved by the
21 director of the budget, which shall
22 promote the economy, efficiency, utility,

27 receiving a payment from this appropria-
28 tion shall certify to the commissioner of

43 and submit it one month prior to the
44 start of the operator's fiscal year to

3 such approvals shall be submitted to the
4 chairpersons of the senate finance and
5 assembly ways and means committees.
6 Notwithstanding the provisions of sub-
7 division 4 of section 18-b of the trans-
8 portation law, the commissioner of trans-
9 portation is authorized to continue to
10 use prior quarter statistics to determine
11 current quarter payment amounts from this
12 appropriation, as initiated in the April
13 to June quarter of 1981. In the event
14 that actual revenue passengers and actual
15 total number of vehicle, nautical or car
16 miles are not available for the preceding
17 quarter, estimated statistics may be used
18 as the basis of payment upon approval by
19 the commissioner of transportation. In
20 such event, the succeeding payment shall
21 be adjusted to reflect the difference
22 between the actual and estimated total
23 number of revenue passengers and vehicle,
24 nautical or car miles used as the basis
25 of the estimated payment. The chief
26 executive officer may apply for less aid
27 than the system is eligible to receive.
28 Each quarterly payment shall be attribut-
29 able to operating expenses incurred
30 during the quarter in which it is
31 received, unless otherwise specified by

38 passengers and the actual total number of
39 vehicle, nautical or car miles carried
40 during that quarter.
41 Payments from this appropriation shall be
42 contingent on compliance with audit re-
43 quirements determined by the commissioner
